Patten, of Wilkes-Barre, is one of the best pitchers in the Atlantic league and .23; several of the big clubs look at him with envious eyes. • • • As we look at it Newark has the weakest team in the Atlantic league and has no business to lead the second divsion.

Coughlin and Richter, members of the Wilkes-Barre team, were overcome by heat Friday night at the St. Cloud hotel at Wilkes-Barre. Coughlin will resume his work today. Richter will be unable

THE MARKETS.

Wall Street Review.

By Associated Press. New York, June 24 .- The bear operators

New York, June 24.—The bear operators among the professional traders became sommyhat discouraged over the events of today's short session and engaged in something like ascramble to cover out-standing short contracts in the closing dealings. An unfavorable bank state-ment had been counted upon by this ele-ment to further a decline. Today's state-ment, while it cannot be called a favor-able one, was not as weak as had been foretold and when the bears started to cover shorts after its publication they found that it had brought slight offer-ings to sell. The banks' loss in cash re-serves was not as large by over a million dollars as had been estimated and the further liberal expansion of more than 5.000,000 in loans indicated the faith of banking authorites in the money outlook.

So.000,000 in loans indicated the faith of banking authorites in the money outlook. The total sales were 191,400 shares. The bond market was quiet and yielded at some points. The volume of business in bonds has decreased somewhat, but prices in the main were pretty well maintained. United States new 4s declined a point, the new 2s %, the 5s and the old 4s registered ½ and do, coupon ½ in the bid price.

By Carrington & Cusack. New York, June 24.—While the market has been dull during the week and at times has shown considerable weakness in certain directions yet the undertone has been a fairly strong one, and there are certain indications that some of the stronger interests are quite heavily com-mitted to the bull side of the market. The news for the week has been, on the whole, favorable, while there has been out beavy shipments of gold to Europe, it seems to be quite well understood that the metal being in more abundant that the metal being in more abundant
