DRIVERS STRIKE.

Employees of Delaware and Hudson Mines Desire More Wages.

The drivers of Wilson Creek and Coalbrook collieries went on strike yesterday morning. A reduction of wages, which occurred several months ago, is the cause of their action.

Efforts to have the old scale resumed and unsatisfactory hours adjusted having failed, the drivers exercised their right to strike—the right of every free-born American to quit the employ of his employer when he feels like it.

PITTSBURGH NEWS.

The Henry Grattan Excursion—A Happy Wedding and Some Local News About the City, Which Was Deserted for the Day.

The annual excursion of the Henry Grattan club went to Lake Erie yesterday morning, and it is possible that the next resort meeting will be a large gathering, as the crowd that took advantage of the opportunity to go with this popular organization numbering over three thousand souls and requiring the best engines of the Erie & Wyoming railways to carry its living freight, which comprised three sections.

The committees were admirably selected and they as well performed their duties, for there was not a hitch the entire day. The weather was at first threatening but the sun dispelled the clouds at intervals, making it an ideal day in the wooded and well shaded spot. There was music and fun galoes, and Celtic in its character to a nicety.

The Elite full orchestra engaged the attention of the young people in the large dance pavilion, while Dougherty, the Irish piper from New York tickled the risibilities of the older natives of the green Isle, and the way both the men and women danced the old time reels and jigs carried them back to the days of long ago.

The large dance pavilion, on the grounds, the swings, merry-go-rounds and the enticing waltz was in perpetual motion, while refreshment stands did a land office business. On the lake the surface was fairly dotted with small craft, while the men who came out to empty that body of the funny tribe is perhaps still at it for he was the only individual who "never came back." At high noon the Tribune man with the piper was invited by Oliver Burke and family to sit down with them to their improvised board and what a spread. Well, it was fit for the gods, and served by his helmsman made the repast all the more appetizing.

The excursion was the biggest kind of a success and the result is due to John J. Hart, Martin Howley, M. Munley, James Langan, Oliver Burke, Edward Burke, T. J. Corcoran, W. S. Callahan, John F. Boyle, Hon. M. J. Tighe, Thomas Leonard and others.

A FEW PICNIC PARAGRAPHS.

"Wash" McHale and Mrs. James McNulty were the star dancers in the old-fashioned breakdown.

John Boyle and Will Callahan, the two orphans, while out on the lake were attacked with sea sickness.

A little son of Michael Mangin was struck by a swing during the afternoon and had his arm broken.

Thomas Leonard and wife, with Miss Katie Gough, of Arlhead, the latter a guest and cousin of Mrs. Leonard, with the reporter, enjoyed a delightful luncheon during the afternoon.

On the second section of the excursion last night a young man was struck in the face with a stick in the hands of a young rascal of many at the Moosic station, while at Avoca the passengers were serenaded with gravel.

PERSONAL AND OTHERWISE.

Yesterday at high noon the wedding of John J. Judge and Miss Nellie Ryan was solemnized at the chapel at Fairview by the Rev. Father Heast, of St. Leo's parish, Ashley. Thomas Flynn attended the groom, while Miss Katie, the sister of the bride, acted as bridesmaid. A wedding feast was enjoyed at the bride's home after the ceremony, and in the afternoon the young couple returned to the sea shore where they will spend their honeymoon, and afterwards reside in this city.

Miss Marie McLaughlin, of Mayfield, returned to her home after a visit to Miss Lucy Keating, of Tedrick road.

There was serious complaint yesterday about the security of cars for the Grattan excursion. Thirty were ordered, and only twenty furnished, several of which were cabovers. The grounds are in a very unsanitary condition and the stench from the out-buildings is something awful.

The security of business in the Cork Lane court, owing to the large number of its residents spending their summer vacation at the sea shore, has compelled Roscoe Keating, who deals out justice in that bailiwick to close up shop and enjoy a little of that rest from himself. He is now at Asbury Park, while his friend, Tony McCue, has gone down to New York to be introduced to his friend, Dick Croker.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional medicine. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

ants in the case in question, the Breck boys, who claim a title to a portion of Breck court, will consider a proposition to abandon their claim to the land within the lines of Breck court. There being already one cross alley from Breck to Forest court, Mr. Comegys says, there can be no public need for another, while on the other hand the city might be put to great inconvenience and no little expense, should the Breck heirs assert their claim to a portion of Breck court. The matter was referred to the judicial committee.
