BOYCOTT IS NOW ON.

Labels Bearing Names of Blacklisted Firms Were Posted Up in All Parts of City Saturday.

There is no more mystery attached to the names of the merchants boycotted by the strikers, for since Saturday the entire city has been pretty thoroughly decorated with stick labels bearing their names, so that "the who runs may read." These labels arrived at strike headquarters on Saturday afternoon and were at once distributed.

The labels are about three inches long and two wide. A list of the eight merchants boycotted follows with in skull and cross bones decoration placed among them.

Secretary Lauding, of the Builders' Exchange, has issued the following statement for publication showing his views of the existing difficulty:

For the benefit of the public and those who are otherwise kept in the dark as to the actual situation of the "so-called strike," we give out for publication the number of men that applied for work from July 1 to August 5, which were turned down by the contractors, owing to the fact that they had a sufficient number of men to execute the work they have to do.

HAD TROUBLES OF HIS OWN.

Sergeant Reese Jones Had a Pleasant Time Last Night.

Sergeant Reese Jones had his hands full and more than full early this morning at the Centre street station house.

Early in the evening several prisoners of the usual quiet, inoffensive "helplessly drunk" order were received, but the real trouble did not begin until about midnight, when Charley White, a gentleman of color and of good appearance, was brought in and promptly placed down in the basement, where one cell is provided for the incorrigibles.

About 12:30 o'clock Charlie Teal, who keeps a resort on Centre street, and three women, were brought in. Charley No. 2 was considerably more vociferous than Charley No. 1, so their places were exchanged and the colored gentleman escorted to the ground floor again.

Realizing that the down stairs cell was full he proceeded to indulge in a series of chromatic scales ending in high C. Charley in the basement would respond in a minor key and the rate that this was kept up at till the "two small hours" would put a Comanches Indian out of the war whoop business in about ten minutes. Reese is considering the advisability of applying to council for an appropriation for sound proof cells.

BETTER SLEEP HEREAFTER.

Organ Grinders and Street Piano Men to Quit Nightly at 10 O'clock.

Mayor Mohr has decided that organ grinders and other street musicians will have to conclude their day's entertaining at 10 o'clock p. m.

This action of his honor was prompted by the immense complaints of central city residents whose slumbers were disturbed.

Saturday night Chief of Police Robinson, and the patrolmen of the central city beats, gave their attention to the organ men, and cleared the avenues of them.

THE EMOTIONAL CHRISTIAN SCORED

REV. G. P. ECKMAN OF NEW YORK AT ELM PARK CHURCH.

Delivered a Sermon on "Romance and Religion"—Showed the Growing Tendency Among Professing Christians Towards a Chimerical and Illusionary Religion—Expressed the Necessity for Ceaseless Activity and Energy and Urged a Consecration to Duty.

The Rev. George P. Eckman, pastor of St. Paul's Methodist Episcopal church, Eighty-sixth street and West End avenue, New York city, preached at both the morning and evening services in the Elm Park church yesterday.

The theme of his sermon in the evening was "Romance and Religion" and he took for his text, Hosea, xlii: "Ephraim feedeth on the winds and followeth after the last wind." The speaker said in part:

"There are a great many imitators of Ephraim in modern times. In the Scriptures the word wind is used as the symbol of vanity. There are thousands of persons in the world today calling themselves Christians, who are trying to satisfy their souls with insufficient 'religiosity' instead of with the true God offered every Christian."

"This class of people are foundering in the bog of despair. They deal with chimeras and unrealities. These romancers are altogether too prevalent. They try to elevate the common every-day prosaic life of this earth to another world of fancies and illusions where rosy hues forever meet the eyes. They would raise the religion of this world of reality into a kingdom above the heads of men and make it at once spectacular and dramatic."

THEY GORGE THEMSELVES.

"Such as these have an immense capacity for sermons. They gorge themselves with gospel songs and saturate themselves with emotional religion. They are to be seen in their element at camp meetings and at the seaside assemblies. At the latter place they may be seen not only bathing in the Atlantic ocean but also bathing in seas of religious dissipation."

