YAQUI WAR SPREADING

Two Thousand Americans Are in Peril in Mexico.

THE SITUATION IS GRAVE

Indians Preparing for a Desperate Conflict-Estimated That It Will Require a Force of 40,000 Mexicans to Suppress Them-River Vessels Burned .- Passengers and Crews Captured.

Chicago, Aug. 4 .- A dispatch to the Tribune from the City of Mexico says Dispatches form Guaymas show that the Yaqui insurrection is growing and that all the Indians in the towns along the river are rising in arms and taking to the woods and mountains to join their companions already arrayed against the authorities.

Jack Rumsey, the famous frontier character, and the American photographer, Ed. Miller, were on the way to Alamos when they were attacked by the Indians and killed.

"Three sloops on the Yaqui river near Medaro were also attacked and Aurillo F. Paredes, who was in charge of them, was killed. The vessels were set on fire, but were saved by federal forces who drove the savages away.

"It is reported that the Romero famfly was captured as they were about to embark on one of the sloops. Troops are pursuing the bands supposed to have the family. The telegraph line south from Alamos has been cut. The and do not seem inclined to join the insurrection.

"Colonel Angel Garcia Pena telegraphed yesterday that Don Carlos Hale, the well known merchant, had not been killed, as reported. Official sovices up to Monday, however, say that after General Torres' forces took Bacum they found the body of Hale among the dead."

Los Angeles, Cal., Aug. 4.—Marshall P. Wright, son of the late Judge Wright, of Kansas City, has arrived in this city from Mexico.

Speaking of the Yaquis, Mr. Wright says there is no doubt that from 2,000 to 3,000 men are now under arms and engaged in a bloody conflict. The entire country is in a state of terror and people are fleeing to the larger settlements. Mr. Wright says the outbreak came as a surprise to General Torros who, after a two years' campaign, subdued the Yaquis in May, 1897.

Miners in Danger.

Austin, Tex., Aug. 4.-A despatch re-Grandes, state of Chihuahua, Mexico, per Yaqui river country. They were driven out by marauding bands of Yaqui Indians. Thomas Harvell, one of the members of the party, said that there are probably 2,000 American miners and prospectors scattered through completed. the Yaqui country, and that their lives are in imminent danger, as the Indians are getting bolder and more desperate each day.

Harvell said that when news of the bloody outbreak among the Yaquis in the lower valley reaches the Indians in the placer mining region on the upper part of the stream, they will massacre every white man along the river. He estimates that there are 5,000 Yaqui braves, and that it will take a force of fully 40,000 Mexican troops to conquer them. During the two years have been quietly investing their earnings in arms and ammunition, and they are now better equipped than ever for a long and bloody campaign.

A gold hunter named Arnold, who taid that he was but recently from the scene of the Indian uprising in Mexico, reports that fust before he left that section it was reported that the Yaqui Indians had entrapped a force of several hundred of the Mexican serious, soldiers in a defile in the mountains and inaugurated an old-time warfare in throwing down rocks on them, with the result that many of them were New York City Will Entertain All killed. He says that the war is being conducted on a guerrilla plan, and that the Indians have sufficient force to maintain it for months to come.

WORLD'S GOLD PRODUCTION.

Director of the Mint Completes an

Estimate for 1898. Washington, Aug. 4.-The director of the mint has completed his estimate for the world's gold production for the year 1898. The data at hand seems to received and accepted. warrant the conclusion that the pro duction will amount to at least \$294. 000,000 and possibly \$259,000,000. Africa leads all other countries with \$80,300, 000, with Australia second with \$67.500, 600 and the United States third with \$64,463,000. Russia is credited with \$25,-000,000. Mexico with \$10,000,000 and Canade, including the Klondike, with \$14,-

\$00,000. In 1897 Africa produced \$58,366,000, \$57,363,000, and Australia third with \$55.684,000, Russia fourth with \$23,245,-000. Mexico fifth with \$9,436,000, and Canada, including the Klondike, with \$600,000. The total was \$237,505,000. In 1896, and for nearly fifty years previously, the United States occupied the first place in the world's production of In that year the output of the world was estimated at \$202,682,000.

The latter was immediately shot by a ing. Phelps killed a policeman and Bailey non-commissioned officer of the same took the life of a companion in a quarrel

PLENARY COUNCIL.

Much Interest in Its Progress Is Manifested.

Washington, Aug. 4 .- In influential atholic quarters here there is much interest in the progress of the plenary council of the clergy from South and Central America which has been in progress for some time and is about to close. These prelates have a blearchy entirely distinct from that of the United States. It is an influential body in many respects, as the church is closely related to the government in many of the South and Central American republics.

