

The Scranton Tribune

Published Daily Except Sunday, by the Tribune Publishing Company, at Fifty Cents a Month.

NEW YORK OFFICE: 130 NASSAU ST., TELEPHONE 240.

SOLE AGENT FOR FOREIGN ADVERTISING.

ENTERED AT THE POSTOFFICE AT SCRANTON, PA., AS SECOND-CLASS MAIL MATTER.

TEN PAGES.

SCRANTON, JUNE 28, 1899.

Critics of the Barber 'octopus' should watch its work vigilantly these days.

The High School Faculty.

If there are any substantial reasons why George W. Phillips should not be continued as principal of the high school it is due to his vast number of friends and admirers that they be made public before the question of dismissal is put to a vote of the Board of Control.

It would be an outrage to rip up the high school faculty for reasons falling short of absolute necessity.

Those who are in the habit of expressing disrespect of our courts of law for the alleged reason that they do not administer justice promptly in cases of extraordinary crimes, will have to be careful hereafter to make exceptions in favor of the New York courts which had charge of the kidnapers of Marion Clark.

Alger Must Go.

The statement of Governor Finney outlining his attitude with reference to President McKinley makes plain that in his high for senatorial honors the present secretary of war has made an alliance with an enemy of his own chief.

It has for some time been manifest that a large majority of the American people, without regard to politics, have so far lost confidence in Secretary Alger that they have viewed his continuance in office with growing impatience.

The time has now come in the variegated history of this peculiar cabinet episode when public opinion must be considered and respected.

The Rescue of France.

In speaking yesterday of the vote of confidence given the new French ministry as overwhelming we had in mind the exceptional perils of the situation.

Apart from its political significance as showing the unsuspected latent strength of republican institutions in France, the incident also has a moral aspect pertinent for study everywhere.

use of ecclesiastical sanction, taught insistently the Jesuitical doctrine that the question of personal justice for Dreyfus was wholly subordinate and inferior to the question of the tranquility of the French people and of the preservation unshaken of their confidence in the army.

Right on the heels of the cyclones and heavy rains, Weather Chief Willis L. Moore fell into the sea at Cape May and came very near being drowned.

This government will press the claims of the heirs of Frank Pears who desire \$10,000 from the government of Honduras.

The speech made at Birmingham on Monday night by Joseph Chamberlain, British secretary of state for the colonies, constitutes the next thing to an ultimatum to the Boers.

It has for some time been manifest that a large majority of the American people, without regard to politics, have so far lost confidence in Secretary Alger that they have viewed his continuance in office with growing impatience.

The Wrong Trend of Higher Education.

From the Philadelphia Times.

THE root of the evil in our educational system is in the very educated man or woman should make a living in some other way than by manual labor, and young men and young women will struggle and make every sacrifice to obtain an academic or collegiate education chiefly because they believe thereby they can escape a life of drudgery.

As long as our social system shall encourage the belief that education may fit a man or woman to make a livelihood without labor, many thousands will struggle to win education which will have only failure and humiliation for all the sacrifice they have made to prepare themselves for a successful pursuit.

Let me tell you a little story to illustrate this: I had a cattle ranch in Montana. I hired a man to work for me. We went out on the ranch one day and came upon a maverick which had strayed from a neighboring ranch to my own.

A good mechanic is always employed at better wages than the collegiate graduate can command unless he has special fitness for distinction in some intellectual pursuit.

The American people at heart believe in this doctrine, whether they are careful to practice it on all occasions or not; and the man who does practice it fearlessly is pretty sure of their respect.

Once upon a time there lived a Man who had Political Aspirations. And it came to pass that the Man did make a Christian Endeavor to become Ruler of his Country.

And during his incumbency his Country did go to War with a Latin Tribe, and though the Latin Tribe was wholly victorious, it was not because the Secretary of War knew his business, for he was wont to make blunders too numerous to mention.

And the Secretary of War, when he was about to resign, said: "I don't know when I'll get back," he said emphatically.

And the Secretary of War, when he was about to resign, said: "I don't know when I'll get back," he said emphatically.

And the Secretary of War, when he was about to resign, said: "I don't know when I'll get back," he said emphatically.
