The Front End of the Car Blown Away by the Explosion-Mayor Farley Will Call Out Additional Troops Today-Efforts at Arbitration Arc Not Successful-The Company Officials Say That There Is Nothing to Arbitrate-Two Policemen Roughly Handled by Mobs.

Cleveland, July 23 .- The rioting which continued throughout last night was renewed today and there were several serious outbreaks of violence. but no clashes between the mobs and the troops. Cars were started running as usual this morning on all but one or two lines. The mobs were astir early. Soon after 10 o'clock a thousand or more persons gathered on Burton street on the South Side and proceeded to obstruct the track. When a car came along with two policemen on board it was attacked with a shower of stones. In spite of the policethe non-union motorman and conductor were roughly handled. One of them, named McDermott, had two ribs broken and the other was badly bruised. One of the policemen fired at the mob, the bullet striking a man named Wennick. The mob assaulted the officers, both of whom were struck repeatedly with stones and but for the intervention of a number of people from a church near at hand the officers might have been lynched. By this time three cars had been mixed up in the melce' and a patrol wagon load of police arriving, the rioters dispersed and the cars were taken back to the barns. There was a serious disturb-ance on the Broadway line at the corner of Petrie street, where a mob of 5,000 assembled in the forenoon and obstructed the track. Finally a car came along from the Wilson avenue barn, having on board Sergeant Burrowes and a private of militia and Detective Kelso. They ordered the mob-

Passengers who were on the car say the explosion seemed to lift the whole front of the car and it ripped up the floor for more than half the distance from the front end. The car was in fact a complete wreck, but strange to say it did not leave the rails and was taken to the barns by the next motor. The police were quickly summoned to he scene of the explosion and a force of men was detailed to investigate with view to running down the person who placed the explosive on the track. A by living near the corner saw the nysterious man in the buggy. He said te noticed the buggy drive up there nd stop and saw the man get out. He umbled about the rails for a minute or two and then jumped into the buggy and drove away at a gallop. There seems to be no doubt now that Mayor Farley will call out the three or four available military companies in this city in addition to those already under arms. **CLAY COUNTY FACTIONS**

MANHATTAN CAR STRIKE IS OVER GENERAL MASTER WORKMAN

PARSONS SAYS IT IS NOT. Cars Are Being Run Under Almost Normal Headway on Nearly All Lines in Brooklyn-No Delay in Service at Manhattan-Police Will Soon Be Withdrawn.

New, York, July 22 .- The trolley car strike, both in Manhattan and Brooklyn coms to be practically at an end. General Master Workman Parsons says it s not, and today at a meeting of the Central Federated Union, he launched a scheme for a new labor political pary, and at the same time urged upon the delegates of the various trades unions in Greater New York the expediency of contributing to a fund to aid the strikers and the delegates promised their financial support. This s probably what causes General Mas-

Workman Parsons and District Master Workman Pines to promise important developments in the strike situntion this week. It is a fact, however, that both yes-

terday and today cars were being run under almost normal headway on all lines except the Nassau throughout Brooklyn, even to the various beaches, and carrying large numbers of passen-

In New York, except for the presence of several hundred policemen on Sec-ond avenue and guards about the various power houses, a strike would be out of consideration. There has been no delay in the trolley car service in Manhattan today on any line with the exception of the Second avenue line, and that is affected but little. It is stated by the police officials that tomorrow or Tuesday at the farthest most of the police who have been guarding the property of the railroad companies will

A SAVING OF \$800.000

After It Had Been Decided to Send Spanish Prisoners to Galveston Secretary Alger Originated the Plan of Sending Them at Once to Spain-The Scheme Which Saved the Government Thousands of Dollars and Endless Trouble.

Washington, July 23 .- Secretary" Alger has always felt a pardonable pride in the success with which the var department met the tremendous problem thrust upon ft by the neces-sity with which it was suddenly confronted during the war with Spain of suddenly disposing of the thousands of Spanish prisoners captured in Santiago province. The history of that time has not been fully told and it remained for Secretary Alger today to Charles Crandall: J. F. Wellbrock's supply the need, by the following bit of reminiscence

"On the night of July 9, 1898, the president asked me what in my judg-men we should do with the Spanish prisoners of Santiago after the capture. The matter had received very much thought from the president and myself, but no definite conclusion had been reached. I then suggested to the president that Galveston, Texas, would be the best place, in my judgment, where we could send them; that it was away from the coast line travel; a good harbor; that there would time of going to press, but it was plenty of room for camping them and thought it would be saved and that that its climate would be as nearly similar to that of Santiago as we could probably select. This seemed to meet his approval, as it was only a question of time of course, when their captura would be effected. I went to my home as nearly as I can remember about 2 o'clock in the morning and being too tired to sleep I lay awake for a while but finally dozed off. I awoke at daystore, and George Taylor, who lived break and my first thought was concerning the Spanish prisoners and the new idea came into my head, 'why not household goods. Only portions of send them back to Spain" This the stocks of the stores were saved, thought impressed me so deeply that morning of July 10, instead of going to the department direct I went to the and laid th fore the president saying that It would be an unprecedented procedure and a most gracious act; that to ship the prisoners to Galveston would be half the distance; that we should have to clothe, shelter, guard and feed them there, and no doubt have to ship them back to Spain in the end. I also stated that I believed it would be a great inducement to the Spaniards to surrender which General Shafter afterwards osured me was the effect. The presilent readily approved the plan and on the same day I cabled General Shafter to notify the Spanish commander that should the Spaniards surrender unconditionally and wish to return to Spain they would be sent back direct at the

there will be a public reception in the corridor of the city hall, followed by a meeting, probably in Light Guard prnory, where opportunity for the expression of the sentiments of prominent citizens will be had.

Covernor Pingree during today's meeting favored the idea of holding a genuine "Indignation" meeting follow ing the public reception. Mayor Maybury raised the question whether such expressions would not embarrass and displease General Alger rather than otherwise, but the governor's mass meeting idea prevailed.