The meeting at Rome brought together all the high church dignitaries from these countries. The sessions have been secret, but the understanding here is that the final report is about to be made and that the results will then reach the public. It is said that a misapprehension exists as to the authority which Spain exercises over Catholic affairs in the Spanish-American countries. This authority was terminated many years ago and today the South and Central Amerian clergy have their own hierarchy distinct and independent in each republic and without any bonds whatver to Spain. It is not impossible that the council will consider the status of the church in Cuba and Porto Rico, as this is in rather an anomalous condition since the Spanish authority has been terminated and the church affairs in these islands have been brought under the direction of the hierarchhy in the United States.

SMALL POX IN PITTSBURG

The Situation Has Become So Serious as to Require Decisive Measures in Order to Stamp Out the Disease

Pittsburg, Pa., Aug. 4.—The seriousess of the situation about Pittsburg egarding the outbreak of smallpox has now reached a point when the most decsive measures will be resorted to in order to stamp out the disease Dr. Benjamin F. Lee, of Philadelphia. secretary of the board of health, and Indians along the Mayo river are quiet | Dr. William W. Welch, superintendent of the municipal at Philadelphia, have arrived in Pittsburg to confer with the health authorities here regarding the best methods to fight the plague, declare that there is danger of an epidemic unless the people in the stricken districts show a great er disposition to assist the authori-ties to check the small-pox.

Doctors Lee and Welch spent several hours today in conference at the Hotel Duquesne with Superintendent Crosby Gray, of the bureau of health; Dr. Stanley S. Rinehart and Dr. R. L. Tay-lor, city physician of Pittsburg.

The situation was thoroughly discussed and suggestions were offered by the state physicians on various ways of meeting the crisis. . In the afternoon a tour was made through East Pittsburg, Wilmerding and other is where cases of the disease exist Tomorrow the committee will go to Bower Hill, where there are several

HAS NO FAITH IN CHICAGO

Very Cool Reception at the Hands of Wilfred Laurier.

AN INVITATION DECLINED

The Governor General of Canada Will Be Advised Against Trusting Himself in Chicago Until the Alaskan Boundary Question Has Been Settied-In Case of a Large Crowd Unpleasantness Is Anticipated-Mr. Fitzpatrick's Mission Borders Upon Failure-A Reconsideration Crumb

Washington, Aug. 4.—Mr. F. W. Fitz-patrick, of the treasury department, has just returned to Washington from Ottawa, where he went at the instance if the committee of citizens of Chicago in charge of the ceremonies of laying the corner-stone of that city's great postoffice building, next October, by President McKinley, to arrange for the formal invitation and expected acceptance of an invitation from Chicago's citizens to the governor general and cabinet of Canada to participate in those festivities. Mr. Fitzpatrick is the assistant United States architect under Architect Henry Ives Cobb for the Chi-

ago buildings. To an Associated Press representative he admitted that his official recep-tion was slightly chilly, Sir Wilfred Laurier very evidently telling him that under the present conditions it would be impossible for him to accept, or even o consider, any social invitations to this side of the border. Mr. Fitzpatrick says that in substance Sir Wilfred's voluntary statements and an-

wers to queries were as follows: "As a friend, in whom I am deeply nterested, I am very glad to see you, out, frankly, as a representative of the federal or any local government in the United States your visit could not have been more untimely. When I received our first letter I took up the matter with his excellency, the governor gen eral, and he expressed a sincere desire to visit Chicago and seemed as anxious to accept the invitation as I was. We would have been delighted to go, and were looking forward to the day with much anticipation. But since then the in dealing with the Alaskan boundary question, such misrepresentations have been made about our government, and particularly me, that it would be undignified for us to visit you, and I cannot advise his excellency to go,'

Would Not Be Safe.

Mr. Fitzpatrick said that Sir Wilfred ntimated that in the present state of public feeling in the United States as ndicated in the press, it would not be entirely safe for the governor general and himself to visit Chicago, as he feared that they might, in a great gathering of such a characer as the Chiago ceremony, be subjected to some unpleasantness or indignity by thoughtless persons. Sir Wilfred exicessed himself as strongly in favor of arbitrating the Alaskan boundary dispute, and concluded the interview as follows: "No, much as I regret it, I could not

go to Chicago under present conditions and shall certainly, however painful a duty it may be, also advise 2s excelency to decline the invitation that I know and feel has so kindly been extended to us by the city of Chicago." promise, however, to reconsider the

Railroad Telegraphers Are in Favor of a Tie-Up.

New Haven, Conn., Aug. 4.-A local official of the Railroad Telegraphers' union said today that those members of the union who are employed by the New York, New Haven and Hartford Railroad company are in favor of a strike in case the officials of the railroad company do not consent to hear the complaints of the operators. About on operators have been polled by mall and replies have been received from 521 of this number. All but nine are sald to favor a strike,

From other sources it is learned that the officials of the railroad company, while willing to listen to grievances from their employes direct, will refuse to be approached by outsiders or agents or representatives of the union.

