Document Sent to Foreign Consuls in Manila-They Are Requested to Forward It to Their Governments. Some Old Arguments Advanced. The Pony Episode-Failure to Secure Horses in China Explained.

Manila, Aug. 8 .- Aguinaldo has appealed to the powers for recognition of "Fillpino independence." His appeal, dated Tariac, July 27, and signed by Buencamino, has been received by all the foreign consuls in Manila, with the request that they forward it to their respective governments.

The Filipinos use their old argument that they had wrested the sovereignty of the islands from Spain before the signing of the treaty of Paris, and, therefore, Spain was in no position to cede them to the United States. They argue that the possession of 7,000 Spanish prisoners captured with their arms, fighting against the Fillpinos, "is cloquent proof of the nullity of Spanish sovereignty, as when the Spanish soldlers surrendered, Spain's hold was irrevocably lost.

The document then says:

"Realying to the Spanish commission's request to release the prisoners because Spain no longer has political interests in the islands, we asked for a treaty of peace and friendship be-tween Spain and the Filipinos, whereby the prisoners would be released.

"But the commissioners refused, because it would mean recognition of our independence. That is equivalent to saying that the prisoners must stay in our hands indefinitely, because their possession is our most efficacious method to adjust our account with Spain and obtain from her recognition of our independence."

The Filipinos say that they had conquered all the country except Manila, cealed, requiring ten days' good weather, leave with Montanas and and that they co-operated in obtaining the capitulation of that city by surrounding it at the cost of thousands of lives. They also say that they concoming and returning, expedite busiquered the country unassisted, except ness here, where facilities for load

Marie, which vessel picked them up at the confluence of the Porcupine and Yukon rivers. The unfortunate prospectors left Dawson because of a report of a miner who came in from the head-waters of the Porcupine and told of

Over Fifty Boats Crossed the Line at New London and Nearly All Finished the Race - The Vigilant Beaten by Columbia and Defender by an Hour-Square Test of Merits of Old and New Boats.

Greenport, L. L. Aug. 8 .- The first run of the New York Yacht club today from New London out into the sound as far as Watch Hill and back to Gardiners bay, a distance of 30 miles, was one of the most successful in the club's history. The club watched with ride the magnificent run of the new meen of the fleet, Columbia, which fairly distances every other yacht with the exception of Defender, and she too, was defeated by four minutes and one second in a 30-mile race. The old cup defender Vigilant was beaten by the two flyers nearly an hour. The Amorita was first in the schooner class.

Over fifty yachts crossed the line at New London and nearly all finished in Gardiners bay, although some of them did not get in until toward night.

By far the greatest event of the day the United States, ambassador to Great Britain, was interviewed to by by a representative of the Associated was the magnificent seven miles run of Columbia from Fishers' island to Press in regard to the recent "war or Great Cull island, during which she arbitration" speech delivered by Sir averaged close to a 13-knot gait. Rennes, Aug. 8 .- The condition of Dreyfus is disquieting. His wonderful will power alone is lending him strength to go through the present ordeal, Physically he is extremely weak. His stomach refuses all solid food and he is only able to take milk. His family is very anxious.

The correspondent of the Associated Press learns that the court-martial was able this morning to consider only part of the secret dosaler. The documents were submitted to the judges in the order in which they were classified. General Chanoine gave lucid explanations of the points which were not clear to Colonel Jouaust. General Chanoine took the documents individually and explained them. Major Carriere will later on state the conclusion he draws from the dossier. Maitres Labori and Damange, who listened with close attention to General Chanoine's explanation, did not enter into the discussion on the subject, today's consideration of the dossier being of general character frid Laurier's position and he was in-clined to attach small importance to ary examination.

#### At the Trial.

The Dreyfus court-martial sat behind losed doors today in accordance with the decision arrived at yesterday, that the famous dossler should, for reasons of state, be examined in secret. The about 7 a. m. until 11.45 a. m., when the court adjourned to meet tomorrow morning The police arrangements and the precautions in connection with the transfer of the accused officer from his cell in the Manutention jail to the court room in the Lycee were similar to those of yesterday. The prisoner was conducted to the Lycee at 6.15 o'clock, but as soon as he was inside that building the police cordons around it were withdrawn and the people were permitted to circulate freely in the streets. No demonstration was made on the arrival of M. Labort and Maitre Deminge, counsel for Dreyfus, or on the appearance of General Chanoine, formeriy minister of war, who attends the court to give necessary explanations as to the secret dossier, or when the members of the court-martial appeared.

for sixty guns that Admiral Dewe gave Aguinaldo, and that Admiral Dewey and the British and Belgian consuls recognized the Filipinos' sovereignty by asking for passes to visit country. They repeat the claim that they have letters from American consuls and generals recognizing their overeignty and promising that the Americans would recognize their independence, "which was at the disposition of the powers."

The Filipinos attempt to make capital out of the statement that Admiral Dewey was so confident that Aguinaldo would observe and fulfill the rules of war that he gave him a hundred Spanish prisoners which the American navy had captured.

Finally, the Filipinos appeal to the powers to influence Washington to bring to a termination "the unjust war which is devastating the country.

The authorities at Madrid have ordered the Spanish commissioners not to return to Tarlac, and it is reported two special commissioners, Senores Capriles and Cuerbo, are on their way ere from Spain to conduct the negotiations.

#### Sending for Horses.

Washington, Aug. 8 .- Some time ago General Otis made requisition on the war department for 2,000 horses to mount the cavalry in the Philippines. He stated in the despatch that horses for the islands were not satisfactory and that contracts for them in China, had failed, the words "contraband of war" being added.

The matter was then referred to the state department for investigation and Minister Conger on June 5 wrote a letter to Secretary Hay enclosing the Glen Lyon Miners Sympathize with correspondence that had passed between the Chinese foreign office and himself relative to the refusal of China. to allow the ponles to be exported.

It appears from this correspondence that E. S. Dalton had contracted at Then Tsin for reventy-five pointes and twenty-live mules, but was refused an export pass. Minister Conger upon investigation found that the refusal is based upon a law of China prohibiting the export of horses and ponies. Rusgin has been recused, as well as other countries, and the Chinese foreign office said they could not make an except tion in favor of the United States. No suggestion is made that the ponies are contraband of war and General

Otis must have been misinformed when he sent his despatch to the war departmont. The course which the foreign consuls at Manila will pursue in connection with Aguinaido's communication is a matter of some conjecture among

efficials here. At the state department there is no disposition to limit the consuls in forwarding the appeal to their respective governments. As a rale, it is quite unusual for consuls holding exequators from a friendly gov-"finnent and having official relation with it to carry on communication with an insurrectionary leader. But it is appreciated that in this case the consuls are innocent vicitims of Aguinaldo's letter writing. Our military authority is supreme in the Philippines and any question arising as t the course of the consuls would probghip be referred to General Otis, but there is no intimation here that he has Leen advised of the address or that he will have any objections to its transmission by the consuls. It is rather expected, however, that the consuls
