

EVENTS OF DAY IN WEST SCRANTON

SMALL BOY VICIOUSLY ASSAULTED WITH A CLUB.

Assailant Realizes the Enormity of His Offense and Skips—Delegations Going to Richmond—Rev. J. P. Moffat Agreeably Surprised. Young Girl's Speech Affected. Knights of Pythias Installed. Quarterly Convention Tomorrow Afternoon—Other Matters.

Joe Devido, of Scotland street, committed an assault on the 11-year-old son of Mr. and Mrs. Elias Green, of 253 North Bromley avenue, Thursday evening by striking the boy on the head with a broom handle. A deep gash was inflicted on the forehead and the boy was rendered unconscious.

ON TO RICHMOND.

Delegates from the Baptist Young People's societies of the Jackson street, First Baptist and Welsh Baptist churches will unite with the representatives from the various unions in Northeastern Pennsylvania on Tuesday morning next and journey to Richmond, Virginia, where the annual convention will be held.

The official train carrying the delegates from this city will leave the Jersey Central station at 8:30 a. m., arriving in Richmond Wednesday morning. The night journey will be made by boat. Stop privileges will also be allowed at Philadelphia, Washington and Baltimore, and the round trip fare is only \$2.00, limited to July 21. Many persons will take advantage of the trip.

BLOOD STAGNATED.

Margie Shaughnessy, of Lomenan court, was afflicted by the stagnation of blood in her throat recently and was unable to speak for some time. The young lady is sixteen years of age and is the daughter of Mr. and Mrs. John Shaughnessy. She had been doing some work around the house during the day, but did not strain herself in any way.

In the evening while seated on the porch a neighbor passed by and spoke to her. She tried to answer, but failed and a physician was summoned. The affliction will not effect her seriously.

RECEPTION TO REV. MOFFAT.

Rev. J. P. Moffat, pastor of the Washburn Street Presbyterian church, who recently had conferred upon him the degree of doctor of divinity, was agreeably surprised by his parishioners.

after the regular weekly prayer meeting, who gathered and tendered him an informal reception in honor of the merited recognition of his talents. Hearty congratulations were extended and the large assemblage present entered into the spirit of the occasion with much pleasure. Short congratulatory remarks were made and Rev. Moffat was so taken with surprise that at first he did not realize the satisfaction with which the confirmation was received. The occurrence was a merited attestation of the congregation's regard for their pastor.

INSTALLATION OF OFFICERS.

At the regular meeting last evening of Hyde Park lodge, No. 296, Knights of Pythias, held in Masonic hall, the following officers were installed: Chancellor commander, Jenkin Jenkins; vice-chancellor, John R. GATHERED IN SOUTH SCRANTON

Two coal cars collided on the D. & H. tracks. Caboose of One Lifted on to a Flat Car—Albert Heckel Dies in Porto Rico, Where He Was Serving in the Army—The Annual Excursion of the Scranton Saengerunde to Be Held on July 29—Delegates Chosen by the St. Aloysius Society. Other Interesting Notes.

Two coal trains collided on the Delaware and Hudson tracks near the south mill of the L. & E. Co. Wednesday afternoon. Both trains were going in the same direction, and were running at a high rate of speed. The caboose of the train that was struck was lifted from the rails and landed on a flat car just as nicely as though a derrick was brought into the action.

In the caboose were several of the train hands who saw that a collision was inevitable and jumped. The engineers of both trains remained at their post and escaped from injury. This is the second collision of such a nature on the Delaware and Hudson tracks in that vicinity within a short period.

ALBERT HECKEL'S DEATH.

Albert Heckel, one of the brave young men of South Scranton who enlisted in the regular army at the outbreak of the late war, is dead. His death was due to a kick from a horse.

He was a member of Troop L, Fifth regiment, United States cavalry, stationed at Porto Rico. It was only a few days ago that his father, Alvie Heckel, secured for him a letter filled with cheerfulness and indicating that the son was happy in the service of his country. Heckel enlisted with Lieutenant Dentler in this city. His father will endeavor to have the remains interred here.

