PRESBYTERIANS WILL MEET.

The Presbyterians of the First church will meet tonight to consider the advisability of putting in a steam heating plant. The present furnace arrangement has been unsatisfactory for several years and many prominent members have testified that the hardest colds of their lives were contract ed while listening to sermons in a frigid atmosphere. An adequate plant will cost from \$2,000 to \$3,000. A large attendance at the meeting is desired.

GODD NEWS FOR SOUTH SIDE.

The miners of the South Side collieries will commence work this morning after an idleness of ten days. Things commenced to look pretty gloomy and a rumor that the mule would be sent out to pasture barefooted had no cheer in it. The superintendent gave no encouragement and some have been seeking labor elsewhere. How long the good times will last is a question.

SEE THE SPIRE COME DOWN.

Two scaffolds have been erected near the pinnacle of St. Rose's spire and the tearing down process nicely commenced. If the weather is favorable the cross will be reached today and its removal will be watched with a great deal of interest. It is nearly 200 feet from the ground.

Down on the Tennant grounds in Port Blanchard yesterday afternoon more than one thousand spectators, half of whom were rooters, witnessed the Pittston Reds defeat the Sullivans of

Wilkes-Barre, who won the county championship on the 4th inst. Up to the seventh inning the score was a tie and the excitement at this point of the game knew no bounds. From this point to the finish the ""Reds" gathered themselves together and won out with a score of 12 to 9. tinel, Bert Prosser.

The funeral of the late Patrick Moylan, who for half a century was a resident here, thirty years of which he was postmaster at Port Griffith, and whose death occurred in Philadelphia, took place on Saturday morning from his late home and the services included high mass in St. John's church, with Father Quinnan celebrant. In his ad-

dress he gave a brief synopsis of the excellent life of the deceased, and admonished the friends and those present to be as fittingly ready when the dread summents come, which was sure-

Philander Johnson in Washington Star. In the light of subsequent events, I annot help being very much surprised at the manner of the landlord whe rented me that strange house-the one by the way, which I afterward purchased, and which I am now occupying? There was nothing suspicious about his manner. He did not seem especially eager to get a tenant and did not offer it to me at any pronounced remarkable reduction. No one was giving any prizes to people who would consent th pass one night in some particular room and on the whole I had good reason to be astonished when I discovered that it was haunted. My wife was out of the city with the children. I had worked hard getting the furniture into place, and was rather nervous, I was lying in bed wishing that the full moon did not shine so brightly, when I heard a peculiar, regular sound, It was a dull sort of noise, repeated steadily as the ticking of a clock ten or a dozen times, then ceasing for a few seconds, only to be resumed. I looked all about the room and could see nothing. The sound came closer and closer to my bedside and then receded. I sat up to make a more careful survey, and my eye was attracted by a narrow streak of light which the moon made across my floor at right angles to my bed.

I gazed at it for several minutes, and resently I saw a foot, white and substantial, step into the silver glare on the floor and then disappear. It was the right foot. I still watched, and from the other direction another foot appeared in the moonbeam; this time the There was nothing above the ankles. I got out of bed and threw the blinds wide open, and in the in-creased light saw the feet making their onotonous journeys to and fro across the floor. Frightened? Not a bit of it. watched my opportunity to avoid stepping on either of the feet-merely a humane courtesy on my part, for I perceived a corn on one of the great toes-and going to the mantlepiece picked up a paper of tacks which lay there. I stood up on the foot of the bed and strewed the contents of the package right and left over the floor, I wondered if superhuman feet would pay

JERMYN AND MAYFIELD.

James Owens, who was so severely injured by a fall of "buck" in the Delaware and Hudson colliery last Friday morning, died at 7 o'clock on Saturday morning at the Carbondale Emergency hospital. The remains were later in day brought to his late home on Second street. The funeral will take place tomorrow afternoon at 2 o'clock. The Delaware and Hudson Keg fund will attend the funeral. Deceased, who | terday, was 59 years of age, had been a restdent of this borough for the past thirty years. Two of his sons had met with the same untimely death, having been killed here in the colliery; another son was injured on the railroad in the west a few years ago, and after much suffering, died from the effects of his injuries. Besides the widow, five sons, Isaac, of Hartford, Conn.; Albert, James, Arthur and David, and three daughters, Mrs. Thomas Ben-gough, Mrs. Philip Tucker and Mrs. Charles Ohmacht survive him.

The work of reconstructing the Delaware and Hudson breaker has about een completed and today both sides thew Bros., wholesale and retail agts, of the breaker will be tested today. This will be welcome news to the miners as the alterations have considerably reduced the amount of coal hoisted for some time and consequently the miners have not been able to load the number of cars they ought for the time worked. There is some alterations yet to be made to the lump coal schute which will complete the job which has been an unique one, the old breaker having been torn down and a much larger and up to date breaker having replaced it on the same site
