MORE REAL ESTATE TALK.

What Superintendent Loomis Says of the Rumors.

The latest story regarding a con templated sale of land of the Lacka-wanna Railroad company is that the Diamond Flats land facing on Providence read is about to be sold to : number of moneyed men of the city. Superintendent Loomis, of the ceal and real estate department of the company when interviewed by a Tribune man yesterday on the matter, made the appended statement "We are not in the real estate busi-

ness. Shortly after assuming my office as you will remember I announced that all surface land of the com-pany was for sale. Immediately there was a great influx of men to see me who were anxious to make money in real estate. Then, and since, I have frankly told everyone interested that they must send in bids for the land desired, and I reserved the right to reject any and all bids. I have sev-

eral bids for the Diamond Flats tract, but have not acted on them." "Is there any likelihood of an early sale of this property?" was asked.

"That I am not prepared to say to-day. However, if I receive an offer for any land of the company, that in my opinion is a just price, a sale will be made."

A Card. We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greenes Warranted Syrup of Tar if it falls to cure your cough or cold. We also guarantee a 25-cent bottle to prove satis-factory or money refunded. J. G. Bone & Son, Dunmore, Pa.; John P. Donshus, Beranton, Pa.

road he selected Mr. Fowter for his chief clerk, which position he held until now

missal.

The resignation of Mr. Hallstead, the 1.67 abandoning of his office and newly created office of general superintendent 1.76 which Mr. Russell holds necessitated 4.83 the doing away with Mr. Fowler's position. This fact he was fully cognizant 22,942 of and when all his work was closed 42.21 up he tendered his resignation. 42.28 8.217

Mr. Fowler, however, is wanted by the Lackawanna company judging 14, 170 from the statement of a high official 20.11 (5,27) of the company to a Tribune man yesterday. The gentleman referred to 1.10 said: "Mr. Fowler is an able man and par-2.61

ticularly in railroad matters. Mr 1.40 Hallstead resigning and the induction into new offices of new men who brought with them their chief clerks 12.65and secretaries necessitated Mr. Fow-0.11 ler's position being done away with. 9,602 While I cannot say just now with a degree of certainty that Mr. Fowler

will be retained by the company I have good reasons to believe such action will be taken." D. J. Whiteford, who was under Mr.

Fowler, has resigned also.

Men Have Quit Work.

The employes at the Oxford washery quit work yesterday owing to a grievance which they claim to have with the Delaware, Lackawanna and Western company, From what could be learned of the trouble, seven of the employes were laid off a few days ago and the work to be done naturally devolved upon the men at work, There are fourteen usually em-ployed there, and they claim that their work has not only been increased, but that they have been asked to accept a reduction in wages. The matter will probably be adjusted when presented to Superintendent Loomis.

Another Strike On.

Yesterday morning the employes of the Lefigh Valley Coal company at the Exeter colliery in West Pittston refused to go down the shaft and the outside hands to their accustomed work until some answer was given to them in regard to their demand for an advance in wages, which was sent to the officials some time ago. An answer was expected not later than yesterday morning.

The demand of the miners was for \$1 a car, an advance of 5 cents. Those engaged in loading the cars on the outside demanded the uniform wage of \$1.40 a day, instead of \$1.15 and \$1.25. A committee waited upon W. D. Owens, the superintendent, and submitted their demand and were informed that what they asked could not be allowed. When this was reported to the men who were assembled at the head of the shaft they took up their dinner cans and left the place for their homes and the colliery was idle for the day. Nearly five hundred men and boys were out of employment in conseduence.

Work in Four-foot Veins Stopped. A rumor was current yesterday that the miners employed in the four-foot

veins of the Delaware, Lackawanna and Western collieries have been ordered to quit work and double up with miners in other sections of the mine The men are not thrown out of employment, however, but from what
