SENT A BULLET INTO HIS FRIEND

CHARLES DAVENPORT SAYS IT WAS IN SELF DEFENSE.

Shooting Affray at Pittston Last Night That Will Probably Result in Murder—James Pulvert, of West Pittston Lies in a Precarious Condition in the Pittston Hospital. Davenport Gave Himself Up and Spent the Night in the Pittston Station House.

James Pulvert, of West Pittston, formerly an engineer on the Lehigh Valley railroad and recently employed at the Clear Spring colony, was seriously injured last night in a shooting affray with Charles Davenport, an ex-soldier, who has been in Cuba, and is now employed as a laborer on the Main street sewer.

Three shots were heard, a cry of distress rent the air and a few moments later half a dozen men ran out of the alley running from Butler to Mill street, among the number being Pulvert, who staggered out of the alley with a bullet through his chest, exclaiming in an undertone that he was shot.

The report of the pistol attracted a large crowd and Officer Weathers appeared and telephoned to the hospital for an ambulance. The injured man was quickly removed from the scene and an investigation revealed the fact that the ball had entered between the ribs and the hip, lodging in the abdominal cavity.

While Pulvert was being removed Charles Davenport, who did the shooting, went down Main street and approaching Coroner Weathers and locked up. The three men had been carousing together for several days and while Davenport was sober, the other two were slightly intoxicated.

A Tribune man had a conversation with Davenport this morning and after the shooting, he said he fired the shot in self-defense.

His story of the affair was to the effect that while coming from his home near where the shooting occurred, he encountered Pulvert abusing a small boy. He remonstrated with him and was struck in the face by Pulvert, receiving an ugly gash over the eye, which closed it.

ENRAGED, HE SHOT.

Enraged by the stinging blow, Davenport drew his revolver from his pocket and fired the three shots in quick succession, as previously related.

A telephone message from the hospital this morning stated that Pulvert was in a very serious condition and that his chances for recovery are extremely doubtful.

Both men have heretofore borne good reputations and Davenport served with honor in his company during the war in Cuba. The prisoner will be held to await the result of Pulvert's injuries.

LACKAWANNA OFFICIALS.

Passed Through This City Yesterday Afternoon After Their Tour of Inspection—They Enjoyed a Very Fast Run.

The party of Delaware, Lackawanna and Western officials who have been making an inspection tour of the road since Thursday, passed through here yesterday on their return trip to New York. The private car "Onega" on which they made the trip was attached to No. 6, which leaves here at 3:33 p. m.

Accompanying the party were a number of western passenger agents and a local reporter from the Scranton Record. They were met at Buffalo and traveled as the guests of General Traffic Manager Caldwell who was chairman of their association before assuming his present position with the Delaware, Lackawanna and Western company.

The new Lackawanna officials were highly pleased with the trip, especially as it convinced them that they are officials of no mean railroad.

Just by way of indicating that in the matter of roadbed and equipment, the Lackawanna is not far behind the Erie of Transportation Daily arranged for a fast run from Erie to East Buffalo on the trip around Sunday afternoon.

Engine 919, one of the company's ordinary passenger locomotives, was hitched on to the special car and orders were given to Engineer John Egan to "let her out a little." An even hour and a half after the word was given the party landed in East Buffalo. The distance is 104 miles, which makes the rate of running a fraction less than seventy miles an hour. And with no special effort at record-making, every precaution being taken in regard to safety going through yards.

The fact that No. 6 with its big train, heavily loaded with summer travelers, and carrying an extra car, was making its time to the second from Buffalo was another cause of felicitation to the Lackawanna men. It is highly desirable that the party of western passenger agents aboard should be given a good impression.

MR. CRIPPEN OUT OF DANGER.

He Will Recover from the Operation He Recently Underwent.

Ex-Sheriff Randolph Crispin, who was operated upon last week for appendicitis and who was hovering between life and death, Saturday, was declared out of danger yesterday by the physicians who are attending him. He is at his home in Dalton.

The Finest Trip for the Least Fare

It is a trip over the Lake Shore and Michigan Southern railway. It passes through beautiful scenery, it makes fast time, its cars are the latest type of car builders' skill, its road bed is perfect, its equipment unequalled. If you contemplate a trip between Buffalo and western cities, the Lake Shore is the road for you to take.
