About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I deelded to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy .- C. L. Boggs, Stumptown, Gilmer Co., W. Va.
