FEVER WELL CONTROLLED

No New Cases and No Deaths Is the Favorable Report.

THE MAN WHO STARTED IT

Has Been Traced and Located-Is Now in a Western Altitude Where He Can Do No More Harm-Surgeon General Wyman Gives His Ideas on the Subject-Precautions Which Have Been Taken Are Seemingly Invincible.

Newport News, Aug. 2.-The situation at the Soldiers' home, near Hampton, is practically unchanged. Gover nor Woodfin reported "no new cases no deaths." One of the quarantined suspects in Phoebus has developed the

Washington, Aug. 3.—The marine hospital officials at Hampton have sucreeded in tracing and locating William Thomas, the former inmate of the Soldlers' home, who is believed to have brought yellow fever to that place Thomas arrived at the home on transport from Santiago, where he had been visiting, between July 2 and 5 last He was admitted to the home as a veteran and shortly after developed chills and fever. In the light of subsequent events the experts believe there is little doubt that he was affected with a mild case of yellow fever, although at the time it was not so diagnosed. When well enough to travel Thomas left the home. His baggage was sent to Phoebus. He went to Columbus City, Wash. where he is at the present time. Surgeon General Wyman regards it as fortunate that he went to such a high latitude, as it greatly lessens any danger of infection.

Probable Duration of Epidemic.

Regarding the probable duration of the present epidemic of yellow fever at Hampton, Dr. Wyman said today: "It is too early yet to make predictions as to the suppression of the outbreak, only four days having clapsed since the discovery of the fever. The fact that Thomas, the original suspect, has gone north, takes considerable weight off our minds as he is now in a latiour minds, as he is now in a latitude were there is no chance of yellow fever doing any great damage. Our past experience in the south has shown, however, that yellow fever can form. e suppressed and confined to the original focus of infection when the precautions are taken early in the out-This was shown at Brunswick, Ga., in 1894. It was also true in the outbreaks at McHenry, Miss., and Franklin, La. In the two latter epidemics there were other outbreaks | ism. I mean our attitude in the Philip in Mississippi and Louisiana about the same time, but there is good reason to believe the infection was carried to the outlying points before the quarantine on the original focus was put in force. We believe that the quarantine precautions as now enorced in the south are effective. Where there has been apparently a spread through the official lines it has seen due to tardy information of the authreaks. This shows the necessity f prompt reports in all suspicious

It was finally decided this afternoon that the garrison at Fort Monroe should be taken away on the government transport McClelland, which will leave New York tonight and will arrive at the fort tomorrow. The Mc-Clelland will take the troops to Plum Island, Long Island sound, and not to Delaware bay, as previously decided

Tonight Dr. Wyman received the following telegram from Dr. Vickery, stationed at the soldiers' home: "Situation favorable and encourag-

ing. No new cases and no deaths. Inspection of Trains.

Philadelphia, Aug. 3.-Chief Good. of the bureau of health was today in conference with General Manager Hutchinson and General Passenger Agent Wood, of the Pennsylvania railroad, concerning the trains of that company arriving here from the yellow fever district at Hampton Roads. It was decided that a thorough inspection of all trains coming from the south will be made if necessary and in the event of a suspect being found he will at once be removed to the municipal hospital where tents will be erected to secure better isolation from other patients. Chief Good today received a communication from Health Officer Woodward of the district of Columbia, and Commissioner of Health Jones of Baltimore, in which they say no passengers or baggage are allowed to come from the infected district un- | share, \$10 above the par value. til the health officials are satisfied there is no danger.

PRACTICAL POLITICS AND DECENT POLITICS

Subject of Governor Roosevelt's Address Before Ten Thousand Hearers at the Ocean Grove Summer School

Ocean Grove, N. J., Aug. 3.-Governor Theodore Roosevelt, of New York, was the guest of honor at the Ocean Grove ummer school tonight, when he devered an address upon "Practical Politics and Decent Politics" before a arge audience. It is estimated that 10,000 people assembled in the auditorium to hear the orator.

Immediately after the exercises Gov Roosevelt drove over to Norwood, Vice-President Hobart's home where he spent the night. Governor Roosevelt spoke on "Prac

tical Politics and Decent Politics." He sald in part:

It is idle for the mass of good citizens o try to set themselves apart as not re-ponsible for our political shortcomings. In the end the politicians must be exact y what the people allow them to be. They must represent the people—perhaps the vice, perhaps the virtue, perhaps the the vice, perhaps the virtue, perhaps the indifference of the people. This does not in the least excuse politicians that are bad and we must keep in mind the fact that every politician, above all every successful politician, tends to debauch nublic conscience, to render bad men bolder and decent men who are not far blame for permitting his existence. Again thinking that we shall ever make polities better by hysteries in any shape or

we should have tolerated in a city like New York an administration against which it is necessary to war, not on grounds of political expediency, but on political expediency, but or grounds of elementary morality.

Just at the moment the nation is face o face with a duty that calls for herepines. We put our pick into the rotten foundations of Spanish government, both in the East and West Indies. We turnded the building down in as right war as was ever undertaken. Now i we are worth our place among the grea nations of the earth we must see to t that the ruins are cleared away and th temple of justice and honesty reared their place. We shall be guilty of a te rible wrong to humanity if in the Philip pines we retreat before armed savager; instead of organizing a suitable government which shall guarantee justice to every one and an ever increasing med ure of liberty to those who show themselves worthy of it. The whole history of the world shows that the wrong done by the mere sentimentalist is often of larger proportions and more clastic than any other kind of wrong and of this wrong we shall be guilty if we fail to do our task thoroughly and well. It will call for but the merest fraction of our trength, provided only we choose to exert that strength.

If, however, the people let their repre-sentatives in congress humper the admin-istration us they old last winter when they refused to put the army upon a proper footing as to size, permanence and organization, then the people have themselves to thank if the war lingers difficulties and dangers increased. the people have to do is to resolve to back up the president to the full in se ing that the outburst of savagery is repressed once for all, and (what is even more important) to see that these new tropic islands in the east and west alike not left to the prey of partisans pollsmen but are governed primarily in the interest of their inhabitants. uitimately for the honor and renown of America.