"I would not for a moment underestimate the value of the private life of a Christian man or woman. God forbid that I should use any word condemnatory of a true, inward life with Christ. But the point I would emphasize is that we must not only be good, but as Thoreau says, 'but good for something,' ay, there's the rub. The great business of Christ was to

make himself beneficial to other people. The pity that eats itself into public expression is a perilous piety.

If we look about us we will see that God pursues a ceaseless activity. In all nature there is always a constant, tireless, tolling progression. I might not to say more of the rhapsodists and romancers for fear that some might think they have no place whatever in the scheme of human redemption. God intends us to lead lives not flat, stale or insipid, but lives transfigured for His sake.

Religion, if we consult the etymology of the word, implies obligation and duty. Duty is one of the grandest words in the language. It transforms the field of opportunity. Duty taken the lowest and most cowardly of men and transforms him into a living hero. Duty can make more than an angel out of man, it can make him a divine thing.

THINK NOT OF THE DRUDGERY.

How many there are in this world who envy the positions and wealth of others, thinking that fortune and caprice were responsible for the place held by them. They never think of the hum-drum drudgery that secured the places and power they envy.

We are now in an age of electricity. People are fascinated with the wonders produced by such wizards as Edison, Tesla and Marconi. These things are wonderful, they are awe-inspiring, but that is only the glory and glamour of it all. Back of all this are long hours of unremitting toil and research in laboratories, toil that has perhaps sapped their very vitality. Let men take upon themselves cheerfully and willingly the drudgery of life, let them work for great things, let them consecrate themselves to duty and they will be doing that which God intended they should do and for which he promised eternal happiness.

Rev. Dr. Cozzetta, of Morristown, N. J., will preach at both services next Sunday.

SERMON OF REV. H. A. GRANT.

Delivered at the Bush Meeting in Fell's Grove, Waverly.

Rev. H. A. Grant, B. D., of the Howard place African Methodist Episcopal church preached to a large congregation yesterday at the bush meeting in Fell's Grove, Waverly, Pa., choosing as a subject, "Is the World Growing Better?" Text, Isaiah 42: 16: "And I will bring the blind by a way that they knew not, etc." In part he said:

"Is the moral growing better? Yes. Not as we choose to have it, perhaps. But, yes, in some ways we have not devised. It is to be observed, however, that, as Horace Mann said, 'God Almighty is not in a hurry while we are.' That the world is a better place to live in, nobody doubts. No man in his senses would be lifted back into the world of 1793, or that of 1800, or that of 1805, or that of 90 Anno Domini. Is the world growing better? All sane men say yes, while the pessimists say no. Yet those who have been guided by the light of Revelation

are by no means to be found on the same side of the question. But the main portion of them—those who follow the injunction of our Lord, to go into all the world to proclaim the good tidings of His gospel—are hopeful and looking for appropriate results. The moral world, no less than the physical world, moves; and do you inquire which way it moves? Whether up or down?

An individual may be unfortunate enough to be doubtful on which grade he is, himself, traveling; but when he looks at the race as a whole and still doubts, he has lost, or never had any rational conceptions of the purpose of human existence. We were made, every faculty in us, physical, intellectual, moral, to grow. Does any one suppose that it was to see to what heights we could attain, or what depths we could reach? For one, I do not belong to the order of pessimists, nor do I believe that we are from the start, bent on going down hill. We are, in my opinion, born with quite as much of good as of evil in us, and in a fair light the good is bound to win.

There may be rotten spots on the earth, as there are sometimes on the fairest fruit; and there may be periods when crime is more prevalent and flagrant than at others; but this question is not to be settled by localities which are always better or worse? The question is not how fast but which way is it drifting? Let him who doubts take an observation; let him, opening his eyes and quickening his ears, look about him and listen.

SECRETARY MURRAY RESIGNS.

Would Not Submit to Dictation from Members of Health Board.

Attorney R. J. Murray has handed his resignation as secretary of the board of health to President George S. Horn of that body. A meeting will be held next Friday evening to act upon the resignation.

Mr. Murray's resignation is the outcome of trouble over the assistant he employed in the office. She was dismissed by Mr. Murray last week and members of the board insist upon her reinstatement. Rather than submit to dictation as to the manner in which he should conduct the affairs of his office, Mr. Murray resigned.