THE ANNUAL EXCURSION.

The Scranton Saengerunde is actively engaged in preparing for its annual excursion to Mountain Lake July 29. The yearly outings of this society have been for years most pleasant affairs, and the energetic committee of management is determined that the approaching event will surpass all previous efforts. John Mait, chairman; Fred W. Kerchoff, secretary; Charles Scheuch, treasurer; Fred Miller, Theodore Lewert, Louis Getz, William Baumgartner, John Stooper, William Corman and George Ferne comprise the committee in charge.

DELEGATES CHOSEN.

St. Aloysius society at a regular meeting Thursday night chose delegates to represent the society at the coming convention of the total abstinence societies of the several districts of the Diocesan Union. Those chosen are: Peter Walsh, Henry Fitzpatrick, Thomas Mallu, Thomas Handley, John Heenan, for the Cadets, Malachi Cotter, James Brown, P. J. Brady, Thomas Heenan and Thomas Needham.

TOLD IN A FEW LINES.

Dominick Monahan, the much-wanted boy in the alleged kidnaping case heard before Alderman Ruddy, Wednesday and Thursday nights, and who during the hearing on the latter night skipped, is still in the city, and a diligent search was made for him yesterday.

William Hagen, of Alder street, son of Ferdinand Hagen, of the Hagen Planning mill, was arraigned before Alderman Lentz yesterday on the charge of assault and battery, preferred by John Dillon, a huckster. The young defendant is accused of throwing stones at the prosecutor. He was held in \$300 bail for his appearance at court.

IT IS A PITY SO FEW WOMEN

Are Entirely Free from Pelvic Catarrh

Miss Anna Carsten, Clayton, Ill.

Remember that cholera morbus, cholera infantum, summer complaint, bilious colic, diarrhoea and dysentery are each and all catarrhs of the bowels. Catarrh is the only correct name for these affections. It is a common ailment in summer. It is a remedy for all forms of catarrhal affections, and its only remedy was Pe-ru-na, and its only family was Pe-ru-na. It meets all their irregularities.

critical periods, and peculiar weaknesses.

Pe-ru-na is applicable to catarrh of any mucous surface of the body in all stages. From the slightest catarrhal attack to the most chronic or pronounced case of hypertrophic form Pe-ru-na is a specific.

Men and women are subject to catarrh. Women are even more subject to catarrh than men. This is due to many causes. The chief cause is the delicacy of her organism, as compared to man. The extreme sensitiveness of the mucous lining of every organ of a woman's body is well known to physicians. This explains why, in part at least, so few women are entirely free from catarrh.

Miss Sadie Martinot, the prominent young actress, writes to Dr. Hartman in regard to Pe-ru-na: "It gives me great pleasure to recommend it to my friends. I have found it most helpful. I consider Pe-ru-na a most valuable remedy. I have used it for several years, and I can cheerfully recommend it to my friends."

Everywhere the people, especially the women, are praising Pe-ru-na as a remedy for all forms of catarrhal affections. Send for free catarrh book, Address Dr. Hartman, Columbus, O.

Miss Anna Carsten, Clayton, Ill., says: "Your medicine did me so much good. I believe I should have been dead by this time had I not used it. I am feeling so well now. I have not taken any medicine for four or five months. If I ever trouble with anything of the kind again I shall take nothing but Pe-ru-na, and I can cheerfully recommend it to my friends."

Remember that cholera morbus, cholera infantum, summer complaint, bilious colic, diarrhoea and dysentery are each and all catarrhs of the bowels. Catarrh is the only correct name for these affections. It is a common ailment in summer. It is a remedy for all forms of catarrhal affections, and its only remedy was Pe-ru-na, and its only family was Pe-ru-na. It meets all their irregularities.

INDUSTRIAL JOTTINGS.

Future of the Delaware and Hudson Company as Viewed by the New York News Bureau—Others News Items.

