### August Magazines UNLAWFUL PRACTICE MIDWIFERY SCORED

CORONER'S JURY RENDER A VERDICT TO THAT EFFECT.

Case of Mrs. William Hannon's Child Investigated and Mrs. Lina G. Geble Condemned for Unlawfully Granting a Burial Permit-Woman Has Been Practicing Six Years Without Being Registered-Other Practitioners Liable to Arrest and Prosecution for Similar Offenses.

The unlawful practice of midwifery in this city received a stinging blow from Coroner Roberts and his jury at an inquest in West Scranton last evening, when Mrs. Lena O. Geble was arraigned to answer the charge of criminal negligence in the death of a child of Mrs. William Hannon, of 110 Filmore avenue, and for granting a burial permit without authority for the child's interment.

On Thursday, July 27, Mrs. Han-non gave birth to a female child, which died thirteen hours after birth, and the burial was made by relatives without the necessary permit. sexton of the cemetery notified the coroner and the latter in turn informed the relatives that it was necessary for him to see the child before the required death certificate could be grant-

The body was exhumed and returned to the house, where the mother was confined and placed in the same bed with the mother, but owing to the decomposed state of the body it was necessary to remove it. The midwife was sent for and, having secured a certificate from an undertaker, filled it out as follows:

INTERMENT MADE.

The certificate having been presentd, the interment was again made, but before the rough box was covered with earth, Coroner Roberts visited the cemetery and removed the body from the grave and made an investigation. He discovered that the child was born in what is known in medicine terms as a breach presentation. The tissues were congested and the body was

Believing it to be his duty to further investigate the case, he empan-elled the following jury: Owen D. John, Dr. D. J. Jenkins, Dr. W. A Painc, Lewis Smith, Dr. L. H. Gibbs and J. H. Gray, and the case was heard in Alderman John's office last evening. The first witness called was James Reel, sexton of the Cathedral

His testimony was to the effect that the grandmother of the child first brought the body to the cemetery and not having the proper burial certificate, was refused permission to enter the remains. The woman buried the child without the permit, and when Mr. Reel learned of her action he notified the corner. The body was re-

Roberts ordered its disinterment and returned to the house. When the woman again presented herself at the sexten's house, she presented the certificate signed by Mrs. Geble. The board of health would not recognize the paper, and the coroner caused the body to be removed. Mr. Reel testified to having witnessed the examination made by Dr. Roberts and corroborated the doctor's statement regarding the condition of the child. Joseph Corini, who is employed as

grave digger at the cemetery was next called, and his testimony was substantially the same as given by Sexton Reel. MRS. GEBLE ON THE STAND.

Mrs. Gebie was then called. She estified that she was a graduate of the New York college of Midwifery, and had taken a six months course of study at that institution. When she came to Scranton six months ago with a certifiate from the college Mrs. Geble claims that Dr. Gates informed her that United States laws did not require her to have a certificate and she never applied for one in this county She said that she was first called to attend Mrs. Hannon on the Sunday night previous to the child's birth. The following Wednesday she was again called. In her testimony she admitted that the child was discolored and that she had considerable trouble in its Shortly after the birth of the child

Mrs. Geble said she returned to her home and during the night a member of the family called again and told her the mother was dying. When she went to the house the baby was dead. She further testified that she informed the relatives of the necessity of an inquest, but they were anxious to bury it and she filled out the burial certificate, which she procured from Undertaker Wymbs.

When questioned by Dr. Roberts Mrs. Geble admitted that during her experience she had attended between 200 and 300 cases and never used any instruments and never signed a death certificate but once before. She also

DIED FROM CONVULSIONS. Dr. Roberts testified from his examination that the child apparently died from convulsions, but there was also a remote case of death. In question ing Mrs. Geble regarding a case on Fourteenth street where the patient died of sepsis, the woman admitted having attended the patient, but said death occurred after she had performed her duties. Being further questioned she also admitted having attended similar cases on Sumner and Garfield

avenues where death resulted. Dr. Roberts also testified to having visited the board of health office and there discovered four death certificates of recent date signed by midwives none of which were refused, but since the certificate issued by Mrs. Geble had been refused others had been turned down. He was also of the opinion that this filegal practice has been going on at a wholesale rate in different sections of the city and that many interments have been made without burial certificates at all.

