of many a country bank vault. The old capitalist had been on collecting tour among the farms of the mentioned towns, gathering in the interest on his mortgages and stuffing it into his bootleg banks, and coming to Watertown deposited his gatherings in the vaults of certain of the city banks, after which he started out to walk back to the farm, leaving early that he might reach home in time to take care of the farmer's stock,

In appearance the old man, who must have passed his eightieth birthday, is suggestive of anything but a capitalist, as his cowhide boots, which he always carries with him on his trips, are sug-gestive of anything but the depositories of money and securities. He wears, winter and summer, a well-patched pair of long-legged rubber boots, while his faded coat is belted around his stooped and bent body by a piece of lothesline with an iron ring in lieu of abuckle.
