Predicts Further Concessions. German Steamship Arrives at Delagon Bay With War Stores for the Transvaal.

London, Aug. 11.-The Boer organ in London, the Standard and Diggers' News, today publishes a Johannes burg dispatch threatening Groat Britain in the event of war, saying the Boers are determined to wreck the mines and irretrievably ruin the general body of shareholders by blowing up millions of dollars' worth of mahinery adding that war will mean the absolute ruin of Johannesburg, both as a town and as a mining center and saving:

While it will doubtless end in a victory for England, the price of that victory will be the ruin of thousands, who ought to consider the price they must pay before authorizing the goverement to declare war." Another Johannesburg dispatch,

however, predicts further concessions, and says: "The reply of the Transvaal to the

proposal for a joint inquiry is being delayed until the government has prepared a scheme granting the Outlanders immediate and substântial representation, as the Transvaal will make every effort to avert intervention in the internal affairs of the country." Lorenzo Marquez, Delagos Bay, Aug. 11,-The German Fast Africa Line steamship Reichstag has arrived here from Hamburg, Naples and Mombash

with 400 cases of cartridges and other war stores for the Transvaal. Bombay, Aug. II.-Preparations have been almost completed for the dispatch of 12,000 troops to South Africa, A number of transports are in readiness in Indian waters and in the event of war troops will be embarked simul-

taneously here, at Karachie and at Calcutta. London, Aug. 12 .- The Cape Town correspondent of the Daily Mail says: I learn from a prominent ex-reformer that the Transvaal government has prepared warrants for the arrest of prominent reformers whenever the condition of affairs at Johannesburg provides an excuse. The presumption is that President Kruger means to se-

cure the leading Outlanders as hostages the moment trouble arises." STORM MOVES NORTH.

ATKINSON CIRCULARS.

Government Officials Receive Copies of the Last Literary Firebrands. The Anti-Imperialist. Washington. Aug. 11.-Secretary Hitchcock and other government officials in the city have received copies. of a circular signed by Edward Atkinson, which, the author says, has cen, or will be, sent to the commissioned and non-commissioned officers of each returning regiment of troops from the Philippines, together with copies of pamphlets containing articles on the Philippine situation from an anti-imperialistic point of view The circular is dated Boston, Aug. 8. is headed "The Anti-Imperialist," and is addressed to the survivors of the olunteer regiments returned from Manila. Mr. Atkinson says that having been informed that telegraphi messages from the mothers and elsters of volunteers from Nebraska urging them not to re-enlist had been refused delivery, he thought he would tes that question. He then recounts his efforts to send through the mail to prominent officials in the Philippines the pamphlets seized by the postmaster at Sun Francisco sometime ago fo which the author of the circular says he "was threatened with prosecution. for treason and sodition because of this effort on my part to convey information to you, citizens and voters. which would inform you as to the work. we were doing in this country to stop what we believe to be criminal aggres sion in the Philippine islands." Mr. Atkinson adds that the three articles referred to, viz.: "The cost of a National Crime," "The Hell of War and its Penalties," and "Criminal Agstone recived a letter this evening gression: By Whom Committed?" from Lieutenant-Colonel James Barphlets sent to the officers of the regiments and he asks their views upon them and upon the whole course of warfare in the Philippine islands, promising, if liberty is given, to print the letters and to make a careful selection therefrom, "whether adverse to the position I have taken or sustaining it.

Americans Fighting in Canebrakes With Mud and Water to Their Knees-Rebels' Heavy Losses at San Fernando-Attack Surprised Them-Many Asleep at the Time. Gen. Otis' Report.

Washington, Aug. 11 .- General Otis cabled the war department today as follows:

Manila, Aug. IL.

MacArthur hus taken possession of Santa Rita; reconnolitered herae, Angeles and other points. Insurgents driven north. One casualty yesterday, none to-day. Consilion of reads makes movements of traces difficult, but considered necessary to open up this section of coun-try, as it virtually gives control of provof Bataan and relieves inhabitants Oth

Manifa, Aug. 11, 5.10 p. m -- Reconnoitring by small parties was continued today, Unavailing attempts were made to get in contact with the enemy. The American troops occupy Calulet. Santarima, Bacoler and Gaugua, No further engagements have taken place, Rains are falling again. The wounded are being brought into Manila.

General McArthur's troops remained last night at Calulet. The rebels evidently had fled far beyond rifle range for the American outposts were not disturbed and not a shot was fired durng the night.

The strength of the insurgents at Angeles not being known, the situation was reported to General McArthur, who did not desire to send reinforcements and directed the reconnoitring party to return unless the robels abandoned the town. Soon after the receipt of those orders it became evident that the rebels had set fire to the town and fled, leaving the place to be occupied by the Americans.

Rain has been falling all day. While there is still a possibility that the storm may curve out to sea, the officials of the weather bureau express the opinion that it will reach the coast of Fiorida and that its influence there may be felt by tomorrow morning. Hurrleane warnings have been sent out over the state by telegraph and

telephone and every measure taken to put the inhabitants on their guard. The maps on file in the weather bureau show the course which has been followed by the August hurricanes for the last twenty-one years, but there appears to be very little consistency in the direction which they have taken. The storm is now traveling much slower than during the early period of its existence, the total distance covered

tor now appears to be a little southeast of Nussau. A report received by the signal office today by Major Glassford, stationed at San Juan, Porto Rico, states that the telegraph wires in the island are down

and that the offices have suffered greatly from the storm. Considerable money will be required to restore them to their former condition. Weather bureau officials are surprised to hear that the town of Ponce
