

CARBONDALE.

ERIE WRECK.

Jefferson Junction was the scene of a wreck on the line of the Erie railroad Tuesday night shortly after 11 o'clock. It was first reported that two were killed, but later investigation proved the only damage to be twenty-five cars badly smashed up. Conductor John White's train in some manner became separated and in coming together again the damage as stated resulted. Traffic was blocked for several hours, both the Delaware and Hudson and Erie trains being hemmed in on account of the situation of the wrecked train.

UNITED EFFORT AGAINST NUISANCE.

The residents of North Spring and Brook streets and Williams avenue contemplate united action against those responsible for the unsanitary condition of Racket brook, which is causing much alarm in that neighborhood. If the board of health doesn't act at once, councils will be asked to take steps to abate the nuisance. The section now belongs to the First sewer district and there is no excuse for the delay in connecting with the sewer.

THAT NEW RAILROAD.

The movements of the Delaware and Hudson surveyors will give rise to more speculation regarding the Moosic mountain tunnel and the talked of railroad yard at Waymart. Today the engineering corps, which has been engaged on the mountain for several weeks gathering data for the tunnel project, will go to Waymart and make that place headquarters for a month, which indicates that their operations will be confined to that vicinity.

THE WATER TRUST.

Large consumers of water in this vicinity are commencing to feel the lack of what they term the water octopus. The Associated Water Supply company has raised the rate in some instances from 5 to 20 cents per 1,000 gallons and an effort will be made to get a supply from private artesian wells.
