ADVANTAGES OF PUBLIC PARK TO THIS SECTION.

The exclusive announcement in The Tribune yesterday of the purchase by Hon. W. W. Watson, of the Round Woods tract of land for a public park. occasioned much comment among the residents of West Scranton and general satisfaction was expressed on all sides. The grounds are so easy of access and centrally located that thousands of people will take advantage of a public breathing place as soon as the grounds are cleared of the accumulated debris which has been there for several years.

improvements which will be made by Mr. Watson are such that will interest every resident west of the Lackawanna river, and doubtless many from other sections of the city will visit the park and take advantage of the natural advantages of the place Rustic seats will be provided, electric fights added, walks and drives laid out, other essential improvements

made to attract the people.

In speaking of the purchase to a Tribune representative last evening, a well known citizen took occasion to remark that the deal will mean the greatest boom to realestate ever known in West Scranton. The fact that the Delaware, Lackawanna and Western company has sold the property, he said, is an indication that other plots will be put on the market and opened up for building purposes.

To illustrate his thought in that respect, the gentleman referred to the land situated in the Twenty-first ward, beyond Pettebone street, leading to the Cathedral cemetery, where a thoroughfare will undoubtedly be opened from the north end of Sumner avenue to the cemetery, and he predicted that as soon as the land is put on the market there will be many purchasers willing and anxious to build on the site.

The same may be said of the Round Woods tract, and the possibilities that are in evidence for the opening up of the Keyser Valley section are unlimited. This territory offers unusual advantages for industries and the new branch of the Ontario and Western Railroad, together with the Delaware Lackawanna and Western company's branch, offer excellent railroad facili-

the history of the city. The proposed silk mill, which Super-intendent W. H. TROUBLE AMONG NEIGHBORS.

James and Sadie Rose are neighbors of Mrs. Alma Phillips, on Jackson street, in the Courier-Progress building, and one evening this week James emptied the contents of a water pall on Mrs. Phillips. A general mix-up ensued, and resulted in a suit before Alderman Kellow, brought by the Roses, on a charge of assault and battery.

A counter suit was instituted before Alderman Davis last evening by Mrs Phillips, and after the alderman had discharged the girl and held the boy in \$200 bail for his appearance at court a settlement was reached, whereby each complainant paid the costs in their respective cases, and the affair wound up in a love feast after all the trouble.

NO CONTRACT AWARDED. The statement published in several papers during the week to the effect that the contract for the construction of the new St. Mark's Lutheran church. at the corner of Washburn and Fourteenth streets, had been given to Contractor Antonio Appostolico, is without foundation and has been flatly contradicted by the pastor of the church Rev. A. L. Ramer.

The Tribune has been requested to nnounce that the plans have not been given to anybody and will not be until after the present difficulty between the arpenters and their employers is settled. The trustees are ready to reeive additional bids for the erection of their new edifice.

LIEUTENANT DAVIS INJURED. Lieutenant John Davis, of North Sumner avenue, the well-known and popular member of the city police force is suffering from an injury sustained at the patrolmen's outing at Lake Ariel last Wednesday, and has been unable to leave the house since.

While engaged in a quoit-pitching natch with several of his fellow-officers, Mr. Davis was struck on the foot by one of the quoits, and while nothing was thought of the incident at the time, his foot began to swell when he removed his shoe and has been very painful since. He has been unable to out his shoe on since.

No serious results are anticipated. however, and the genial lieutenant will probably be able to resume his duties in a few days.

BIGLIN CHARGED WITH AS-SAULT AND BATTERY.

Discharged with a Reprimand by Alderman Lentes-John Cavanaugh Required to Enter Bail to Answer a Charge Preferred by Soo Hoo Doo-Bryan Scahill Charged with Beating His Daughter in a Cruel Manner-ohn Franforter Injured by Exploding of a Torpedo.

George Biglin, of Pittston avenue vas arraigned before Alderman Lentes last evening on a charge of assault and battery committed on the person of William Thomas, of Elmhurst, Mrs. Elizabeth Thomas appeared as prosecutrix. From the evidence adduced it appears that Thomas chastized of younger brother of Biglin and used severe means in doing so. Upon hearing of this, young Biglin proceeded to the Thomas home, where, it is claimed, the assault was committed.

Several witnesses were sworn for the prosecution when Biglin was put on the stand. He denied the charge of assault in toto, but admitted censuring Thomas for his chastisement of his counger brother. He was corroborated n his testimony by several witnesses. The alderman considered the evidence insufficient to hold the young man and therefore discharged him with a severe reprimand.

CHARGE AGAINST CAVANAUGH.

