About five hundred people assembled in front of the headquarters of the Electric City Wheelmen last evening and listened to the sweet strains of music played by Bauer's band.

The front porch, from which the band discoursed their excellent music, was profusely decorated with Chinese lanterns and the national colors.

At the conclusion of the concert, many of the club's guests were shown through the commodious quarters.

SOUTH SCRANTON NOTES.

A Much-Wanted Cow and Calf Are Now in Custody—Funerals of Today—Personal Notes.

A cow and her offspring that have caused much annoyance and, incidentally, no little expense to certain residents of Cedar avenue and Birch street, is now in limbo.

This much-deplored cow and calf have made trips early and often to the well planted gardens of John Burgess, of Cedar avenue, and Phillip Rader, George Warner and Henry Henn, of Birch street.

It was decided by the injured agriculturists to keep a watch for the welcome pair, and yesterday morning John Burgess caught the much-wanted cow and calf. NO TREATY WITH SULU.

Secretary of War Corrects an Apparent Misunderstanding. Washington, Aug. 25.—Apparently there is a misunderstanding in the United States in respect to the mission on which General Bates was dispatched to the Sultan of Sulu or Jolo. It has been published that the general was authorized to make a treaty with the Sultan. The secretary of war says that is a mistake. Neither General Otis nor any one else in the Philippines has made or will make treaties with any of the peoples in the islands.

General Bates was sent to the Sultan of Sulu archipelago to enter into an agreement with him whereby the sovereignty of the United States over the islands should be acknowledged and warfare with a half-savage people avoided.

The Sulu archipelago was accepted from Spain for the reason that it was believed to be better for the United States to assume sovereignty over the islands than that they should be left to the Sultan. The secretary of war says that is a mistake. Neither General Otis nor any one else in the Philippines has made or will make treaties with any of the peoples in the islands.

General Bates was sent to the Sultan of Sulu archipelago to enter into an agreement with him whereby the sovereignty of the United States over the islands should be acknowledged and warfare with a half-savage people avoided.

It is recognized by the administration that the government of the Sulu group is a difficult problem. The inhabitants will have to be handled as we have had to handle the most savage Indian tribes. But the question is to be left to congress as the whole question of government of the Philippines is left to that body by the treaty of peace. The war department is now directing a military government in the Philippines, and General Otis is doing what he can to place the American flag over all the islands and have the natives recognize it as the emblem of supreme authority.
