& Company, of Scranton, bid \$11,122.75; Blair and Kennedy, \$13,531,20. The bid of Giles & Loveland was not complete The committee recommended that all bids be rejected because the appropriation for the work amounts to only \$9,000. The report was rejected and on motion of Mr. Mannion the bids were recommitted to the clerk until next Monday evening, when further action will be taken.

The only bid on fire alarms was from the Gamewell company. The bid specified the appliances necessary and fixed the cost to the city at \$4,975. As a matter of form the bid was referred to the fire committee.

DEAD MAN'S EYES ********************

Virginia City, Nev., in the flush daya of the great Comstock Lode: A man strolled down C street, one June evening and then struck into a trail which led upward along the slant of Mount Davidson. He was a large, broadshouldered, full-bearded man. At a point where the trail diverged he reached over the fringe of the crowd stopped as if for a short rest, and, with his hat in his hand, turned to view the scene below him.

The sun was approaching the horizon. tious fraternity, as was quick to notice Everywhere the sky was a cobalt blue, the slighest incident connected with a save in the far distance, where it changed to a delicate purple and gradually melted into long, low streaks of red. gold and shimmering crimson. Looking down the canyon, Sugar Loaf stood darkly silhouetted against the brilliant background, and past it-miles further down and away-the plains lay sleeping in the evening haze. In the middle distance the big, red buildings of the shafts and mills, with their tall trey and deuce came out in the order steamboat smokestacks, were sharply outlined; on every side the white named. which are smoked in parts of western Pennsylvania, are in some ways almost as powerful as opium, and legislation has been undertaken against their use. Both cubebs and corn silk inflame the mucous membrane and upset the digestive function. None of these evil results from the moderate use of tobacco. Hygienically, strong tobacco is better than mild, for in smoke from the mild varieties the tiny particles are far more numerous, and tend to dry up the blood by absorbing large quantitles of moisture from the mouth and

lungs. For this reason, paper cigarettes, even when unadulterated, are held to be injurious. Connoisseurs of tobacco believe that in the near future low prices for good cigars will effect the extinction of do mestic skunk cabbage varieties. With the advent of American colonies in the East and West Indies and reduced prices on their products some dealers expect to see fine cigars selling at 2 and 3 cents apiece. Already several importing houses have begun to advertise greatly reduced prices on Porto Rican tobacco, as a direct result of the war. Several shipments of Manila to bacco and cigars are already on their way from the Philippines, and will be rushed into the market in a few weeks On account of its high flavor and low price Philippine tobacco is expected to

ome into popular favor the instant it is put on sale in the ordinary rotall igar store. Before the war our tobacco importa-

tions amounted to many millions of dollars annually, and economists ophecy that from a purely financial point of view the national policy of expansion will be vindicated by the resulting boom in the tobacco trade.