AMERICA'S FINANCIAL POWER RECOGNIZED

A Revolution in Finances-Vast Demand for Pig Iron and Wool Can Be Met Only by This Country.

trade will say: July failures have been smaller than in any month of which there is record excepting May, and trading failures smaller than in any other month.

New York, Aug. 4.-R. G. Dun &

London again recognizes the financlal power of this country. The Bank of England virtually admits that it cannot draw from New York the gold it needs; exchange moves to the importing point; over \$1,000,000 starts from Sydney to San Francisco; London's net buying of stock has been 40,000 shares, and bills against produce to be shipped are very heavy.

This describes a revolution in finanes not unlike that in industries, Europe searching for wool here at 50 cents scoured and for pig iron at \$20 per ton. A vast demand for both materials has fallen upon the commercial world, which this country alone appears able to meet for its own needs. Wool shipments from Australia have been surprisingly little below those of last year, but Europe talks of a wool famine while this country has on hand a year's consumption or more besides this year's clip and prices are not yet Mr. Fitzpatrick secured Sir Wilfred's as high as they were in February of last year when stocks were many mil-

lion pounds larger. Scarcity of Bessemer pig has caused two steel works at Pittsburg to stop a day or two, and \$21.25 to \$21.75 has been paid for 30,000 tons, with \$17.75 for local coke in Chicago. It is no longer a question whether enough can be had after awhile; the trouble is about early supplies. Orders for plates and structural work are refused at most points, mills having work far ahead, and for sheets also at Philadelphia, though new and large mills make things easier in plates at Pittsburg. Bar iron is in great demand instead of steel, being \$3 to \$4 cheaper, and new eastern mills get all the business they want. The magnitude of the demand in spite of high prices is everywhere

a surprise. Wheat weakened, including one cent with the astonishing receipts at the west of 4,734,363 bushels for the week against 3,199,543 last year, and 23,598,189 bushels since June against 10,509,876 last year. Atlantic exports for the week, 3,765,787 bushels, flour included, against 3,026,731 last year, and 12,121,370 since June against 10,354,951 last year, continue to support hopes of great foreign demand, with Pacific exports for the week 355,620 bushels against 614,-316 last year. Not less potent in that regard is the shipment of 4,003,497 bushels of corn for the week against 1,734,347 last year, and 15,688,618 bushels since June against 8,502,310 last year. Failures for the week have been 182

Chief of Bureau of Health on the Lookout for Veterans who Came from Hampton on a Furlough. General McMahon Sends Requisition for More Bedding-Officers Satisfied with the Situation.

Philadelphia, Aug. 4.-Colonel Lewis Good, chief of the bureau of health, made vigorous efforts today to ascertain the whereabouts of the ten inmates of the National Soldiers' home at Hampton, Va., who came here on furlough about the time yellow fever was discovered at that institution. In reply to a telegram sent by Colonel Good, Surgeon General Wyman of the marine hospital service said he was unable to furnish the addresses of the old soldiers. A message was sent to Governor Woodfin, of the home, asking the addresses, but no answer has as yet been received.

The health authorities here state that inasmuch as the period of the disease's incubation has passed, they anticipate no danger from the presence of the men in this city.

ASTOR IN EFFIGY.

Dr. Seldon Crowe, an Elderly Physician, Leads the Circus-Disappears at the Announcement of Police.

New York, Aug. 4.-Surrounded by a crowd of several hundred persons William Waldorf Astor was burned in effigy tonight in Longacre square, Dr. Seldon Crowe, an elderly physician, being the prime mover in the affair. Dr. grey forge and a rise of fifty cents in | Crowe has been much interested in the reports of Mr. Astor's declaration of allegiance to Queen Victoria, and the more he read the more indignant he For some days past he has talked of little else. Early tonight he went through the "Tenderloin" and invited about thirty men to call at his residence. He promised each man a two dollar bill and assured them that little work would be required. He had little trouble in getting recruits. He then bargained with Anthony Kemmerer, a truckman, to call with a truck When the crowd assembled and the truck arrived, Dr. Crowe brought out an effigy of Mr. Astor. It was almost perfect in appearance. The figure was tied in a rocking chair. It was hoisted into the wagon. An oil saturated barrel was put in with it and several quarts of kerosene. High on a pole in the wagon was a sign, 4x6 feet in size bearing the inscription in great black letters: "Astor, the traitor."

A unique parade through the hotel and theatre district of the city followed. When the crowds which followed the wagon reached Longacre square the effigy was placed on top of a barrel, kerosene in liberal quantities was applied and the doctor applied the match. The pile blazed flercely. The spectators cheered and loudly called on Crowe for a speech. Dr. Crowe bitterly attacked Mr. Astor, but his speech was interrupted by a report that the police were coming, and the speaker
