#### LIVE NEWS OF THE INDUSTRIAL WORLD

STONE CUTTERS OF NICHOLSON HAVE ORGANIZED.

Fire in the Dodson Colliery at Plymouth Has Been Extinguished. Transfer of the Dispatcher's Office from Binghamton to Buffalo-Circular to Be Issued to the Stockholders of the Boston and Albany Railroad-James Wilson Succeeds Edward Hughes as Mine Foreman.

The committee from the stone cutters' union which went to Nicho'son on Tuesday for the purpose of organizing a union there returned yesterday and reported excellent success. They found the men to be very desirous of organizing and in the evening a meeting was held and the organization was perfected. An application for a charter has been forwarded.

The carreners said yesterday that they had been successful in reinstating geveral back-siders into the union. The Builders' exchange as an offset to this gave out that men are returning to work every day. This is a fair sample of the denials and counter-denials that are being daily indulged in

The carpenters stated that they had secured no new contracts, but gave out the usual rosy statement that specleations and plans were being brought to them every day for estimating and that more work than could be done

Work was re-commenced yesterday on the new bank building on Lackawanna ayenue. Several fron workers and bricklayers were engaged and it would appear that the building is now in a fair way for early completion.

The plumbers still remain obdurate and refuse to budge from their position on the eight hour principle. The tinners and plasterers are also still standing by their original demands.

#### Fire in Dodson Extinguished.

Affairs at the Dodson colliery, Plymouth, are becoming much better and encouraging. The fans have been started and Tuesday morning the inside foreman, Daniel R. Davis, accompanied by his son, Thomas R. Davis, and Fire Boss William Walters went inside by way of the Parrish mine and worked their way to within 600 feet from the foot of the shaft. They encountered black damp or they could have gone all the way.

Everything inside appeared to be quite cool, which is an evidence that the interior fire is extinguished. They found slight falls in various places due no doubt to the explosion of gas A force of men are working outside

clearing away the debris of the burned breaker preparatory to the building of a new structure.

### Transferred to Buffalo.

Binghamton Leader: "Yesterday marked the close of the local D., L. & W. train dispatcher's office in this city, the transfer of which to Buffalo, under the supervision of Superintendent Marsden, was officially announced a short time ago. John W. Honan, who had been at the head of the local office for the past fifteen years, left the city about 2 o'clock this morning for Buffalo, where he will assume the duties of trainmaster and chief dispatcher of the Cayuga and Buffalo divisions of the Lackawanna. Mr. Honan's change to Buffalo comes under the head of a promotion, which he fully merits through long years of conscientious and valued service in the interest of the road.

"It was thirty years ago that Mr Honan entered the service of the Lackawanna as telegraph operator and about ten years later he was appointed to the office of train dispatcher. The platform of the depot was well filled with local employes of the road early this morning gathered to bid good bye to Mr. Honan. He has always been popular and highly regarded by the men and they all regret sincerely his

#### OUR BEARDED LADY.

Designing men, tutough alluring and con-ringly worded advertisements, constantly endeavor to work upon the feelings of sick and alling women by inviting them "to write to a woman (i) and secure a coman's sym-pathy." It is well to remember that the best sympathy is to had at home and not from stranger), perhaps hundreds of miles distant. The object of the sick is to get well, and however preciens sympathy may be, it never yet carrid a seriously afflicted woman. While the sympathy of your milliner or dressmaker might be appreciated and be just as beneficial, if not more so, than sympathy from a stranger, we the can not effect your cure if you are an ailing woman. It is loudly proclaimed through the press that "a woman can best understand a woman's ailments." and on this ground sick women are in sited to "write to a woman" and get the hepefit of a woman's advice. The sort of "understanding of her ailments" The sort of "understanding of her ailments" wanted by a sick woman is a trained medical understanding. If a woman has this trained medical knowledge she understands woman's ailments not as a woman, but as a physician. If she is not a doctor she cannot understand the silments at all, and cannot treat them successfully, because she lacks

treat them successfully, because she lacks
the necessary training.

As far as known, there is no regularly
qualified woman physician connected with
any proprietary medicine especially designed for vomen—no one, therefore qualified by learning and esperience, to advise
on questions of disease and its cure.

