The Statement by Mr. Chamberlain in Parliament.

EMPHATIC OPINION

British Predominance in South Africa Menaced-Grievances of the Outlanders Not in Themselves a Cause for War-But the Action of the Tranvaal in Ignoring Requests of Great Britain Is Serious and Cannot Be Tolerated.

London, Aug. 9.-Replying to various questions in the house of commons today, Joseph Chamberlain, the secretary of state for the colonies, said no official confirmation had been received of the report that the Transvaul had declined to agree to a joint inquiry into the effect which the franchise reforms would have on the Outlanders. Several regiments, he added, were about to be despatched to South Africa for the defense of Natal, in response to the request of the Natal government. and preparation was being made for all contingencies.

Later, replying to T. P. O'Connor, Irish Nationalist, member for the Scotland division of Liverpool, Mr. Chamberlain deprecated a resumption of the debate on the Transvaal situation, which, he pointed out, while serfous, still remains doubtful.

The colonial secretary added that he hoped sincerely that the report saying the proposal for an inquiry had been rejected was untrue. While he regretted the necessity of answering Mr. O'Connor it would be a fatal mistake to allow the latter's views, that a war was entirely needless and that the government ought to express willingness to wait may be twenty-five years for a redressal of the grievances of which they complained, to be considered.

The representative opinions of even the small minority in the house of commons or anything but the most insignificant minority in the United Kingdom on the government's policy have been clearly expressed," Mr. Chamberlyin continued "We recognize the grievance of the Outlanders, and have said that these grievances are not merely themselves a serious semer plg makers have been itching cause for interposition, but are a source | for the past month to advance the of danger to the whole of South Africa. | price to \$21 in the valleys and buyers by the action of the Transvanl in refusing to redress the grievances or give consideration to requests hitherto furnaces never was so large in the put in the most moderate language of a suzerain nower. We say that this state of things cannot be tolerated. We have put our hands to the plough and won't draw back. With that statement I propose to rest content."

TROUBLES IN FRENCH GUIANA.

British Subjects Fired on by the Po lice-One Killed.

Kingston, Jai., Aug. 9.-Advices from Cayenne say that the latent anti-English feeling in that city, and, in deed, throughout French Guiana, has of late assumed a more than usually serious aspect; and only the forbearonce of the English residents averts frequent collisions, provoked by the open hostility of the French. During the national fete day festivities last month a series of anti-English disturbances occurred, which resulted in the death of a British subject.

That particular trouble began in a dispute between an English subject and a French sergeaut-major at one of the principal hotels. The Englishman wanted a door open because of the heat, while the Frenchman perdisted in closing it. The Englishman temporarily settled the affair by throwing the Frenchman through the door, own a long flight of stairs. On the Sunday night following the sergeantmajor, accompanied by many comrades, met the Englishman and some of the latter's friends, who were looking on at a performance in a dancing saloon on the Rue Liberte. A fight followed in which the Frenchmen got appeared on the scene and opened fire. with Brady and Jeffries. killing one Englishman and wounding another.

The British in Cayenne have no adequate protection, since their consul is a strongly prejudiced native. It is taid the English residents will make an effort to have the case diplomatitally investigated, hoping thus to get better protection in the future, and tise to obtain compensation for the relatives of the man who was killed.

There is much activity at present in leveloping the gold fields in the interior of French Guiana. A quantity of mining plant and building matedat has been recently imported and ient forward under the direction of two or three mining experts. Steps are ilso being taken to encourage colonizadon in the interior, and a syndicate for the construction of a railroad is talked

Nothing is known there of the progress of the Franco-Brazillan bounfary negotiations; but the movement toward opening up the mining region which lies partly in the disputed territory is taken to indicate that a basis of agreement has been reached between the commissioners.

NOTIFICATION OF THE CANDIDATES

DEMOCRACY OF PENNSYLVANIA PREPARED FOR BUSINESS.

Formal Speeches of Acceptance Made by the Candidates-The Standard-Bearers Are Hopeful of Success in November-The Visitors Given a Trolley Ride to the Log Boom.

Williamsport, Pa., Aug. 9.-The isues on which the Democracy of Pennsylvania will make its campaign for the state offices to be filled next Nocember were outlined today by Representative William T. Creasy, of Colum-bia county, in accepting the nomination for state treasurer. Formal speeches of acceptance were also made by Judge S. Leslie Mestrezat, of Uniontown, and Charles J. Reilly, of Willlamsport, the nominee for Supreme court judge and judge of the Superior court. The opening speech of the campaign will be made by Mr. Creasy at meeting of the Northampton county Democracy next Saturday at Bath.

