AN ACTIVE SEARCH BEGAN.

Body on the West Mountain Has Not Yet Been Found.

County Detective Leyshon organized a scarching party Saturday, and ac-companied by Mrs. Hoochick, who discovered the body on the West mounain a week ago yesterday, the men made an unsuccessful search on Saturday for the remains.

Guided by the woman, the men eached the point where the body was unposed to be, but the only trace of anyone having been there was in the finding of a coat, but this did not reveal anything. The searchers were divided and the underbrush covered from very point where the woman claimed to have seen the body, but without suc-

It is the belief of many that Mrs Hoochick is holding off from taking the scarchers to the place where the body is, in the hope of a reward being offered, but no move in that direction has yet been made.

Mrs. Stephen Mabey, of 109 Spruce street, is somewhat concerned regarding the disappearance of her husband, who is well known about town, having been employed as a bartender at the Conway House and later conducted a saloon at the corner of North Main avenue and Lafayette street. Mabey has not been seen for some time, and

his whereabouts are unknown, A young man named Arthur Hiles who boarded at 306 Franklin avenue is also missing. When stopping at the above number, Hiles often asserted that he was a member of a suicide club in New York, and that he was soon

scheduled to do away with himself. As near as can be learned, the body discovered on the mountain was dressed in a dark suit of clothes, and the feet were encased in miner's shoes, A berrying pail and a dinner pail were found alongside the body.

Another effort will be made today to find the body. County Detective Leyshon has organized a searching party, who will start out at 6 o'clock and a systematic route will be covered in the hope of discovering the remains.

A rumor was current late yesterday afternoon to the effect that the body had been found by several boys. but the report could not be verified.

DODSON MINE STILL BURNING. Big Pumps Were Put in Operation

Yesterday. The situation at the Dodson colliers it Plymouth still remains unchanged and the flooding of the mines has begun with four and five-inch streams of water running into the shaft. The officials of the company have abandoned the idea of allowing exploring par-ties to venture into the old workings and have all the outlets from the mine blocked and cemented air tight. The fan was stopped Saturday evening at o'clock, all the fan outlets were poarded up and several bore holes which are near the mines were plugged so there is no possible way for air to get at the fire on the inside of the mine except that which the water forces down the main shaft. A large force of men has been at work night and day since Friday erecting two large pumps on the river bank just back of the breaker and they were put in operation yesterday. sumped through cast Iron pipes to the top of the culm bank, where it empties in large wooden troughs 26x26, and in these carried to the head of the shaft, down which it pours.

THE JUDGE'S SUGGESTION.

A wildly turbulent peasant was once a witness in a trial before Chief Baron O'Grady. The counsel, after pestering him for some time, put a question to him which reflected on the witness' character. "It ye ax me that again I'll give ye a kick." was the answer.

The counsel appealed to the court, stating that an answer was becoming to his client's case, ending up with the query:

"What would your lordship advise me to do?" do?"
If you are resolved to repeat the quesst," replied the court, "T'd advise you

SMITH INJUNCTION IS DISSOLVED

JUDGE GUNSTER WROTE THE OPINION IN THE CASE.

He Believes That the Plaintiff Has No Standing in Court-Miss Anna Walsh Sues to Recover \$10,-000 for Injury Done to Her Hands in the Scranton Button Company's Mill-There Will Be a Hearing in Two Habeas Corpus Cases Today. Marriage Licenses of a Day.

In the case of Mrs. Margaret Smith, wife of Attorney C. Smith, against the Scranton Gas & Water company, Judge F. W. Gunster yesterday handed down an opinion in which he dismisses the preliminary injunction granted some time ago. Part of the opinion is as follows:

"Under the authority of the sixth ection of their charter, the company made and adopted, among other things. certain rules and regulations with reference to applications for a supply of water and the right to shut off the same in cases of non payment of water rents, or for neglect or refusal to comply with the rules and regulations of the company.

"Application for water for several properties was made by Cornellus Smith several years ago. No notice was ever given to the defendant by Margaret A. Smith that the properties had been transferred to her by Mr. Smith, and the water company, having no knowledge that the property had been transferred to her, sent her no bills and made no demand upon her personally.

"It appears they continued to charge he water rents to Mr. Smith and made demand upon him several times or payment of the water rates until the amount has accumulated into a large sum and then, in June last, Mr. Scranton wrote a note to Mr. Smith alling his attention to the amount of the water rates due and asking him to kindly remit within ten days.

To this Mr. Smith seemed to pay no attention, and then the company proceeded to take steps to shut off the water, when Mrs. Smith came into court and showed that she owned the roperty, and that if the company were ermitted to cut off the water from er properties it would impose on the enants who occupy them a hardship end wrong that would greatly endanger their comfort and health and would impose on the plaintiff irreparable in-

In closing his opinion the judge says: Under these authorities and the unlisputed facts in the case the plainiff has no standing in a court of equity. The rule is discharged and he injunction heretofore granted is dissolved."

Her Hands Were Crushed.

Miss Anna Walsh, of South Scranon, a young woman twenty-one years of age, brought an action against the Scranton Button company, limited, yesterday to recover \$10,000 damages. The papers were filed by Attorney L. P.

Wedeman. It is set forth in the declaration that on March 13 of this year the young man, while employed in the mill of the defendant company, had her hands caught in one of the presses and had them injured so severely that they are permanently erippled. She asks damages in the sum of \$10,000. It is allexed that the machinery was defect-Miss Walsh is the only surviving child of eighteen born to her parents.
