MANY VIEWED THE RUINS.

Surprised That Tuesday's Fire Did Not Do More Damage.

A number of persons viewed the scene of Thursday afternoon's fire yesterday, and all expressed surprise that the flames were prevented from doing more damage than they did.

The proximity of the surrounding buildings, which were without exception of frame construction, rendered it a most difficult thing to deal with and the more one considers the existing circumstances, the greater measure of praise they will bestow upon the firemen.

Jones Brothers' loss which was estimated in yesterday's Tribune at \$9,000 was not as great as it at first appeared. Mr. C. D. Jones at \$10,000. He stated that they carried no insurance whatever on the property. It was discovered yesterday that one more horse had been incinerated, making a total of eleven that were burned.

Jones further stated that they would in all probability rebuild again on the same site, putting up a brick building.

STRIKE AT WILKES-BARRE

Five Hundred More of the Employees of the Lehigh Valley Coal Company Have Joined Ranks of the Strikers.

About 500 more employees of the Lehigh Valley Coal company joined the ranks of the strikers, near Wilkes-Barre yesterday, making over 1,700 men who have thus far gone out.

The company is attempting to work the Prospect colliery at Milvale which embraces the big Prospect breaker and the Wyoming, Oakwood, Henry and Midvale openings, but is meeting with only partial success.

At these places, it will be remembered, the strikers went out in sympathy with the men at the Dorrance who struck Monday because of their objection to the Wolf contract. Not all of the men could be induced to quit, but enough went out from each working to make it scarcely possible to operate it. Yesterday the company was able to mine only sufficient coal to keep the breaker going four hours.

Special coal and iron poles to the number of thirty-six have been stationed about the various workings to prevent violence or intimidation. Chief Klumbe, of the Wilkes-Barre police force, had the patrol wagon and seven other doing duty about the collieries during the day to quell any possible disturbance.

The assurance of protection conveyed by the presence of the two forces of police is expected to bring many of the sympathy strikers back to work and that it will be possible today to work the places that are affected for a good part of the day and in a short time break up the strike.

The strikers, on the other hand, say that their numbers will be increased each day until there will be a complete tie-up at every one of the company's workings. They also aver that there will be no violence.

The foreigners among the strikers are keeping close to their houses, quietly discussing the situation and eyeing askance the uniformed and armed "specials." Most of the latter are from the Hamilton region, and it is said some of them did duty during the troubles there in September, 1888.

National Organizer Benjamin James, of the Mine Workers' union, is scheduled to come on the scene tomorrow to take a hand in the fight.

VICTORY THE LATEST VICTIM.

He Received Attention from the Kissing Bug Last Night.

John Victory, of North Main avenue, North Scranton, is the latest victim of the "kissing bug."

While sitting on the porch of his residence last night he was kissed under the right eye by one of the pests.

In a few moments his face was terribly swollen and he suffered acute pain.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hays, of Hays Bros., Finestite, Ohio. "After taking two or three doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy I was completely relieved and in a few hours was able to resume my work in the store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." For sale by all druggists, Matthew Bros., wholesale and retail agents.

INVESTIGATING THE SIMPSON MURDER

CORONER MADE A POST-MORTEM EXAMINATION.

It Showed That Two Bullets from Kenny's Revolver Found Their Way Into the Body of His Wife.

One of Them Entered the Body Between the Seventh and Eighth Ribs and Caused Death Almost Instantly—There Will Be An Inquest at Carbondale Tonight.

Coroner Roberts and County Detective Leysch were in Carbondale yesterday making investigations in the case of John Kenny, otherwise known as Henry Jensen, who shot and killed his wife Tuesday evening at Simpson. The prisoner is still retained in the police station in that city and will be given a hearing this morning.

Dr. Roberts made a post-mortem examination and found that the first shot from Kenny's revolver took effect close to the left ear, lodging in the middle ear, producing a slight fracture of the skull at the base of the brain, but would not have caused death.

The second shot entered the woman's body between the seventh and eighth ribs and penetrated the lung, severing the large blood vessel and lodged in the breast bone. This shot was sufficient to produce death instantly. The third shot fired missed its mark.

The coroner will hold an inquest in Allentown tonight at 8 o'clock, evening, when the testimony of witnesses will be heard.

THEY ALL WANT GREEN.

Western Requisitions for the Alleged Bunco Man.

Harrisburg, July 5.—James R. Green, who is wanted in a half-dozen western states for buncoing farmers, will probably serve a term in prison in Pennsylvania before he is extradited. Green was arrested here ten days ago and has since been in jail awaiting the arrival of detectives from the west.

The sheriff and deputy sheriff of Walla Walla are here with a requisition for the prisoner for fleeing a farmer out of \$5,000 in that city. A Chicago detective is also here with a requisition for the prisoner, who is alleged to have buncoed farmers in Illinois, and officers are on the way here from Iowa with requisitions. Today Detective Sheriff, of Westmoreland county, reached Harrisburg with a warrant for Green, who is wanted at Greensburg for fleeing a farmer out of \$1,000 in 1887.

