THEY DID NOT BUY.

The Associated Press dispatch sent out from Pottsville Thursday night which stated that a company of Scrauton capitalists, headed by Captain W. A. May, had purchased the colliery at St. Clair, Schuylkill county, until recently operated by the Marion Coal ompany was slightly misleading.

Some years ago a company of Scranon capitalists formed the Schuylkill Anthracite Coal Royalty company and acquired a breaker and three bundred acres of fine coal land near St. Clair. Benjamin Hughes, of this city is prestdent of the company and Captain May s one of the stockholders.

The property of the company was leased to the Marion Coal company, of which Dr. J. M. Rice, of this city, is president, and the latter has operated it for several years. For business reasons the property has reverted to the Schuylkill Anthracite Coal Royalty

A stockholder of the last named company said yesterday that the colliery is now shut down. No decision as to its future has been determined upon.

Secretary P. J. McGuire Makes a Prediction with Reference to the Strike That Is Now in Progress.

Secretary P. J. McGuire met the grievance committee of the Building Trades' council at the strikers' headquarters on Lackawanna avenue yesterday morning. The strike situation was thoroughly gone over and discussed. In the evening Mr. McGuire attended a meeting of Carpenters' union No. 563, which was held in Carpenters' hall. At the conclusion of the regular order of business he delivered an address to the men.

At the conclusion of the meeting Mr. McGuire was seen by a Tribune man and spoke at some length upon the general condition of affairs. Asked in regard to the situation, he said:

"The general situation I consider to be very good and I think the outlook for a speedy termination of existing difficulties to be also very good. I have seen several of the members of the Builders' exchange today and they seem to be strongly in favor of conciliation. I think that next week will see an end to the present strike."

He was asked regarding the state ments made by members of the Builders' exchange to the effect that the arbitration proposed would not be considered by them, because the difficulty had been arbitrated before the strike began. He stated in reply:

"The arbitration plan is naver considered by the national organization except as a last resort. We always prefer conciliation before arbitration. Evidently some of the members of the exchange are not well up in the definition of arbitration.

"Arbitration in all cases means the eferring of a discussed question to a third disinterested party. Conciliation means the settlement of existing difficulties between the two contending This is always the best parties. method, for they are both more liable know each other's desires and are therefore better able to deal with the question than a third party.

The statement, therefore, that arbitration was held before the strike is absurd, as no third party was called in. Asked regarding the statement made that he would be present at the meeting of the Exchange on Tuesday night, he said: "I shall leave the city some time tomorrow, but A. C. Cattermull, city and he will take my place here. Mr. Cattermull will be present at the meeting if he is invited to be there, but not otherwise. He will be ready at any time to meet any member of the Exchange who may desire to see him." It is understood that the Building Trades council are sending circulars to all the Building Trades councils in the

This week brought to the surface two exciting pieces of political news.

One is the story that ex-Sheriff Charles Robinson is going to resume his place as the local Democratic leader and dedicate his energies and his dollars to the task of reorganizing the party in this The other was the announcement of

ord Byron Green that he will be a candidate for the Republican nomination for Mr. Green made a somewhat lengthy statement of his case for the benefit of the Republican voters of the county and

told them just what they might expect from him in the event of his nomination election. ARRANGING FOR THE CONVENTION

MEETING OF CARRIERS' GEN-ERAL COMMITTEE.

Sub-Committees Delivered Their Reports-Extra Efforts Must Be Made by Finance Committee to Secure More Funds - Discovered That Arches Which Were Proposed Will Cost More Than Was Expected. Arrangements Being Made to Feed Over 5,000 Men at Court House.

The general committee in charge of the arrangements for the Letter 'arriers' convention held a well attended meeting last evenig in Colonel Ripple's office in the Connell buildin. A. P. Bedford acted as chairman. The principal business transacted was the receiving of the report of the varlous sub-committees which were appointed.

