### Wall Street Review.

New York, Aug. 29,-Prices in many of \$1 per share and upwards as a reday to contest the decline and the effort was assisted by several strong

features in the list. But the persistent heaviness of railroad stocks and the manifest exhaustion of the buying demand discouraged the bulls and turned the scale in favor of the bears. Stocks in which manipulation by pools has been recently evident showed a conspicuous lack of support.

Conspicuous in this class were Louisville and Nashville, Northern Pacific, Atchison Preferred, Baltimore and Ohlo and Norfolk and Western, Several of the minor stocks which have been under recent manipulation also suffered severely. Some opposition to the early heaviness resulted from the active demand for the republic steel stocks on the strength of yesterday's declaration of a dividend on the preferred stock and sersl-official intimations of very large earnings available for the common. The common advanced at one time 214 and the preferred 4 per cent. Steel and Wire was also marked up on predictions that the listing committee of the stock exchange were disposed to admit it to the listed department. These two factors imparted firmness as to the iron and steel group with the exception of Tennesse Coal and Colorado Fuel. the railroad list the Chicago Great Western stocks showed continued strength, the preferred rising I points. There was good demand for Kansas and Texas preferred and gains were shown by Wheeling and Lake Eric and Hocking Valley. In the local traction stocks Brooklyn Transit was lifted quite aggressively and Metropolitan Street railway and Manhattan showed sympathy. There cane a covering movement in Tobacco after a sharp fall and Sugar showed strength from the same cause. But these elements of strength were quite insufficient to induce a renewal of buying in the genral list on any large scale, and prices ontinued to drift away under dribbling offerings. The declaration of a per cent, semi-annual dividend on Union Pacific preferred stiffened that stock and caused a mometary check to the downward movement but when the bears perceived the continued heavinese they attacked the market in the late dealings, making the closing active and weak at about the lowest. The few earlier gains were mostly wiped out those remaining being largely reduced. The weakness on foreign stock 245 barrels. of the Transvaal crisis was another iffuential factor in the day's weakness London sales here were estimated at 20,000 shares, covering the entire list of international stocks. The fall of a fraction in the actual rates for sterling exchange in face of this liquida- Brooklyn tion from London caused renewed unensiness over the local money situation of which it was a reflection. Rates for time money were appreciably firm-

er and no call loans were made below per cent. Total sales, 594,900. The bond market was rather quiet and trice changes were irregular. Totates sales par value, \$1,840,000, United States government bonds were unchanged on bid quotations.
