It is understood that the purchasers intend dividing the land into \$00 building lots. The Building and Loan Associations controlling property fronting on Pettebone street estimate the value of lots on that street at \$400 and upwards. The opening of the Oram estate will

permit the extension of Hyde Park. Bromley, Sumper, Lincoln, Rebecca Garfield, Everett and the remaining avenues as far back as Grant avenue and wonderfully increase the useful-

ness of the Linden street bridge. The street car facilities can be made to conform with the requirements of the residents, as two lines already run within easy reach of the land. The Lafayette street line reaches the cornr of Swetland street and North Bromley avenue, one block distant, on the southerly side, and the North Main avenue line runs to Tripp park, which

can be reached from the north side or the east side. Water, light and sewer connections can easily be made, as the land is situnted within the city limits, being a

large portion of the Twenty-first ward On the easterly side of Main avenue nearly the entire strip of land, from the ravine to a point opposite the Oram homestead, is already built up and is looked upon as an ideal resience place.

With the opening of the Round Woods tract on the south end of West Scranton and the Oram plot on the north side, unusual advantages will be offered in building lots, and a boom will be created in the real estate business the like of which this city has never experienced in that part of the city.

The Round Woods Tract.

Surveyors were engaged yesterday in staking out the land on the Round Woods site recently purchased by Hon. W. W. Watson and the ground will be suitably arranged for building pur poses as soon as possible. It is the intention of the purchaser

to run a street parallel with Main avenue, midway between the woods and Main avenue and lay out another thoroughfare nearer the woods, which will not run the entire length of the

tract. Workmen were engaged yesterday in removing the dead timber from the grove and the woods is undergoing a thorough cleaning out, which has not been done in many years. The purchase of this tract, Mr. Watson stated yesterday, is not in any way connected with the Keyston Land company's land, known as Lincoln heights, although the parties in

terested are connected with the latter company.

Another Real Estate Deal. The White Hall Portland Cement company, of Cementon, yesterday pur-chased from the White Hall Land Improvement company sixty-one acres of and situated a short distance from
