# FACTS ABOUT THE CENSUS

Contained in a Circular Received by Supervisor John E. Ed.

Attorney John R. Edwards, who has been appointed supervisor of the census for Lackawanna, Monroe and Pike counties is already overrun with ap-

plications for positions by persons who are anxious to do the actual work of enumerating which will begin June 1 of next year. The enumerating is to be done in a

nonth and the enumerator is to be allowed a compensation of not less than \$3 or more than \$6 per day of ten hours. It will require about 250 enumerators to take the census.

Mr. Edwards has obtained from the census department a circular which contains a great mass of information about the employing of enumerators and other matters in connection with the census. Some of the things it ontains are:

The supervisor must consult with the director of the census in regard to the sub-division of his district for the purposes of enumeration. He has the power of appointment of the enumerators for the various sub-divisions within his district, subject to the approval of the director.

He must thoroughly examine all reurns and must use great diligence in correcting all mistakes. He must send in to the director the accounts showing the amount of compensation due each enumerator.

He is to assist the director in sublividing his district. The law provides that no enumerator have any district assigned to him with over 4,009 inhabitants. It also provides that enumeration commence on June 1, 1900, d the seturne of an

Business houses of the city will be asked to use electrical effects in their decorations as much as possible. Harry U. Hopewell was appointed a committee of one to visit the merchants of the city and ascertain from them what they wil do in the way of decorating their places of business.

The question of canvass to cover the walks leading to the court house on which lunch will be served to the visiting mail carriers after the Labor Day parade has been satisfactorily solved and the matter that is now worrying the entertainment committee is where they are going to get 4,000 cups to supply coffee to the carriers. It would exhaust every crockery store in the city to take that number from their stock

#### TODAY AT LAUREL HILL PARK.

#### Scranton Railway Beneficial Association Will Have a Picnic.

This afternoon at 4 p. m. at Laurel Hill park, under the auspices of the Scranton Railway Beneficial association, in connection with the famous band concerts the street railway boys will conduct one of their popular picnics. All who attend will be assured a good time, as nothing has been spared to make it enjoyable for everybody. Admission will be 10 cents. Caterer Huntington has entire

charge of the refreshments at the picn. which speaks very highly for the class of refreshments to be served. The entire park will be elaborately decorated in the evening with electric lights made in different designs and colors, which will add light and beauty to the entire park.

The following programme will be rendered by Bauer's band;

March, "Althotas" ......Farrar Overture, "Fest" ..... Leutner Selection from Rienzi....... Wagner Medley, Popular "Pousse Cafe."

Waltz, "Wedding of the Winds"...Hall Selection, "The Telephone Girl". Tobani A Musical Episode (Descriptive) "A Hunt in the Black Forest", Voelker 'Star Spangled Banner."

## MILK IS BELOW STANDARD.

Inspector Widmayer Has Many Com-

plaints to Make.

Food Inspector Widmayer is kept very busy these days with the milkmen. Pasturare is very poor and the best of milk is none too good. Poor milk therefore is decidedly poor and cases are far from infrequent where it is found to be considerably below the standard.

The regulations require that milk shall show 12 50 of solids. In five tests made yesterday only two came up to ons, 25 to 50 lbs, 15c to 25c each. the standard. The markings were: 12.64, 13.28, 11.98, 12.57, 12.52. The fact that the milk is naturally thin at this time, coupled with the fact that some milkmen are wont to put the ice on the inside of the can accounts for the inspector's hustle.