Senator J. C. Vaughan, chairman of he committee appointed to invite Governor Stone, reported that he had been unable to go to Harrisburg, but that Hon. John R. Farr had done so. Mr. Farr reported to him that the governor accepted the invitation and would

be here Sept. 4 with his wife. Mr. Jenkins, the chairman of the committee appointed to see the county commissioners relative to using the court house grounds, next reported. He stated that the commissioners had granted the use of the eight walks after mass in the morning and kept and the two driveways upon the day of the parade. These will be covered with mess tents, at the suggestion of Colonel Ripple, and will be provided with tables for the purpose of feeding the men who are in line. It is estimated that there will be over 5,000 men in line, so that the task of feeding this crowd will be a great one. The entertainment committee claims to be equal to it, however. No person without a letter carrier's uniform on will

THE FINANCES.

The report of the finance committee was then presented by Secretary Robathan, in the absence of Chairman Millar. It showed that while there was a large amount of money subscribed, it was necessary to raise a consider able sum yet. The committee was urged to make great efforts in the direction of increasing the fund, because it is deemed necessary to have complete report in four weeks' time, as the convention is now only two months off.

Chairman Phillips, of the committee on badges, said that the committee had no report to make, as they were waiting for a sample badge which would not arrive until next week.

The entertainment committee reported that everything for the enterainment of the visitors had been provided for. In regard to showing them through the mines, it was reported that new arrangements would have to be made, as there had been changes in the Delaware, Lackawanna and Western since the time previous agreements relating to this feature had been made. It is thought, however, that there will be no difficulty experienced with the new officials in securing cooperation.

Chairman Davis, of the committee on lecoration, next reported. He presented plans and sketches for a very elaborate arch and arcade effect to be built depot, and also for other arches to be built on various corners. The committee thought the plans very indeed and were commenting fevorably on them when some one in the corner asked the cost. Mr. Davis asually remarked that the cost would be about \$1,500 apiece.

A CHEAPER ARCH.

Silence reigned supreme for a monent and then some one remarked that not more than twelve of these arches ould be built. Mr. Davis was requested to reduce the price, if possible, and he told of a man who offered to build certain kind of arches for \$200 apiece Colonel Ripple stated that he thought the matter of decoration should be well

ione or not done at all. He further expressed the opinion that he thought if the people were well entertained and taken care of, they would go home better satisfied than if a large amount of money which could be used for that purpose were expended on arches. It was finally decided to defer the question until the next meeting, when the finance committee will

know how they stand. D. B. Atherton, of the committee on time his face began to swell. transportation, next reported. He stated that the committee had tried to get the railroad companies to run excursions to this city during the convention, the convention committee to receive a certain per cent. He said that they had been unable to make a deal with the companies for the reason coaches, the Delaware, Lackawanna and Western requiring between fifty and sixty coaches on the day of the parade to transport the various delegations who are coming to the city. The other companies, he said, would be in the same position, but it was thought that an arrangement could be made with the Delaware and Hudson for an

excursion from down the valley. INTEREST IN NEW YORK. Secretary Robathan then spoke at ome length and said that the people of the city generally failed to estimate the big time that is in store for them. He told of being in New York city last week and spoke of the interest being taken by the carriers in that city. Every carrier who intends coming to amount. The meeting adjourned after deciding to meet again in the same place on July 21, when the sub-committees are to make definite reports.

[LETTER TO MER. PINGHAM NO. SPANAL "I cannot express my gratitude to ou for the good that Lydia E. Pinkham's Vegetable Compound has done for me. I have taken five bottles of the Compound and two boxes of Liver Pills and feel better in every respect. I had suffered for years with dropsy; the velus in my limbs burst, caused from the pressure of the water. I had the worst kind of kidney trouble, fainting spells, and I could not stand long at a time. I also had female weakness and the doctor said there was a tumor in my left side. The pains I had to stand were something dreadful. A friend handed me a little book of yours, so I got your medicine and it has saved my life. I felt better from the first bottle. ANOTHER SILK MILL.

It Is to Be Erected at Pine Brook by the Klotz Silk Company of Carbondale-To Employ Four Hundred Hands.