After due deliberation the jury turned the following verdict: "We, the undersigned, after hearing the evidence at the coroner's inquest in the case of Mary Hannon, aged 13 hours, believe that the cause of death was due to traumatic injury in and about the rectum and we further agree that the practice of midwifery by uneducated and unlicensed people be con-

demned.

It has frequently been said of him that he is negro minstrelsy opera what Patti, Melba and others equally gifted are to grand opera. He has a rich soprano roice and is unquestionably the best prima donna who has ever appeared on the minstrel stage. A well-known fashion writer recently

described one of Mr. Rice's elaborate gowns as follows: "Underskirt of erese-colored gros imperial silk, rimmed with several rows of thread lace, headed with a very full ruching of corn-colored silk, placed diagonally across the front. Tunic of corn-colored silk, Vandyked around the edge, points trimmed with black lace and a torsade of the two shades combined. ### CONFERENCE ABOUT THE CITY PARKS

HELD IN THE CITY CLERK'S OF-FICE YESTERDAY.

Present at It Were Members of the Board of Park Commissioners and of the Park Committees of Select and Common Council-There Was a Somewhat Spirited Interchange of Remarks Soon After the Meeting Opened - Statement About Privileges at Nay Aug Park.

There was a conference in the city clerk's office vesterday afternoon between the park commissioners and the nembers of the park committees of select and common council. The persons present were Hon, J. A. cranton and A. P. Bedford, president and secretary respectively of the park board; Hon. John E. Roche and C. F. Wagner of select council, and John Naegli, Charles Godshall and M. J. Cusick of the common council The opening of the conference was

decidedly lively. It was held in accordance with the terms of a resolution introduced in the select council some time ago by Mr. Roche. The resolution was as fol-

Resolved, By the select council of the city of Scranton, the common council concurring, that the park commissioners and the committee on parks be directed o confer with the manager of the Scran-on Coal company for the purpose of btaining permission to remove the coal belonging to the said company, the work being now in progress without securing such permission

Mr. Scranton did not like the tonof the resolution and he said so. Mr. Bedford did not like it and he inti-

The park commissioners, he said, had not proceeded without authority, They secured the permission of the Lackawanna Iron and Steel company, which at that time owned the coal under the park land. The commissioners, he said, had done everything that

could reasonably be expected of them. MR. SCRANTON'S OPINION. Mr. Scranton averred that it looked like an attempt to strike an unwarranted blow at the park commissioners, who have been struggling along doing their best to improve the park with little money and less encourage-

ment from councils. Mr. Roche then explained the pur-

pose of the resolution. The Scranton Coal company purchased the coal of the Lackawanna Iron and Steel company and when the transfer was made nothing was said about permission having been given the city to open a small mine in Nay Aug park so that visitors might get an idea of the way coal is mined. The Scranton Coal company has no official knowledge that the city ever had any right to open the mine and therefore the city is a trespasser, the Lackawanna Iron and Steel company not having protected the city in the privi-

lege extended to it before the transfer the coal property, To get the record in the case straight and prevent complications in future, if for no other reason, he thought a formal application ought to be made to the Scranton Coal company for permission to construct the mine opening. He did not think the resolution offensive, and he was of the opinion that any

be better for the people of Scranton if they were more thin-skinned about the actions of councils. The trouble with the city fathers, as he viewed them, is that they are too thick-skinned. This was said with some warmth and made impressive by vigorous punctuation. He also said something about persons who go out looking for trouble invatiably finding it. LOOKED SQUALLY.

Mr. Scranton replied that it would

Things looked somewhat squally at this stage of the conference, but the display of feeling ended there and harmony prevailed during the remainder luced by William H. West to return to of the meeting. It was decided to make a formal application to the Scranton Coal company for the necessary permission to make the opening and take out such coal as is necessary The proposition to secure the Round Woods for a park was next taken up and in this connection the following letter from Hon. W. W. Watson, who recently purchased the Round Woods and adjacent land, was read:

To the honorable the select and common council of the city of Scranton. Gentlemen-The West Side board of trade has expressed to me a great de-sire on the part of the West Side people that the city of Scranton purchase for park the property known as "The Roun Woods," situated west of South Main avenue and south of Round Woods lane, n the township of Lackawanna, containg about twenty-two acres, and have so expressed a desire that I address the city council and suggest that the ame may be purchased of me.
Agreeably to this request I will say hat I will sell this property, about twen

y-two acres, to the city of Scranton, for ark purposes only, for the sum of \$55. 00, provided this offer be accepted with ut unnecessary delay and provided fur-her that the city of Scranton will exend upon said property in improvements c., at least \$1,000 per annum.