The headquarters of the state Demo ratic committee will be removed from Harrisburg to Philadelphia, This change was agreed upon at a meeting this morning of the executive committee, at which Chairman John S. Rilling, of Erie, presided. National Committeeman James M. Guffey, of Pittsburg, and the state nominees were present and joined the committee in approving the preliminary work of the campaign as outlined by the chairman.

Mr. Rilling was authorized to appoint an advisory committee of ten to cooperate with the executive committee in the management of the campaign. He was also directed to appoint a finance committee, consisting of one member from each locality represented on the executive committee. Filipinos Expected the Americans to Move Against Tico and Were Consequently Surprised - Captain Deems Captures a Filipino Fakir Who Predicts the Fall of Manila. 150 Filipinos Killed in General Hall's Engagement-The Weather Extremely Hot and American Troops Suffer Greatly.

Mantla, Aug. 9.-7.10 p. m .- Details of General MacArthur's advance beyond San Fernando show that the Ameria cans covered five miles in the first five hours and at 2 o'clock had advanced six miles along the railway, stretching on each side of it for two miles and resting at night three miles from Angeles, which will be the northern base chemical company, also suffered from of operations instead of San Fernando, where a garrison of 600 men has been left. The casualties are between thirty and forty. The Filipinos were surprised, expecting the American forces to move against Tico. They followed their usual tactics of holding their trenches until they became too warm and then retreating in disorder. They are now falling back westward toward Poric.

The Twelfth and Seventeenth regiments had the sharpest engagements. The country our troops passed over is covered with rice fields and bamboo thickets, the hardest possible ground for marching. The mud in places was knee deep.

Angeles is one of the richest towns north of Manila and is considered to be a better base of operations than San Fernando, The forces at San Fernando consisted of the Iowa regiment, the Seventeenth regiment, the Ninth regiment, the Twelfth regiment, Hell's new Thirty-sixth regiment, a battalion of the Sixteenth regiment, Troop E, of the Fourth cavalry and fifteen guns.

The movement had been planned for some time, but was delayed by rains. rice fields sufficiently to warrant the attempt.

The American position had long been unpleasant. The rebels almost surrounded the town and fired northerly into it, the Americans not replying except on extreme provocation. It was necessary to keep 500 to 600 men on out-

Immanuel, as the fakir is generally known, has been predicting the fall of Manila. His "prophecies" have created excitement among the natives who believed them.

Reports from rebel sources say 150 Filipinos were killed in General Hall's engagement at Calamba and in the subsequent skirmishes.

American Losses.

Manila, 7.50 p. m.-The American loss in the fighting about San Fernando at 3 c'clock was known to be eight men killed and 26 wounded.

The loss may possibly exceed these figures, as the line is five miles long and it is impossible at this hour to hear from every point. Our troops are now about Angeles waiting for the artillery, which has the greatest difficulty in moving, owing to the wet

ground. The attack was opened at 5 o'clock in the morning, a battery of the First artillery shelling Bacolor on the left. Simultaneously Beil's Thirty-sixth infantry struck Bacolor from the rear and drove the rebels out. Armored cars, each with a six pounder and two Gatting revolving cannon on board, then moved out on the railroad track in the center of our lines. Soon afterward these guns did sharp execu-

Battery M of the Third artillery and a hundred men of the Iowa regiment made a feint towards Mexico, while the main body of troops, consisting of the lowa regiment, the Seventeenth regiment and a battalion of the Twentysecond under General Wheaton, on the right, and the Ninth regiment, Twelfth regiment and Bell's regiment, under General Liseum, on the left, advanced steadily, pouring their fire into the rebels and receiving a heavy fire in return. The rebels were well protected by trenches and seemed to lack ammunition. But, they were unable to withstand for any length of time the hall of shots our artillery and infantry poured in on them and retreated, leavng many dead and wounded on the field. A dozen prisoners were captured by our troops. The reports indicate that the Ninth infantry suffered the most, though the casualities of all the

regiments are not yet reported. The weather was extremely hot and our troops suffered greatly. But there was no faltering.

A company of the Sixteenth regiment went to the relief of Bell's regiment this afternoon.