The New York News Bureau says: "There has recently been quiet, but important buying of Delaware and Hudson company stock, which is understood to have been of the best character. At the close of business Wednesday there were confident reports that the actual control of the company had passed into the hands of the Delaware and Hudson, referring to the rumors, say that no proposition would be regarded by the large investment interests in it from either the New York Central or any other company, on a basis of less than an 8 per cent. guarantee of the stock. It may be news to some persons to know that the rate of the Delaware and Hudson show over a term of sixty-three years an average dividend disbursement of 8 1/2 per cent. This year the company is expected to earn something like 9 per cent. net after taking care of the sinking fund, which provides for the refunding of the \$10,000,000 of coal mined by the Delaware and Hudson. This money will, however, be applied to investments in the company's own securities."

"The Delaware and Hudson will benefit largely, in common with the other anthracite mining and carrying companies, from the improvement in the anthracite coal trade and the advance in anthracite prices of 25 cents per ton on July 1 and 25 cents per ton additional, not later than Oct. 1, means a gain for all the companies at the rate of \$20,000,000 a year."

"Independent of the improvement in the coal trade, the Delaware and Hudson will profit by special favorable conditions. It is estimated that a saving will be effected equivalent to 1 1/2 per cent. per annum on the stock, through the refunding of the \$10,000,000 of Albany and Susquehanna 7s and 6s falling due in 1905; and the \$5,000,000 of New York and Canada 4 1/2s and 6s due in 1902. Furthermore, the company has received a large sum for its canal, and as a result of hauling its coal direct to its own lines from Rondout to Albany will save about 50 cents per ton expense, which was previously paid for transshipment on account of the maintenance of that expensive waterway."

This and That.

The directors of the Delaware, Lackawanna and Western Railroad company have declared a regular quarterly dividend of 1 1/2 per cent., payable July 29.

Within a few days both the Paxton furnaces, in the lower part of Harborsburg, will be in operation, owing to the great demand for pig iron. One of these was started several months ago and has been running at its full capacity, about seventy tons a day. Enough orders have been received to keep both furnaces at work for months. About two years ago they were shut down because about 2,000 tons of pig iron had accumulated in the yards. Seven of the eight service furnaces in Dauphin county will soon be in operation.

Rumors are again rife that the New York, Wyoming and Western railroad is to come through this county. The rumors are strengthened by the fact that 500 tons of rails are at Gouldsboro and that surveyors are at work near Tannersville. It will be remembered that engineers ran lines through this county last summer. The new route, it is claimed, will touch East town. The route is for coal carrying only and is constructed because the D. & W. will not lower their rates, which coal men say are exorbitant.—Stroudsburg Times.

The work on the framework of the new colliery at Lehigh, which will kill county, has been started and will be pushed to rapid completion. It is expected to be finished by Christmas. This breaker will be one of the largest in this country. Its dimensions are to be 400 feet long to the tremors work, 120 feet wide and 115 feet high. No belts or screens will be used in its operation. Rope will be substituted for belts and shakers for screens. The capacity will be 250 large cars a day.

John Schlotman, of Wadesville, has perfected a new coal picking apparatus which he thinks will create a revolution in that department of anthracite coal breakers by reducing the number of boys engaged fully 50 per cent. and also performing the work more acceptably and rapidly. The model is now in operation at the Williams Coal company, near Pottsville.

THE NICARAGUA CANAL.

From Harper's Magazine.

Of great value to the people of the United States generally, the Nicaragua canal is a matter of special importance to the Pacific and Southern States. The Pacific territories, with an area of nearly 800,000 square miles, dependent on the Pacific ocean for access to the outer world, "imperial in extent," as Haines called them, are of greater extent than Germany, France, Italy and Spain combined.

Their extraordinary growth need not here be dwelt on at length. Enough that, with only 6 per cent. of the population, they possess 10 per cent. of the entire wealth of the union, while the railway mileage exceeds that of any European country, with the exception of France and Germany.

The three maritime provinces, California, Oregon and Washington, are the richest, and they are the most exposed to attack of the