All of the parties were represented by counsel at a hearing before Governor Stone this afternoon on the requisition. The attorney turned Green over to the Westmoreland county authorities to allow the requisition of the Washington authorities, so that the prisoner may be taken to Walla Walla after the Westmoreland people are through with him.

The governor's action regarding Green in the Westmoreland county authorities was checked by the issuing of a warrant this afternoon from the executive department to Sheriff Sellers on the requisition papers sent here from the state of Washington. Judge Weiss laid the only thing he could do under these conditions is to hand the prisoner over to the Washington authorities, providing the accused's identity is established by the officials.

After an hour's consultation between the judge and attorneys, Green was sent back to jail until further orders are received from the executive department. The governor left this afternoon for Washington and will not return before Friday.

ANOTHER WINDSOR VICTIM.

Mrs. Dorothy L. F. Wheeler Dies at Saratoga of Her Injuries.

New York, July 5.—Word was received in this city yesterday that Miss Dorothy L. F. Wheeler had died in her mother's cottage at Saratoga as a result of injuries received at the Windsor hotel here on March 17. Miss Wheeler and her mother, Mrs. G. P. Wheeler, were registered at the hotel as from Milwaukee.

For several weeks before the fire Miss Wheeler had been ill with intermittent fever, and she had left her bed for the first time on the day of the fire. Her rooms were on the fourth floor. When the fire started she suddenly fell. She fell when about fifteen feet from the ground. She was severely injured about the back and lower limbs. Her daughter also lowered herself to the ground. They were the first patients taken to the Presbyterian hospital, going there in the same ambulance. It was said at the hospital that night that Miss Wheeler was suffering merely from shock, hysteria and a slight burn on the hand. At that time the mother was believed to be the more severely injured. Miss Wheeler was 25 years old.

TIN PLATE WORKERS' SCALE.

Meeting to Perfect the Arrangement Will Be Held in Chicago.

Pittsburg, Pa., July 5.—Another conference of the tin plate workers' wage scale has been arranged. It will be held in Chicago on Friday, July 7, by committee of the Amalgamated association and the American Tin Plate company. The officials of the Amalgamated association have received the results of the meetings throughout the country on the tin plate scale and the scale committee has been granted discretionary power, but it is urged to insist on the original demand for an advance of 20 per cent, which was rejected at the last joint conference.

There seems to be no doubt that a settlement will be reached at the coming conference and that all the factories in the country will be in operation again next Monday.

Vice-President William R. Seidler, of the Amalgamated association, said today that he is confident the scale will be settled this week and that the workers' demand for an increase of 20 per cent will be granted.

MRS. GORLICK DROWNED.

Upsetting of a Boat in the Susquehanna River at Plymouth Was the Cause—Escape of Mrs. Cosh and Babe.

A small boat containing two women and three children capsized in the Susquehanna near Plymouth yesterday afternoon, drowning one of the women, Mrs. Victoria Gorlick.

Mrs. Gorlick, with her two boys and Mrs. John Cosh, who had been taken aboard, rowed across the river to pick coal from a dump.

On the return journey the extra weight of the coal made it impossible for them to manage the boat in the strong current at mid-stream and down it sank, leaving the occupants struggling in the water.

Relieved of the weight of the occupants the boat reappeared and the two Gorlick boys succeeded in reaching it. Mrs. Cosh clung to the infant and fought desperately to keep above water. Mrs. Gorlick kept rising and sinking at regular intervals until she was finally exhausted and sank to rise no more.

While this terrible scene was being enacted two men in a row boat were pulling from the shore with all their might, leaving the struggling woman and children. They reached Mrs. Cosh before she sank a third time and dragged into the boat with her baby, to which she clung with such a firm grip that black and blue marks were left on his little arms.

John Cosh was then hastily rowed to the spot where Mrs. Gorlick was thought to disappear but they could get no sight of her. The boys were taken aboard and the boat rowed some distance down stream in the hope that the body might be caught up with but no trace of it could be found and the rescued quartette were taken ashore and given proper attention. They were last night reported to be all recovered from the effects of their terrible experience.

Help was summoned and a careful patrol of that stretch of the river maintained all afternoon and late into the night but the body could not be recovered.

TEST OF THE M'LEOD LAW.

A Case in Which Governor Pingree Is Interested.

Lansing, Mich., July 5.—The Michigan supreme court at noon today decided the case brought to test the validity of the M'Leod law, which authorized the appointment of the Detroit street railway commission, whose object was the purchase and municipal ownership and operation of street railway of Detroit.

The decision is that the law is unconstitutional; that there is no such officer as the "Detroit street railway commissioner" in the country; that Governor Pingree and the other commissioner have no title thereto and that judgment of ouster must be entered against them. The Detroit plan for municipal ownership has been temporarily blocked by the legal difficulties in the way of holding a special election on the question. By today's decision, all authority is taken from the commission.
