SECRETARY MAHY AND NEW ASSOCIATION BUILDING.

Rooms Will Be Rented at Very Reasonable Prices He Says-It Will Be Done to Rescue Young Men of Moderate Means from Bad and Unwholesome Surroundings by Putting Something Better Within Their Reach-F. W. Zizleman and the Fire Department.

Secretary George G. Mahy of the Young Men's Christian association, is spending these hot summer days largey in planning and arranging the de tails for the proposed association building at Washington avenue and Mulberry street. The comprehensive prospectus which was issued to architects was the work of Mr. Mahy and besides embodying the best ideas in the most modern association buildings of the country it contains many ideas of his own which he believes will be desirable in an association building in this

As an assistance to the local architects beyond the information contained in the prospectus, Secretary Mahy has arranged to have placed on exhibition n the temporary quarters of the association on Washington avenue the plans of twenty of the most recently erected Young Men's Christian association buildings of this country. They were on exhibition at the International Young Men's Christian association con cention in Grand Rapids, Mich., last May and attracted a large amount of attention. These plans are for the inpection of the public as well as for the information of architects.

The cost of the proposed building for this city is not to exceed \$150,000, but this is exclusive of furnishings, equipment for the manual training department, gymnasium, etc. When the building is completed and ready to be thrown open to the public it is probable that it will represent a total cost of at least \$200,000 not counting the cost of the ground on which the building will be erected.

One of the features of the new building which will be much appreciated by the young men of the city is the provision made for living in the association building. There will probably be emmodations for one hundred and fifty young men who are now eccupying rooms in stuffy boarding bouses. The rooms will be cheerful and airy and will be neatly furnished. In speaking of this feature of the building, Mr. Muhy said:

"The rental derived from these rooms will naturally mean a certain amount of fixed revenue for the association. but the primary object in having these coms was not to make money and the prices we will charge are to be kept lown close to the actual expense mark. You see if we charged even moderate. ly high prices we would keep out of the association building the young men with small salaries, apprentices and the like, who need just such a home as they can secure there. These are the young men we are after. We want to rescue them from bad and unwhole some surroundings by putting something better and more desirable within their reach."

that the present deplorable condition of the apparatus of the department is due in a large measure to the incompetency of the men employed by the city to look after the apparatus, has been for twenty-three years a member of the Scranton Fire department. He is an carnest, hardworking fireman who has the good of the entire department at heart even if ome of his brother firemen do charge him with having the good of the department at large secondary to the good of the Nay Aug company.

It can be said for Mr. Zizleman that ne has made a careful study of the needs of the department and that in councils, while always working to seoure the hest possible buildings and equipment for the firemen, he keeps in mind the fact that the financial end of the matter has to receive considera tion. He believes in the policy of making prompt repairs on steamers, hose, wagons and hose reels when these repairs can be made at a small expense. It saves the purchase of new apparatus. He pointed out Thursday night that the present condition of the apparatus of the department is largely lue to the neglect of needed repairs which he attributes to carelessness or incompetency upon the part of those employed by the city to look after the apparatus. If Mr. Zizleman's concluslons are correct a much stricter supervision of the fire department is de-

NORTH MILL TO RESUME.

Single Turn Will Be Put on at That Mill Today Rolling Steel Rails - Prospects Are Very Bright.

The North mill of the Lackawanna fron and Steel company will start up today to work steadily on single turn rolling rails. The South mill is working double turn and the prospects are that before long both mills will be working full blast night and day for a long continued period.

The big boom in the fron business which set in a few months ago and which continues unabated is affecting the steel rail market quite as much as every other, and a season of great prosperity is confidently looked for.

The May and June pays of the men at the South mills were the largest in twelve years, it is said and the July pay promises to exceed either.

RECORDS BROKEN.

Every record in the master of output vas broken during the week. The 12, 24 and 48 hour and week records were ne and all exceeded. Thursday was the biggest day in this respect the mill ver knew, 1,492 tons of rails being rolled. The record is the more remarkable from the fact that it was a comparatively light rail, seventy-two pounds, that was rolled,

The business in hand and in sight would warrant working the mills to their fullest capacity for an indefinite period if there was an assured supply of pig iron. It is a very much ought after commodity just at present and there is no dealing to be thought of whatever in deliveries that extend to any great extent into the fu-

DEATHS DUE TO IGNORANCE.

Two Cases Which the Coroner Investigated.

Coroner Roberts was called upon yesterday to investigate two cases in which infants died wholly or in part through the ignorance of their parents. One case was that of the child of a F. W. The other case was that of an infant boy named Geyza Kopachok, who was found dead in his cradle yesterday morning. The child had been suffering from cholera infantum and passed away in a spasm. The parents did not know that the child was seriously ill, believing all the time that

it was only feverish from teething. The coroner gave a certificate in each ase without holding an inquest. He, however, gave the parents in each instance to understand that they had

THOUSANDS WITNESS THE CONVENTION

ODD FELLOWS CONFER THE DE-GREE OF CHIVALRY.

Very Interesting Exercises at the Annual Reunion of the Independent Order of Odd Fellows of Wayne, Luzerne and Lackawanna Counties at Farview-It Is Estimated That Nearly Ten Thousand Persons Were Present-Description of the Work of Conferring the Degree.

One of the largest crowds that ever assembled at Farview was present there on Saturday. The occasion was the reunion of the Odd Fellows from Wayne, Luzerne and Lackawanna counties. The principal attraction, however, was the conferring of the degree of chivalry upon over twenty-

five women and four chevallers. The members of the Department Council, Patriarchs Militant, who were in session in this city on Friday, accompanied by the Scranton Canton of this branch of the order in full dress uniform, paraded over the principal streets of the city Saturday morning and then took the train on the Delaware and Hudson rallroad for Farview. They were accompanied by over 2,000 persons from this city. Excursions were run from all of the

ly 10,000 persons were in attendance. The ceremony of conferring the degree took place at 3 o'clock in the afternoon. It is the most elaborate ritualstic ceremony in the citual of the order and held the attention of all present from start to finish.

