FIREMEN MEET AT TUNKHANNOCK

Tri-county Convention a Grand Success—Eagles of Pittston the First to Arrive.

Special to the Scranton Tribune.

Tunkhannock, Aug. 31.—Today was the first day of the firemen's convention, and with good weather, the celebration appears to be a success. The first company to arrive was the Eagles of Pittston, on the 10.30 train. They were accompanied to this place by Bauer's band of Scranton, and also by the base ball team from Pittston. On the noon train down, came the Bache Hose company of Wellsboro and the delegates representing the various hose companies of the association. The afternoon train down brought the Linta drill squad of Towanda. The apparatus of several of the companies has arrived, being sent here by freight and was received and stored by the Tritons. A delegation of several hundred people from Pittston accompanied the Eagles to this place.

The visiting companies were met at the depot by the officers of the association. They are as follows: President, M. D. Lawrence, of Westfield; first vice president, N. V. Weller, of Athens, Pa.; secretary, J Wood Platt, of Tunkhannock; treasurer, J. E. Graham, of Towanda.

The convention opened at the court house shortly after noon. After an overture by Bauer's band of Scranton Burgess W. Dean Sampson made a short address tendering the freedom of the city to the visiting firemen. He was followed by James W. Platt, the district attorney of Wyoming county, who made the address of welcome. M. D. Lawrence, Westfield, made the response. S. E. Levi acted as delegate for the Eagles of Pittston and Dr. J. A. McDougal looked after the interests of the West Pittston company. Ex-Chief George Stegmaier, of Wilkes-Barre, was also in attendance. At 2.45 the convention adjourned. Previous to adjournment there was some talk of having the convention in 1900 at Pittston. No definite action was taken.

Henry Bennett, chief of the fire department of Towanda, is here as a delegate from Mantua Hook and Ladder company of that place.

Dr. E. H. Hill, of Pittston, a former resident of Tunkhannock, and member of the Triton Hose company, is up here with the Eagle company.

BIG COLLIERIES RE-LEASED.

Girard Estate Trustees Make New Contracts for Long Terms.

Pottsville, Aug. 31.—The leases of several of the most important collieries of the Girard estate expire Dec. 31, 1900, and the trustees of the estate have already re-leased the operations. The terms under the new leases have now been so fixed that the agreements concerning all the collieries will expire on Dec. 21, 1913. The collieries will be operated by the following companies:

William Penn colliery with the Susquehanna Coal company. The Kehley Run colliery with the Thomas Coal company. Packer, Nos. 1, 2, 3, 4 and 5 with the Lehigh Valley Coal company. An understanding has been arrived at between the Girard estate trustees and the Lehigh Valley Coal company that all coal mined in the Continental and North Ashland collieries shall be shipped over the Centralia colliery breaker, situated on the adjoining land.

Under the changed conditions of the anthracite coal trade the terms of the old leases were too high and the new leases fix the following as the royalties to be paid during their continuance: For large coal, 40 cents per ton; for No. 2 size, 25 cents per ton; No. 3 size, 10 cents per ton; No. 4 size, 5 cents per ton.

The average royalty received by the Girard estate last year was 41.41 cents per ton upon all coal shipped to the market. Under the new lease the average royalty will be 32.46 cents per ton. The only other changes of financial importance in the new leases requires the payment to the Girard estate of the $20,000 advanced by the estate for the building of the breakers thirty-five years ago.

The total amount of coal mined at the collieries of the Girard estate last year was 1,416,551 tons. William Penn sent the largest individual shipment. This colliery reached a total of 205,021 tons. The net income of the Girard estate from its land in this section during the past year was $451,779.26.

CYCLE OF MISHAPS.

Several Accidents Occur Almost Simultaneously at Mahanoy City.

Mahanoy City, Aug. 31.—Tuesday was an unlucky day in this section. Frank Selck, a ten-year-old boy, was found by his brother dying under a chestnut tree yesterday afternoon. He had fallen from the tree while he was knocking off chestnut burs.

Andrew Runick received fatal injuries by being caught under a fall of several tons of coal and rock at the Mahanoy City colliery. He had fired a blast in the breast in which he was working. He had just returned to his work after the explosion occurred, and before he had a chance to examine the roof the fall occurred.

John Kroll was thrown from a wagon on East Centre street. His body described a semi-circle in the fall and he struck the stones on his head with terrific force. An examination of the body by surgeons showed that he had sustained concussion of the brain and probably internal injuries. It is not believed he can recover.

Thomas Tolan, of New Boston, a village one and a half miles from Mahanoy City, had the index finger of his right hand crushed to a jelly in a peculiar manner. He was examining a bicycle belonging to a friend. One of the wheels was held off the ground and while Tolan was examining it a bystander gave the wheel a push. Tolan's finger was caught between the rapidly revolving spokes and the sprocket of the wheel and almost severed from the hand.

John Reshick, of Mahanoy City, had his left eye burned at the Mahanoy City colliery. He is a miner, and the accident occurred by a lighted lamp falling from its position on his hat and striking him on the face.

SEWERS FOR HONESDALE.

Urgent Need Has at Last Induced Definite Action.

Special to the Scranton Tribune.