And still another silk mill is headed Scrantonward and another indus-

The Klotz Silk company, which conducts a large mill in Carbondale and a small one in the annex of the Mears' building in this city, has organized a Scranton company with the assistance of John T. The mill will at the very outset employ 400 hands. W. H. Davis, who recently bought twenty lots on the Fairview Land company tract, where Locust and East Elm streets, intersect the Bloomsburg division of the Delaware, Lackawanna and Western road, is also planning for the erection of a large silk mill and expects to begin work as

soon as the strike is settled. President Keller and Secretary Atherton of the board of trade, in dis cussing the new silk mills yesterday, were very enthusiastic over the prospect of Pine Brook becoming the industrial as well as geographical center of the city. The recent additions its industries, the piano factory and the bolt and nut works, and the rumor of a new brewery to be located there, have started a boom for that end of the town, the board of trade men say, which gives promise of making it a veritable hive of industry.

LACKAWANNA MEN ON A VISIT HERE

PROMINENT OFFICIALS MAKING A TOUR OF INSPECTION.

Arrived in Scranton at 10.45 Yesterday Morning and Made a Trip Over the "Bloom" and an Inspection of the Company's Scranton Property. This Morning They Go Over the York State Divisions-Will Have Western Passenger Agents as Their Guests on the Return Trip.

After spending a night at Delaware Water Gap, the Delaware, Lackawanna and Western officials who are making tour of inspection over the companies lines, as told in yesterday's Tribune, came on to Scranton to spend a day. They arrived at 10:45 o'clock a. m., and made a visit to the station. yard and shops after which they went down the "Bloom" to Northumberland returning at 6 o'clock,

They had dinner at the Jermyn and were then taken for a drive over the boulevard by E. E. Loomis, superinten-

dent of mining. This morning they will proceed northward going over the Syracuse division, crossing over the Ithica division by way of the New York Central returning on the Utica division to Binghamton and then proceeding to Buffalo. They will return Monday but do not contemplate another stop at Scranton.

MEMBERS OF THE PARTY.

In the party are B, D. Caldwell, general traffic manager: H. C. Hicks, genral freight agent; C. A. Rappolo, eastrn freight agent; G. E. Zippel, general baggae agent; E. F. Lukens, general real estate agent; F. W. Newson, secretary to the general traffic manager and W. E. Hunter, formerly of the Chicago Times-Herald, who has just been appointed general advertising manager. J. M. Daly, superintendent of transportation, will meet the party here today and accompany them during the emainder of the trip.

E. G. Russell superintendent of the Morris and Essex division, who was, on Thursday, appointed general superintendent of the whole system, did not accompany the party as was expected. Mr. Russell's detention was due to his new appointment. It was given out by members of the party that Mr. Russell's duties will be practically the same as those that attached to the office of general manager, For the present he will continue to

superintend the Morris and Essex division and maintain his headquarters in Hoboken; but next month, so it is announced, he will come to Scranton and relinquish the superintendency of the Morris and Essex to Raymond Du Puy, a former superintendent of the Chicago anl Northwestern.

WESTERN MEN COMING.

On the return trip the Lackawanna officials will have as their guests a large party of western railroad men. Among them will be General Passenger Agents P. S. Eustis, of the Burlington and Quincy road; W. B. Kinsken, of the Chicago and Northwestern; George H. Heoffard, of the Chicago, Milwaukee and St. Paul; George T. WEATHERMAN MOORE HERE

Selected Scranton as the Place Above All Others Possessing a Climate Conducive to Health Recuperation.

Scranton's model weather received a most flattering testimonial yesterday when Willis L. Moore, of Washington chief of the United States weather bureau, came here to spend his summer vacation.

Mr. Moore has not been feeling well of late and recently decided to take a season off for rest and recreation. A consultation of the weather reports from all over the country, which are daily received by his department, led him to choose Scranton as the place, above all others in this vast country offering the closest approach to perfection in the way of healthy and pleasant climate.

The above is for the use of the board of trade on its next annual report.

The facts of the case are these: Mr. Moore is enjoying a brief rest from his arduous labors and yesterday accompanied by his wife came on her from Washington to look after some property and business interests which he has here and then to go on to Ithaca, N. Y., to assist in locating the new meterological observatory which Cornell university is about to erect. When this is done Mr. and Mrs. Moore will spend a week or so at Glen Summit.

Mr. Moore is one of the most prominent men whom Scranton has given to the world. He was born in this city nearly fifty years ago during short sojourn here of his parents, who were previously residents of New York and later moved to Binghamton. He was, however, reared in the latter city and is generally considered a Bing-