Charged with assault and battery and attempting to burglarize the laundry of Soo Hoo Doo, on Birch street, John Cavanaugh, of the Twelfth ward, was given a hearing before Alderman Lentes, of Cedar avenue, last night. The evidence tended to prove that Catanaugh entered the premises of the laundryman on July 6 last, and, without any provocation, proceeded to run the place according to his own wishes, which were anything but business-like Soo Hoo Doo did not take kindly to the new manager and attempted to eject hlm. Then, it is claimed, the assault was committed, after which the proprietor of the laundry swore out a warrant for Cavanaugh's arrest. Tuesday evening of this week Cavanaugh was given a hearing, but owing to ome defect in the information, and the foresight of his attorney, C. C. Donovan, he secured a speedy discharge.

Another warrant was issued and Cavanaugh was re-arrested. At the hearing last evening the evidence was sufficient to hold the accused. Bail was fixed at \$1,000. P. A. Cavanaugh, of River street, qualified as his bonds

FOR BEATING HIS DAUGHTER. Before Alderman Ruddy, Thursday evening, Bryan Scahill, of Irving avenue, was accused by his daughter, a girl of 16 years, of cruelly beating her. The trouble arose from the question as to how long she should be allowed to stay out after dark. It seems that one evening this week the girl was out quite late and on her return home her father chastized her in a manner not very mild.

The next day she left home and went to reside with her grandmother, who lives in the same vicinity as the Scahills. After informing her grandmother of her reason for leaving her home, she went before Alderman Ruddy and gave the information which led to her father's arrest. At the hearing Scahill did not deny the charge of beating his child and gave sufficient reasons for so doing. The charge of cruelty, he laimed, was malicious. The alderman, after some deliberation, considered the evidence sufficient to hold him and fixed the bail at \$200, which Scahill

FRANFORTER INJURED.

John Franforter, a youth of 12 years, esiding with his parents on Remingn avenue, was seriously injured on the Delaware and Hudson railroad near the steel works station yesterday afternoon. An engine with a train of cars was standing at the station waiting for orders, when young Franforter espied two cartridges attached to the rail under one of the cars. His curiosity being aroused, he proceeded to find out what they were composed of, and accordingly he crept under the car and vas about to remove one of the cartridges when the train started. Not being quick enough to get out of his dangerous position, he was struck by the flying powder from the cartridge and his face was badly torn. Luckily enough he got out from under the car before the wheels could reach him, and with the exception of the injury to his face he was unhurt. Dr. Quinn was called and dressed the injuries to his

DUN'S REVIEW OF TRADE.

No Sign of Halting at the End of Three Years of Progress-Evidences of Prosperity.

New York, July 21 .- R. G. Dun & Cos. in their Weekly Review of Trade will

Optimism is always popular but more than half the time dangerous. Seven years of halting and reaction historially ollow three of rapid progress. But the three of progress have not yet passed and the most cautious search discloses no sign of halting. Foreign anxieties have been real, but seem to be passing and Europe has begun paying liberally for more food without expectation that se-curities can be sent in settlement. The extensive labor strikes have vanished and the local strikes do not effect na-tional business. Fears of new and powerful corporations lessen as it is found that they are controlled by the same laws which govern the small companies,
Above all the general evidences of prosperity continue. Official returns of the most wonderful year in the nation's com-merce show a decrease of \$85,900,000 in value of the great staples exported, largely owing to prices, but an increase of about \$80,000,000 in other exports, mostmanufactures. Russia's Seasick Navy.

Any man who believes in the Russ sian navy should keep his eyes off the Russian bluejacket. A real sailorman has fingers bent up like fishhooks from the lifelong habit of gripping things. The Russian sailor carries his hands like a soldier and cannot possibly ba "handy." A sailor's gait ashore has a slight roll. An the rolling gait marks one of the sailor's finest qualities-balance. Unless the body poises and balances to meet every motion of

the ship the result is seasickness. Now, the Russian bluejacket does not roll in his gait ashore, but marches. Neither has he any sense of balancing at sea, and seasickness in the Russian fleet is a source of actual weakness and danger. The Black Sea squadron can only put to sea in the three calmest months of summer, and the socalled moneuvers take place ashore on the Kenai peninsula, consisting merely of battalion drill.

One more trait of the real sailor is his self-reliance, which makes him fit for facing emergencies single handed, But the Russian bluejacket has none of this. He is not a machine in himself, but only a little bit of a machine which cannot work without the other bits. He is huge in stature— a giant compared with our men-but in his winter overcoat it is impossible to dislinguish him from a soldier. handy, seasick and reliant only on drill discipline, he is utterly unfit for
