BOTH BRANCHES OF COUNCILS MET

MANY IMPORTANT MATTERS WERE CONSIDERED.

Ordinance Introduced in Common Council Giving the Scranton Railway Company Permission to Extend Its Line to Nay Aug Park. Action Taken in Select Council to Secure an Option on the Round Woods for Park Purposes—No Money to Pay Spain's Bill.

Interesting meetings of the select and common councils were held last night. At the meeting of common council an important piece of legislation was introduced by Luther Keller, president of the body. It is an ordinance giving the Scranton Railway company permission to extend its tracks along Mulberry street from Prescott to Arthur avenue and on Arthur avenue from Mulberry street to Fifth street.

The ordinance was referred to a committee for consideration. The object of the ordinance is to enable the Scranton Railway company to run its cars direct to Nay Aug park that they may be able to give the city a better service. The building of the line described above would give the company a loop which would allow cars to pass to and from the park without delay.

A bill of \$24.50 presented by John E. Regan for the repairing of a coach damaged some months ago on Washington street by running into a large hole, was voted favorably upon. The communication of Postmaster Ripple to Mayor Mohr concerning the numbering of streets and houses was referred to a special committee consisting of Councilman Naegle, Griffiths and Morris.

SELECT MEASURES.

The following resolutions which passed the select body were concurred in: Directing the city engineer to ascertain whether Center street, between Franklin avenue and the river, is city property; appointing Attorneys Burns and Torrey to confer with the city solicitor for the purpose of ascertaining what laws and what legislation would obtain in the event of Scranton becoming a city of the second class; authorizing the mayor to execute a five-year contract with Mrs. Sarah Hartman, who owns the property in which the Century Hose company is housed providing she agrees to put the building in good condition.

A resolution was passed providing for another electric light in the Fifteenth ward passed first and second reading. A resolution providing for the grading of Bridge alley, between Bridge street and Mechanic street, and of Mechanic street between Bridge alley and Cliff street, at the expense of the Delaware, Lackawanna and Western and Dickson Manufacturing companies also passed.

TAX ON SHOWS.

The ordinance providing for the licensing of shows, circuses, etc., and providing a penalty for its infraction passed third reading, as did the ordinance permitting the grading of Blatter place by property owners at their own expense.

A communication signed by a large number of Providence property owners was received, asking the council to reconsider their present intention of removing the watering trough that stands at the corner of East Market street and the boulevard.

Several of the communication seconded the sentiments of the petition, stating that the trough had been a great blessing in the past and that its absence would be greatly felt. The communication was referred to a special committee.

Another communication was received from Thomas McCourt, stating that an overflow from the sewer had greatly damaged the cellar of an apartment house owned by him and situated on River street. The communication was referred to its proper committee. The last business transacted by the councils was the exonerating of David Y. Jones from the payment of city taxes.

SELECT COUNCIL MEETING.

Some of the Measures That Received Consideration. At the meeting of the select council an ordinance was reported favorably regulating the manner in which furnaces, in any mill, mine, factory, foundry or other building occupied for the purpose of trade in this city shall be built.

The ordinance provides that such furnaces shall be so constructed as to consume or burn the smoke arising therefrom nor shall any dust be allowed to escape from any such building or premises to the detriment or annoyance of any person not engaged therein.

The streets and bridges committee reported favorably an ordinance providing for laying flag stone sidewalks on certain streets in the Twelfth ward and it subsequently passed on two readings.

Mayor Mohr sent a communication asking council to take steps to pass the legislation necessary to the payment of the bill of J. H. Spain, the expert who examined the electric lights of the city several months ago. Mr. Spain charged \$150 for his work. Councils ordered his employment but did not provide funds with which to pay him. The communication went to the proper committee.

The sewers and drains committee reported favorably a resolution awarding the contract to M. J. Gibbons for constructing Section B of the Fifth district sewer for \$2.20 per lineal foot. The resolution was adopted.

Councilman Melvin introduced a resolution directing the proper city officials to prevent the Scranton Illuminating Heat and Power company from dumping ashes into the Lackawanna river. It was approved.

A resolution was approved which permits the property owners of Re-

been avenue between Swetland and Pettibone streets to grade that avenue at their own expense. Councilman James introduced a resolution directing the chairman of the park committee to act in conjunction with the park commissioners for the purpose of getting an option on the Round woods for park purposes.

A resolution permitting the property owners of Summer avenue between Lafayette and Swetland streets to build a pipe drain which diverted the sewers and drains committee in conjunction with the city engineer and city controller.

TUBERCULOSIS THE CAUSE.

Death of a Child Under Unusual Circumstances.

Coroner Roberts was notified yesterday that Anthony, the four-year-old son of Simon Yameck, of rear of 319 Locust street, South Scranton, died at noon Wednesday under rather suspicious circumstances. A Tribune man who called at the home last night for information regarding the child had learned that the child had suffered almost since his birth from a large swelling of the left cheek. His father said that he had the boy to the Lackawanna hospital four times and each trip an operation was performed. He had him removed home two months ago, and has not since then afforded his child any medical aid.

Undertaker Frank Banne, of upper Lackawanna avenue, was not called to prepare the body for burial until last night, thirty hours after death occurred.

The coroner made an investigation last night and ascertained that the cause of death was tuberculosis. He issued a certificate of death in the case.

The facts in the case as outlined in The Tribune yesterday which was filed in the bill in equity which was filed by City Solicitor A. A. Vosburg, in connection with the request for an injunction to prevent the alley from being closed up. The alley will remain open pending the disposition of the case.

Action Against the City.

A declaration was filed in the prothonotary's office yesterday in the case of Mrs. Jane Reap against the city of Scranton. Mrs. Reap owns a property on West Market street, which she says was greatly damaged because the city constructed a pipe drain which diverted a large quantity of surface water onto her land whenever there was a heavy rain storm.
