Mr. Beamish is one of the most prominent of the younger atorneys of the city and also holds a eading place among the literary mer f this part of the state. His brilant prose articles and graceful verses have won wide recognition far beyond he confines of Scranton.

AN EXCITING RUNAWAY.

Team of the Scranton Railway Company Had the Star Part.

The repair crew of the Scrantor Traction company had an exciting time esterday morning in a runaway. Patick Reilly. William Cilleran and Richard Evers were on the platform f the high extension repair wagon, orking on wires at the intersection f Adams avenue and Linden street, vien suddenly the horses became frightened and dashed down Linden

The three men on top, in a moment realized their dangerous positions, and without any unnecessary delay got to of safety. The ladder they reached the platform on had fallen, and the men were obliged to jump to the box of the wagon, and then to the payement. They escaped from injury.

The maddened team continued its race to Wyoming avenue and then turned towards Lackawanna avenue At the Hotel Jermyn, Common Councilman Edward Coleman sprang to the bridle, but was unable to control the A few feet below the runaway collided with a horse and carriage be longing to Edward Walsh. His horse was thrown and upon regaining its feet dashed into the doorway of the Postal Telegraph office.

The runaway came to a halt at the Coal Exchange building. While the affair was attended with many exciting features, but little damage was done.

ENGINEERS FOUND THE TABLES TURNED

THEY AND NOT THE COMPANY MUST DO THE ACCEDING.

When They Went Into the Conference It Was with the Intention of Inducing the Company to Accept the Terms They Had Prescribed in Their Schedule but the Matter Resolved Itself Into a Question of Their Accepting the Company's Terms-Cause of Delay.

The conference between the Lackawanna engineers and officials was not resumed at 9 o'clock yesterday morning

s per schedule. General Superintendent Russell and his colleagues were ready, but the engineers' committee wanted more time. Mr. Russell told them to take their own time to the matter and when they were ready to proceed he would be

found waiting them. The cause of the recess is the Inability of the conferees to agree upon the details of the wage schedule. The engineers submitted a set of ules and schedule of wages and left

with Superintendent Russell. When they came to discuss these rules and the schedule last Friday they found that Superintendent Russell had prepared a schedule and rules of his own and that his and not their's were the mes to be considered. The company's propositions were disovered to be practically an utimat-

um, and the matter resolved itself into

a question of the engineers accepting

the company's terms, instead of the ompany acceding to theirs. The engineers' committee is not satsfied with these terms and does not vant to accept them. Chief Arthur has been sent for to advise with them and until he arrives it is not likely hat anything will be done. rouble on the "Big Four" was setled yesterday and, now being free is likely that Chief Arthur will be

Walters is charged with the larceny f a silver watch valued at \$24, a pair f pantaloons valued at \$4.50, and a pair of shoes valued at \$2.50, the proprty of Mrs. Walters' son, Thomas, It appears the prisoner, whose real name is Koterba, but who goes by the name of Walters, was taken in by the Walters family while in destitute circumstances, and repaid their hospitality by walking away with the goods above mentioned. After hearing the testimony the mayor held defendant in \$300 ball for his appearance at court. As goon as this case was disposed of he prisoner was arraigned on another charge of larceny preferred by Daniel Walters, another son of Mrs. Walters. in which he was charged with the lareny of a soldier's coat valued at \$10 a can valued at \$1.50, and helt valued at \$1. He was also required to give bail in the sum of \$300 in this case, not being able to do so he was committed

to jail. WEST PARK LOTS.

A Most Wonderful Sale of Desirable Building Lots.

The remarkable activity of the real state market in North Main avenue and other West Park lots since they were placed on the market only a ouple weeks ago is the subject of discussion in the city generally. But nore particularly is this the case among conservative real estate men many of whom had formed the opinion that the days when quick sales could be made upon the opening of a tract of land in Scranton had passed by. Such theories have vanished into thin air by the most practical demonstration

of their error. Since the opening of West Park the offices of G. F. Reynolds in the Connell building and of Charles Schlager, in the Traders' Bank building, who are part proprietors and principal sales men of the land, have been pretty well thronged with inquirers who mean ousiness and a large number of sales

have resulted therefrom. We have not space in this article to tell the merits of West Park, but take pleasure in referring all persons whose interest has been aroused by the West Park land plot to call for further particulars upon Charles Schlager at the Traders' Eank building or G. F. Reynolds at the Connell building.

WALKER KEEPS HUSTLING

Fire Department Committee Heard Some New Suggestions at Its Meeting Last Night.

At the request of Chief Walker, the joint fire department committee met ast night to pass upon a number of matters which he wishes to have brought before councils.

The erection of a hose drying tower at the Nay Aug engine house was chief among these. Building Inspector Jackson estimated that the tower would cost \$235, and the chief received an offer from John Benore & Son to onstruct it for \$240. The committee favored the acceptance of this offer and will recommend the same to

The committee also favored a sug restion from the chief that the La France Fire Engine company be or dered to put new axles and wheels or the General Phinney engine which i now undergoing repairs. The company agreed to put the engine proper in perfect repair and guarantee it for Eve years for \$1,700. Upon making an examination of the running gear it was found that the axles were sprung and the wheels in a badly worn condition. The company at once notified Chief Walker of this and advised that new wheels and axles be put on, accompany ing the advice with an offer to do the work for \$175.

The chief was instructed by the com mittee to ask the company if it is willing to wait for its pay for the extras until next year, and if an affirmative answer is received, the committee will recommend to councils that the addiional repairs be made. The Crystal and Century hose carts

vere also reported to be in need of re-

pairs and the committee agreed that the chief might proceed to have them The matter of renairs and alteration to the Century hose house was laid er. The owner of the building, Mrs. Hartman, does not care to proceed with the repairs until the money for the additional rent is actually appropri ated. The committee not having the

question open for a time and proceed to bunt up the money, Chief Walker stated that he had It Caused a Fire in Yard of Old No. found a few hundred dollars of unexended balances that can be ated to fire department uses, and that he proposes to have an ordinance introduced in councils making the transfer.

3 School.

The alarm of fire sounded from box 51 at 1:50 o'clock yesterday afternoon was due to a large kettle of tar boiling over in the yard of old No. 3 school on River stheet. The tar came in contact with the fire that was heating it.

The school building which was pur-hased recently by St. Mary's congregation is being repaired and the roof is being treated to a coat of tar. The tar is heated by a strong blaze and not being watched closely boiled over, and

a fire resulted.

The blaze that arose was large and spread with rapidity. The hose companies responded to the alarm, but this vas an occasion when water and chemicals would add to the fury of the flames, consequently a new method of ombating fire was introduced.

A large gang of men procured shovse, and subdued the flames with sand and cobbles, The scene of the fire was visited by hundreds, the report having gone out

that St. Mary's church was ablaze.
