TRAMP OF A WOMAN IN DENSE FOREST

EXCITING EXPERIENCE OF MRS. JOHN LLEWELLYN.

Lost on the Mountains Near Wilkes-Barre, She Walks a Distance of Forty Miles Alone in the Woods and at Last Reaches a Farm House Near Stroudsburg-Other Notes from Pittston.

Mrs. John Llewellyn, who was lost the Moosic mountains since last Monday, where she went in company with others from this place on a berrying expedition to Bear lake and vicinity, has been discovered, or at least she kept up her wandering until coming to farm house on the outskirts of Stroudsburg, having tramped through swamps and underbush for nearly forty When she reached the house she was in a very exhausted condition and the clothing was nearly all torn from her body, but was soon replaced by her rescuers and her condition made as comfortable as possible. The friends were notified and she was brought home via the Wilkes-Barre and East-

ern railroad. We just caught the edge of the storm yesterday afternoon, but it was just enough to drop the thermometer ten degrees.

Miss Esther McDonald, of Luzerne borough, and a niece of Mine Inspector McDonald, while riding a wheel on South Main street became bewildered at the approach of a trolley car and ran into it. Only the alertness of the motorman sayed her from being ground under the wheels. She es-caped with several severe bruises.

While R. M. Hughes and wife were driving on the West Side yesterday and when passing Ellis' flower garden the horse stumbled and both were thrown out, but luckily with fortunate results for them. The shaft of the carriage

was broken. T. S. Voorhees, of Scranton, was among the business arrivals yesterday and registered at the Sinclair

Burgess C. H. Cutler, of the West Side, has just purchased a team of Morgan mares that are undoubtedly the most stylish pair that has been seen on our streets in a long time. The West Side Bicycle club held a

smoker last evening and they furnished the most pleasant kind of a time to the guests who were fortunate to be present. The Tribune man was one of this number and these young men cannot have occasions of this kind too often, as they are good entertain-The Touhill family was present. St. John's Lutheran choir will give a concert in Phoenix hall on next Tues-

day evening. Clarence Weathers, son of Patrolman Weathers, had one of his arms badly injured yesterday while at work on the culm dump of the Butler colliery.

The funeral of the late Mrs. Mary Fox took place yesterday afternoon from the home on Parsonage street and was attended by a large gathering of friends. The interment was made in the Pittston cemetery.

Ray Bosworth and Herman Smaltz while in bathing yesterday had their pockets relieved of what change they contained, their clothing knotted and shoes filled with sand and gravel. The perpetrators are known and will be prosecuted.

Michael Kehoe, an employe at the Riverside foundry, had one of his eyes painfully injured yesterday while at work on an emery wheel.

The greatest excursion to go out from this city this season will be the Henry Grattans, which goes to Lake Ariel on Aug. 24.

Robert Bartlett, a young man whose home is on North Main street, was thrown from a Lehigh Valley freight train, which he boarded at the foot of Parsonage street at 9 o'clock last night and sustained a gash in his scalp and

it is feared a concussion of the brain. The common and select councils met in joint session last evening and awarded the contract for the paying of Broad street with vitrified brick and also the laying of sewers on several of the outlying streets. was some very close bidding by several contractors and the successful ones got the plums and the jobs by very close margins. President Joyce, of the select council, occupied the

The Philadelphia Messenger Boys

Persuaded to Go to Work. Philadelphia, July 27.-The fever of striking which seems to have taken possession of the telegraph messenger hoys in various cities reached here today when, approximately 200 out of a total of more than 500 employed by the different companies, struck for higher wages. The Western Union day boys now receive two cents a message and the night shift fifty cents a night. No payment is made for messages undelivered. The boys want to be paid for the latter and demand three cents message and sixty cents for night

joined by recruits from the Postal, American District and Philadelphia mond. and Reading companies. Beyond congregating about the offices the boys

treated no disturbance. During the afternoon the strike came to an end after a committee of the Western Union hoys had conferred with Superintendent William B. Gill.

The boys had gone out before express ing their grievances. Mr. Gill induced them to return telling them he could not treat them as long as they had left the service of the company. He advised them to go to work, present their prievances and he would give

them consideration. Following the return of the criginators of the strike the boys of the other companies with but few exceptions also went to work.

GAS EXPLOSION.

Two Men Fatally Injured and Five

Seriously Burned. Hazleton, Pa., July 27 .- By an explosion of gas at the colliery of Coxe Brothers & Company at Derringer, ten miles from here, at noon, today, two men were fatally injured and five were seriously burned. They are: Morris Slough, of Weston, aged 24,

narried, frightfully burned about the body and also internally. He cannot recover. Charles Eiserman, of Weston, aged 26, married, burned about head and body. Recovery doubtful. Adam Cornhart, of Neuremberg, aged 28, married, externally and internally burned, condition favorable. The other four, John Lozar, Rocco

Diucia, Carl Rossi and Stephen Martini, badly burned; will all recover. The cause of the explosion is unknown. Three mules were burned to death in the passageway where the explosion occurred and others were overcome by gas. The force of the explo sion shook the entire workings and for a time it was feared there had been terrible loss of life.

By Carrington and Cusack. New York, July 27.-The market opened dull at about last night's closing prices and transactions were small during the forenoon, particularly duro'clock Consolidated Tobacco had quite a spurt selling at 42%. Advance was caused by buying by Bianchi, a specialist in the stock and brought a large following among traders. There is no special news except that the company is doing a very large business.

About two o'clock the market strengthened, particularly in the Gran-The Grangers advance was lost by time, St. Paul being stronger and higher than last night's close all day. Sugar has been weak, bought gaining about two points for the day, the rise was largely attributed to shorts cov-

ering the inside buying. L. & N. sold exdividend of 2 per cent. today, opened about one and a half point off and gained nearly all of that decline. This stock is considered the strongest of the Southern lines.

Market closed very strong at about the high price of the day, Pan Handle showing a gain of 35s points.

THE SATURNIAN SYSTEM.

The Vast Space Swept by That Planet and Its Nine Known Satellites. From Rochester Democrat and Chron

The announcement from Harvard ob servatory of a ninth satellite of Saturn is a matter of great interest in astronomical circles. The new satellite was discovered by means of photography at Arequipa, Peru. This is the second satellite of Saturn discovered by astronomers of Harvard observatory the elder Bond having found the eighth in number and the seventh in distance from the planet in September 1848. The seventh in distance is small and is visible only in large telescopes. Iapetus was the outermost satellite

up to the time of the discovery at Arequipa, and is about as large as the least of Jupiter's satellites. The span of the orbit of Iapetus is about 4,500,000 miles, the distance of the satellite from the planet's center being about 2,250,-900. It was stated in our recent despatch from Cambridge that the new satellite is three and a half times the distance of lapetus, or approximately 850,600 miles. The span of the orbit is about 15,750,000 miles, and the time of revolution about seventeen months Before the discovery of the ninth satellite the Saturnian system was second only to the solor system in magnitude.

It is possible that some of the satellites of Saturn and Jupiter are habitable. One of Saturn's satellites, the sixth in distance, is nearly as large as the planet Mercury. Saturn's lightng capacity is immense, to say nothing of the light each satellite receives. from the sun.

The new satellite of Saturn is of the fifteen and one-half magnitude. It is so faint that it might have remained undiscovered but for the photographic plate. This discovery has fully justified the confidence of the late Alvan Clark in the Bruce photographic tele-

In the discovery of satellites, as in nebulae, American astronomers are eading their European Americans have discovered two satelites of Mars, the fifth satellite of Jupiter, two satellites of Saturn and more than 1.060 new nebulae.