At one end of this space were three tents for the use of the department ommander and his staff. At the other nd and facing the tents the Scranton Canton, which participated, drawn up in line with swords at carry. The Lawrence Band was stationed in front of the commande: int. The ceremony was as follows:

INTERESTING CEREMONY.

The male candidate for the degree ntered in full uniform and ofter surendering his sword and uncovertage his head passed under the crossed swords of the participating canton called the "arch of humiliation." He was then conducted to a font of water n which he washed his hands signifying his desire to cleanse the body of

He was then presented to the De partment Commander, who was seated in his tent surrounded by his staff. After having examined the candulates recentials, the latter stepped back in "mirany with a captain, who acts as his conductor. Four young ladies attired in white and wearing a bow of red ribbon, one of pink and green, one of royal purple and one of scarlet, white and purple, respectively, then appeared and took up a position between the commander and the candi-

kneel on his right knee and placing his hand upon a Bible placed on a drum before him he repeated the following obligation: "I own free will and accord before these living witnesses, do thus voluntarily promise and obligate myself to defend maidens, wives, widows and orphans in their rights; to relieve the disressed; permit no extortion, so far as I may be able to prevent it; to sup-port those who are weak and poweress to maintain their rights, and to administer justice to the advance ment of honor and the suppression of vice. All of which I, in this presence, do avow it my purpose and intention to perform, to the extent of my ability, under penalty which shall be no less than degradation caused by the loss of my personal and military honor, should I violate this solemn obligation." At the conclusion of this yow the drum rolled and the members present presented swords.

LADIES TAKE A HAND. The first young lady then stepped forward and placed upon the heel of the candidate a golden spur giving the instrument of coercion to the strongest member of the body and beseeching him to go on in the chivalrous

The second young lady then advanced and presented the candidate with his sword, telling him to unsheath it only in the right and to use it in defense of the principles he had just voluntarily espoused.

The third young lady next stepped forward and handed the candidate a steel gauntlet, as a symbol of firmness, and warned him to be ever firm and true and exercise the quality of mercy. The fourth lady then advanced and gave the candidate a white silk glove. symbolizing that however bold and

firm he might be that kindness and

gentleness must be used before force of arms is resorted to. The decoration of chivalry was next pinned upon the breast of the kneeling candidate by a tiny girl clad in white, typifying innocence and purity. The decoration consisted of a white cross of ancient design, having mountd upon the face a scarlet heart and earing a golden crown, with the folowing motto on the back: "Be just,

erciful, honorable and brave, The whiteness represents purity, upn which all justice is built; the searheart, the heart of man, from which flows the fountain of mercy; the golden crown is indicative of the rowning virtue, honor, when practiced to defend helpless women. The candidate was then struck slightly on the back by the commander with his sword and was a created a chevalier.

DECORATION OF WOMEN. In the conferring of the decoration spon women the presentation of the various emblems was omitted and the wording of the obligation changed. but the ceremony was otherwise almost identical. The degree was conferred by De-

partment Commander Edward C. Deans, of this city, and the young idies who assisted were the Misses Butler, Gormby, Graham and O'Neil of Pittsburg. 'The degree will be conferred again in Calhoun hall, Pitts-burg, on July 27. An admittance fee will be charged on that occasion, the proceeds to be devoted to the Widows and Orphans' Home at Ben Avon: 18,000 tickets have already been sold The women who received the degree on Saturday were members of the

STRIKERS WILL ASK FOR ASSISTANCE

FEDERATION OF LABOR TO BE APPEALED TO FOR AID.

At a Meeting Between the Building Trades' Council and the Central Labor Union Yesterday Afternoon, the Existing Differences Were Patched Up and the Latter Body Will Use Its Good Offices in Support of the Strike-Plumbers Likely to Go Back to Work.

The Central Labor union held a well ittended special meeting yesterday afternoon in Carpenter's hall. The secting was called at the request of the Building Trades' council and delegates from that body were in attendance. The previous disagreement existing between the two bodies has been satisfactorily adjusted and the meet ing yesterday was conducted with perfect harmony.

At the request of the delegates from the council, it was finally decided to make an appeal to the American Federation of Labor for aid. A motion to that effect was presented and unanimously adopted. The appeal will be sent to President Compers through him to the 27,000 local unions amliated with the organization. The appeal had to be made through the Central Labor union as it is the only body recognized by the Federation of Labor in this city.

The Builders' exchange issued a statement on Saturday night to the effect that the strike is over. It stated that the members of the Exchange had practically all the men at work that they required and that there would positively be no conference

The strikers deny this statement and

ay emphatically that the contractors of the Exchange have not enough men working. They also say that a number of the architects in the city are in sympathy with them and are going to contractors who have signed the agreegent with the plans for estimates. It is considered probable that the dumbers and their employers will come some agreement this week. It is stated by some that the master plumbers will agree to the eight hours if the men would work on jobs without repard to whether union or non-union men were employed thereon. This the dumbers say, they will never comply with, as it involves a fundamental printiple of trade-unionism which they will ot violate.

A. C. Cattermull was again in the city for a short time on Saturday. He saw the leaders of the strike and advised them regarding the general ritu-

The strikers have arranged for another mass meeting to be held tomorow night in Carpenter's hall, Wyoming avenue. Admittance will be limited to those connected with the Building Trades council. Several local speakers will address those present and it is noped that the enthusiasm of the men will be greatly increased.