It is certain that there is no one, man or
woman, connected with any "put up"
medicine for women, excepting only Dr.
Pierce's Pavorite Prescription, who, like
Dr. Pierce, it a regular graduated and qualified physician, and who has, like him, devoted more than thirty years to the special

woted more than thirty years to the special study and treatment of diseases of women. For more than thirty years Dr. R. V. Pierce, a regularly graduated doctor, has been chief consulting physician of the Invalida' Hotel and Surgical Institute, of Buffalo, N. V. On his staff are nearly a score of regularly graduated experienced. score of regularly graduated, experienced, skilled physicians, each of whom is a specialist in his chosen class of diseases. Every letter addressed to Dr. Pierce as above, has prompt, conscientious attention, is regarded as sacredly confidential and is answered in a plain envelope so, your private swered in a plain envelope so your private effairs are kept safe from prying eyes.

"Accompanying Mr. Honan to the Buffalo office are John Quigley, William O'Day and Asa Fox, operators, who have been in the local office for a number of years. They also took cave of many friends when they left the city. A chief operator will probably be appointed for the local office within a few days."

#### Lackawanna Economies.

"Some more changes are proposed on the Delaware, Lackawanna and Western railroad that do not meet with the favor of the employees and others that will be unpopular among residents on the Bloomfield branch,"

says the Newark Advertiser. "It is reported that the roundhouse is about to be abandoned and that the engines that have been stalled there at night are to be laid up in the round house at Hoboken. As a measure of economy this will necessitate the thre train crews sleeping in Hoboken and return to Montclair at 4:30 in the mornng. As most of the train hands live in Montclair and two of the conductors own homes there, the change will work considerable hardship.

"Another change said to be about to take effect is the alteration in gatemen's hours. These men now receive \$1.10 a day and work twelve hours there being day and night shifts at most important crossings. The plan is to increase the pay of the men to \$1.20 and have them work fourteen hours and have no night shift. This plan, if put in operation, will probably involve the road in trouble along the Morris and Esse division, as the munfcipalities fought for two flagmen at the crossings for years before they succeeded in having the law obeyed."

#### That Boston and Albany Lease.

The directors of the Boston and Alany railroad have voted to issue a circular to stockholders respecting the proposed lease to the New York Central railroad on an 8 per cent, guaranteed dividend basis.

Sixty per cent, of the tonnage and 62 per cent, of the revenue of the freight business comes from an interchange of traffic with the New York Central, The gross income of the road has fallen from \$10,169,175 in 1893 to \$9,241,568 in 1898, although more work was performed in 1898 than in 1893. Electric lines have cut into the profits. Nine directors favor the lease; the tenth, C. S. Sargent, is opposed. Two meetings are to be held on Sept. 27, the first, the regular annual meeting; the

#### Meeting of Miners.

second to act on the lease.

Delegates representing the various miners employed by the Delaware, Lackawanna and Western company will meet in Kneerum's hall, 130 North Main avenue, West Scranton, tomorrow evening to discuss the powder

Benjamin James will preside and no one but miners will be admitted to the meeting.

### This and That.

A plush factory is the latest addition to Hazleton's industries. It will be started by the Hazleton Plush, Velvet and Silk Manufacturing company. Edward Hughes has resigned his osition as mine foreman for the Green Ridge Coal company and will be suceeeded today by James Wilson, who has been employed by the Pennsylvania Coal company.

### CEMENT NATIONAL BANK

#### Hon. W. W. Watson Is One of the Incorporators.

The organization of the Cement National bank of Seigfried, Pa., with a capital of \$50,000 and headed by prominent men, means a material iccrease of the present business facilities of that section of the state. It is signiffcant of the seriousness of this movement that one of the incorporators is the able Scranton banker, W. W. Watson, who theroughly understands the routine work of a bank, and who commands a high degree of respect

among the conservative men of af-Mr. Watson is vice president of the Traders' National bank of Scranton, one of the most progressive in that city, while he has other important interests which call for a great deal of his time and study. There is no doubt as to the success of this new bank, for it has ample financial backing and is aided by gentlemen of the highest