Honesdale, Aug. 31.—For years the question of a public sewer for Honesdale has been agitated. There are a large number of private sewers that have their outlet on the shore of the Dyberry and Lackawaxen rivers, and the sewerage from the west side of Main street is discharged into the Delaware and Hudson canal basin. The water has been drawn from the canal basin and the low water in the rivers has caused prompt action to be taken at a meeting of the citizens with the town council to discuss the matter.

The plan of laying a sewer pipe in the bed of the Lackawaxen river was thought to be the most practical one. Messrs. E. F. Torry, William H. Dimmick, Jacob Katz, Horace T. Menner and Patrick McNalley were appointed a committee to ascertain the probable cost of such sewer, and to act with the town council in regard to devising some plan of immediate action.

Towanda, Aug. 31.—The fourteenth annual convention of the Womans' Christian Temperance union of Bradford county, was held at Athens on Tuesday and yesterday. Nearly all the eleven unions in the county were represented, and the sessions were presided over by Mrs. N. L. Bird, of East Smithfield, the president. The report of the treasurer showed the financial affairs of the union to be in good shape.

Tuesday afternoon was taken up with papers and discussions of the work being done in the county, and in the evening John G. Wooley, the great temperance orator, delivered a masterly address. Yesterday morning was devoted to business. The following officers were re-elected:

It was decided to hold the convention at New Albany next year.

THREE RUNAWAY CARS.

Cause a Bad Smash up on the Jefferson Branch.

Special to the Scranton Tribune.

Susquehanna, Aug. 31.—At Ararat Summit, on the Jefferson branch, last night, three loaded Erie coal cars slipped their brakes and started rapidly down the very heavy grade. When they arrived near the high trestle near Starrucca, running at a terrific pace, they encountered two pusher locomotives, coupled together, which were backing down from Ararat Summit to Susquehanna.

The cars struck the first of the two locomotives, No. 1368, and there was an immediate mixup. Engineer Gaffney and Fireman Ranlett, both of Susquehanna, were both injured. Engine 1368 was badly damaged and the three cars were demoralized. Susquehanna wreckers were called to clear the tracks.

The council is called as the result of the resolutions adopted by the Bradford Baptist association in East Smithfield some months past.

TO HONOR DEWEY.

Talk of the Ninth Regiment Forming Part of the Parede.

Special to the Scranton Tribune.

Wilkes-Barre, Aug. 31.—A movement is on foot to have a brigade from Pennsylvania go to New York city to participate in the great reception which is being arranged for Admiral Dewey on his arrival in the metropolis in October.

If the arrangements to have a brigade from this state participate in the demonstration are successfully concluded it is more than likely that the Ninth regiment will be one of the regiments that will be picked for the occasion, inasmuch as it was the first regiment reorganized after the close of the Spanish-American war and for the further reason that it is thoroughly equipped in every respect.

HEIR TO MARINER'S WEALTH.

Schuylkill County Constable Hears a Good Pece of News.

John Duffield ran away from home when quite young and went to sea. For many years his relatives heard nothing of him. The first information they received was that he was owner of a sailing vessel in the South American trade. He had placed $12,000 in gold in the bank at Goya, just a short time before he was murdered.

THE MARKETS.

Wall Street Review.

New York, Aug. 31.—There were many items in the day's news which favored an advance in the prices of securities. They were effective early in the day, but proved powerless to sustain prices at the higher level, and gains, except in a few cases, were pretty generally wiped out before the close. The improvement in the tone of speculative markets abroad gave an upward impulse to prices at the opening.

London bought quite freely of favorites among the internationals. The buying from this source is attributed to the operations of a prominent New York operator making a holiday sojourn in London. After the orders for London account had been executed in this market the railroad stocks fell somewhat into the background and the industrials were brought forward. The leaders of the group, especially the Tobaccos, were under rather severe pressure and showed sharp declines. Later there was some improvement on the strength of the strong showing made by several railroads in July earnings. Burlington was the leader with an increase in surplus after charges of over $450,000. The Central of Georgia railway formed a marked exception with a decline in net earnings of nearly $25,000 compared with July of last year. Lackawanna was marked up on the settlement of the dispute with the engineers and there was some sympathy strength in the other coalers. Meantime the short interest in Consolidated Gas showed signs of distress and marked up the stock 8½ ex dividend. The bears were inclined to cover sympathetically in the other industrials, but realizing in Continental Tobacco preferred on the declaration of the first dividend caused them to decline again. There was continued strength in the Republic Steel stocks, but the promising movement in Federal Steel late yesterday was promptly met by realizing today and the stocks of that company were heavy all day. Steel and Wire failed to show any response to the admission of the stocks to the listed department of the exchange. The Chicago and Eastern Illinois stocks showed individual strength and the common gained 6½ and the preferred 4½. Colorado Midland preferred and Rio Grande Western common and preferred were strong. The persistent heaviness of the market and the marking up of call loans prompted a general selling movement in the last hour, which carried off prices to the low point of the day. There was a slight hardening in railroads, but the industrials were attacked again in the final dealings. There was no apparent resumption of operations by the organized pools recently active. The scarcity of money was attributed to preparations for the regular monthly settlements. But the New York banks continue to lose cash to the sub-treasury on account of customs and internal revenue payments, and there is a balance of shipments to the interior over receipts. New York exchange at the principal points continues at a discount. Exchange both on London and Paris receded a fraction. Total sales, 496,000.

The bond market was rather quiet and changes small and irregular. Total sales par value, $3,305,000.

United States government bonds were unchanged on bid quotations.
