restore the nutrition of the nerves and have cured many cases of paralysis when all other remedies and methods of treatment have failed. The record of this remedy entitles it to a thorough trial.

Perhaps there is no man better known in the city of Lawrence, Kansas, than Mr. G. H. Snyder. To a reporter Mr. Snyder related a wonderful story. He said: "I am now seventy years of age. About three years ago I experienced a coldness or numbness in the feet, then creeping up my legs until it reached my knees. I had no appetite, my weight was very poor and I did not relish my food. At last I became so bad I was unable to move about. I consulted several distinguished physicians, one of whom said I had locomotor ataxia, another said I had cerebral palsy. I took their medicines but they did me no good and I continued to grow weaker. One day a friend advised me to try Dr. Williams' Pink Pills for Pale People. I immediately commenced their use, throwing all other medicines aside. I had finished my first box I found that they were benefiting me. I used twelve boxes in all and was perfectly cured."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nervous system. They are an antidote for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent, postpaid, on receipt of price, six or ten boxes for \$2.50 (they are never sold in bulk or by the 100) by addressing Dr. Williams Medicine Company, Schenectady, N. Y.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected. Respectfully, Mrs. Mary A. Beard, Claremore, Ark. The lengthy programme was carried out as published. The audience was unusually large and the numbers so uniformly creditable that it would be useless to particularize. The papers, "The Park Fence Must Go," by Mary Furdval, and "The Park Fence Must Not Go," by Ann Harte, were very interesting. Both arguments were able, but the former had the advantage of an audience prejudiced in his favor.
