THE MARKETS.

Wall Street Review.

New York, Aug. 14.-The stock market started off with something of an upward rush, stock exchange traders and a small outside following had apparently come to the conclusion that Saturday's bank statement indicated that all vexed problems in the money market had been settled and that ease and abundance of funds were now at The first sharp advance stocks, however, demonstrated that the pressure of some heavy selling would have to be encountered on any general upward movement. The market thereafter lapsed into the spotty condition which has been its recent characteristic. A small number of stocks showed very marked strength, but the usually ctive and prominent stocks lay practically dormant throughout the session and showed a sagging tendency which the strength in special instances had no effect toward counteracting. Tennesse Coal and Iron advanced by sensational leaps an extreme 6% points. giving color to prevalent rumors of a orner in the stock. The tone was fevrish below the high level and the net gain was 3%. The announcement of the settlement of the smelters' strike in Colorado enhanced the prices of quite a number of stacks, including American Smelting, which is most diectly affected, Colorado Fuel, Denver and Rio Grande stocks and Colorado Southern stocks. Gains in the group ranged from 114 in Denver and Rio Grande to 534 in Colorado Fuel pre-ferred. The smelting stocks rose 534 and 2%, respectively. The railroad stocks to show strength were com-paratively few. The Chicago Great Western debentures started downward after their notable rise on Saturday and are nearly 2 points off on the day, but the preferred A stock is up over 2 points and the preferred B stock over a point. Resides these there are notable gains in the Pittsburg, Cincinnati, Chicago and St. Louis stocks, Louisville. Kansas and Texas preferred, the Minneapolis, St. Paul, Sault Ste Marie stocks, Cleveland, Lorain and Wheeling preferred, New York, Chicago and St. Louis stocks and some of the low priced railroad stocks. Confidence over the money situation had a relapse, the conviction growing that the Saturday bank statement may not be a fair reflection of Saturday's condition in be market. Uneasiness and depres sion were also reflected from abroad, political disquiet in France and alvancing money in London and Bertin threatening some pressure of liquidation from these quarters should this country's credits be called home. Whatever ease is manifest in the noney market is realized to be due o the quietude of speculative markets the world over and conservative

changes are mixed. Total sales, 447,-The bond market showed increased ctivity, Kansas and Texas second the old 4s registered and the 5s 14 in the big price.
