EVENTS OF DAY IN WEST SCRANTON

MARRIAGE OF R. B. HOLDER AND MISS ELLA HOYLE.

Ceremony Performed by Rev. de Gruchy at the Jackson Street Baptist Church Parsonage-Funerals of Mrs. Margaret Howells and Rachael Davis-Hyde Park Avenue Pave-Local Improvement Society--Reception to Rev. E. A. Boyl-Events of Interest.

Robert B. Holder, of 626 Adams ave nue, and Miss Ella Hoyle, of Hones dale, were quietly married last evening at the parsonage of the Jackson street Eaptist church by Rev. Thomas de Gruchy. The bride was attended by Miss Ella Kellow, and John Kellow acted as greemsman.

Both ladies were becomingly attired in traveling costumes. The bride is an accomplished young lady and is well known in Honesdale, Her husband studio on Wyoming avenue. After a wedding trip Mr. and Mrs. Holder will reside on Franklin avenue.

HYDE PARK AVENUE PAVE.

The work of laying the bricks on Hyde Park avenue was commenced yesterday between Jackson street and the Franklin Engine house. Owing to the unevenness of the curb line at the Jackson street intersection the brick had to be relaid the second time.

The work on the street below Jackson street is delayed, it is said, owing to the men quitting work because the contractor has been handleapped in making his payments. The work should be pushed as rapidly as possible, as the delays have caused considerable inconvenience both to the traveling public and the contractors. The space in front of the Franklin Engine house will be paved, and when the job is completed it is safe to predict that a better thoroughfare canno

be found in the city. The work of paying Price street, be tween Bromley and Hyde Park avenues, will soon be commenced, as the contract has been awarded.

LOCAL IMPROVEMENT SOCIETY. In conversation with a well-known member of the Scranton board of trade yesterday, The Tribune man broached the subject of the apparent difference existing between the contral city body and the West Scranton organization. The gentleman was of the opinion that representatives should be chosen from every section of the city to attend the Scranton board meetings, and bring the relations closer, thus What the suburbs need, he said, is local improvement societies to look after the needs of a community, and where there are industries to be secured, to have the united co-operation

of influential men from every part of the city.

"There is too much talk in the West Side board of trade," he said, "and no money to back it up. What you need is men who are willing to invest their money and await returns." The board of trade will meet one week from this evening and discuss the recent real estate deals and other matters pertaining to the West Side.

fitting the occasion when ground was broken for the sewer. Word had been ent around during the morning that at 1 o'clock precisely the first strike of

pick would be made. Nearly all but those on the inside vere somewhat dubious as to the correctness of this statement. When the important hour had arrived an immense throng lined the bank to witness the scene. Promptly at the hour given Contractor Koons, accompanied by a delegation of the leading men in the sewer movement, arrived, Mr. Koons, who lacks but one year of being to years of age, pulled off his coat, took a pick and in a manner like he did it years ago, sent it deep into the ground. thousands of long suffering and patient people from premature deaths and to place South Scranton in her position among the other progressive sections of the city.

Mr. Koons stated to a Tribune reporter yesterday that he will push work as rapidly as possible. He estimates that it will be a year from now before the contract is completed. When

BERLIN'S CLEAN STREETS.

rom the Boston Transcript Bicyclists who have ridden much on the asphalt streets of German cities say that the tendency to "side slip" is there much less marked than on simdar pavements in this country. The explanation of this fact may possibly

lie in the statement which is made by the American consul at Breslau that the asphalt streets in that city are regularly washed, the purpose of the washing being to remove the slime which the asphalt seems to leave and keep the street from being slippery. The washing has the further effect of preserving and hardening the asphalt. The care taken of the asphalt by the ity authorities contrasts strongly with the methods usually adopted in the United States.

For instance, the space in front of the consulate is divided into four squares, which are in charge of one man. After cleaning the street early in the morning he wheels out a barrow load of very fine, sharp sand and scatters it lightly over the streets to prevent slipping. On rainy days the process is repeated several times. Once a week the whole street is sluiced and thoroughly washed with sprinkling carts. These are followed by ample roller brushes, which sweep the water and slime into the gutter, whence It is carried away. After this the man who has charge of the street comes

There was buried in Wolcott, N. Upon earning the rituation she chastised oung Chauncey, and told Mrs. Westfall to nunish him herself, if he again offended.

Chauncey soon again began his depedations. Twice Mrs. Westfall warned him, and then she spanked. But it was too mild a form of punishment to subdue the youth, who merely grinned and kept on. Then the long-suffering young woman lost patience. Selzing Chauncey firmly, she turned him across her knee, and spanked him long and hard.