The terms of payment may be at least one-fifth cash on delivery of deed and he balance with interest at five per cent. er annum, or bonds duly issued by the rate of five per cent, per annum, will be cented for the remaining four-fifths I may add that I am putting the Round woods in proper condition by taking out the briars, weeds, dead wood, dead trees, etc., and am willing to complete the work. I will also build a boulevard at coast eighty feet wide from South Main avenue, near the centre of the tract, to the Round woods, which will make a

PRICE TOO HIGH.

It was agreed that the price was too high and Mr. Scranton said he was opposed to buying parks that are inended to boom suburban tracis of land. He said he has been told that the trees in the Round Woods are nearly all dead, or are dying, and that in his opinion the location is not a good one. He would favor the Oram tract on North Main avenue, which would serve as a park for West and North Scranton.

Mr. Roche favored a park on the West mountain, where land can be obtained cheap and where nature has been generous in her gifts. The matter was passed without any decision having been reached.

Secretary Bedford then read a state ment of the expenditures at the parks during 1898. It showed that \$3,168.29 was expended on Nay Aug park, \$1. 197.30 on Connell park and \$394.20 on Woodlawn park. With reference to the privileges at

### THE BOYCOTT HAS BEEN DECLARED

WHAT THE STRIKERS NOW EX PECT TO DO.

Merchants Who Have Given Work to Members of Builders' Exchange Since Strike Began Are to Be Visited with Displeasure of the Workmen in a Way That It Is Thought Will Be Effective-Labels Containing Names of Boycotted Firms to Be Distributed.

The threatened boycott was declared to be in operation yesterday morning by the leaders of the building trades strike. All the details of the boycott have not yet been arranged but it was given out yesterday that eight firms had already been placed on the list, One of these was said to be of very great prominence in the central city The executive committee of the Building Trade's council would not give the

names out yesterday but said that they would do so today. The boycott is to be declared against all merchants who have given work to members of the Builder's Exchange rince the present strike began. All merchants who have been heard to express their opinions as being against the strikers are also to be boycotted and any others who directly or indi-

rectly have antagonized the men during the strike, Printed stick labels containing the names of the firms to be boycotted are to be stuck up in all parts of the city by the thousands. A circular letter is being printed and will be distribut-

ed among the various trades unions in the county asking for their support. WILL SEE IT THROUGH. The strikers say that they are aware that they have undertaken a laborous task but they say that they will see it through to the end. All persons who patrenize the boycotted merchants are to be noted and an effort will be made to induce the other stores selling them

goods to stop doing so under penalty of being themselves placed upon the proscribed list. The men are very enthusiastic over the boycott and are very confident that the influence which will be brought to bear upon the Builders' Exchange will be very great. They are not very fearsome that public opinion

may be directed against them, but do not appear to have given this phase of the question much thought. It was stated yesterday that a letter had been received at headquarters signed by a number of members of the Exchange and asking for a conference Several members of the latter body when seen by a Tribune man claimed

to know nothing whatever of this and were inclined to regard it as a concoction of the strikers. The carpenters' new committee did not report any new work as having been secured yesterday, but said that

work on all contracts secured was

progressing nicely. An important meeting of the Central Labor Union will be held next Sunday afternoon at 2 o'clock in Carpenters' hall. The purpose of the meeting is ostensibly to discuss arrangements for the Labor Day parade, but it is generally known that the boycot question will come in for an extended share of the proceedings. The boy-MUST BE GENERAL.

of course, be entered into not only by the unions connected with the Building Trades' council but by all organized labor in the city and county. The general feeling is in favor of the boycott but a number are of the opinion that an opposition to it may crop out at this meeting. President Martin D. Flaherty, of the

Central Labor Union, has sent out an extended circular to all the unions connected with that body inviting them to send delegates to the meeting on Sunday. He calls attention to the fact that there are over 12,000 trade unionists in the county at the present time and he advises a great turn out on Labor Day, as there will be a large crowd in the city on that day attending the letter carriers' convention. The labor parade, he says, could be held in the morning, as is the custom, leaving the afternoon free for the letter carriers' procession.
