PROF. COLES FOR AUGUST.

Our predictions for the month of July were fulfilled to such an astonishng degree as to satisfy the most fasidious, and to convince them that our theory is based upon something more substantial than "guess work." The "High Flood" and the 'Low Ebb" vital forces will be about equally divided this month and there will be some awful battles between the magnetic and electrical forces, both in the Old World and in America. The moon will be in square aspect with Jupiter, with Jupiter and the moon in the terms of Venus. This shows a very deceiving month ahead for us. The people as a rule will be generous to excess and careless of expenses, buying much which is unnecessary. The cereal markets will be unsteady and jerky, going down when it looks strong and vancing when it looks weak. The judgment of the common people will have a very poor show. From the 10th to the 29th will be the best time for busi-ness changes. Children born this month will be fond of speculation, but will have no ability to accumulate wealth by saving.

VALUABLE INFORMATION.

Those who want to get rid of thistles, thorns, locusts, daisies, plantain leaf, nd Bowerman. Umpires-Swartwood and bushes, trees and all such, will receive full instructions for ten cents. Do not allow any surgical operation to be performed upon yourself or upon any of your friends during the "Low Ebb," days of this month, as the planets are in the right position to cause blood poison; watch out for the fury of wild Am. Spirits... 612 612 612 612 613 614 615 615 615 615 615 615 615 615 your friends during the "Low Ebb" wild attacks upon mankind. Note the increase of smallpox victims, inflammatory fever cases, measles, sore eyes, epidemics, pleurisies, convulsions and liver complaints. A little peppermint essence rubbed upon the forehead will cure the headache and dizziness that will become epidemic this month especially with those ruled by Leo-heavy built with large eyes and light hair. An epidemic of skin diseases will run

THE STORMS AND SIGNS Our prediction that the Southern tates would get more than their share of storms last month was fully verified. We have reasons to believe that more danger awaits them this month; and that a great cyclone or tidal wave may sweep the Atlantic coast. The electric and magnetic currents will be so excited as to cause many new storm combinations and unprecedented heat-heat that will cause the oxygen to expand to such an unusual degree that it will barely support life in weak-lunged human and animal beings. Keep your eye on the dark storm clouds, and watch the seemingly seething, boiling, clouds, and the red afterglow that will follow them. The Eastern states must watch out for great electrical disturbances this month, which will result in great disaster. We do not want to alarm the people; but we do want to warn them that it is high time to give attention and thought to the study of "what the planets are saying.

WORDS OF WARNING. Great armies of worms, very much

the same as army worms, will overrun some sections of the country and do much damage this fall. Be careful of your diet, for we have reasons to believe that stomach troubles will cause many deaths. This will be the hardest month on the health of infants that has been in many a year. Three meteors will fall to earth this month, and strange lights will be seen in th heavens, caused by an unusual amount of magnetisity. Watch out for great disturbances in the East. Our great ejoicing over the return of Dewey may

be turned into mourning. The race war in the South will break out with renewed hatred. Great religlous excitement will drive many to renzy; and crimes of the most diabolical nature will astound us all. Let the Western states watch out for destructive storms and floods. Watch out for an epidemic of evil

doings that will run riot throughout America and the old country, Watch out for earthquake shocks.
