MONROE POLITICS.

#### Democratic Managers Are Worried Over Prospects of an Independent Democratic Ticket.

Special to the Scranton Tribune. Stroudsburg, Pa., Sept. 3, 1899 .-The prospects of an independent Democratic ticket in the field this fall is very bright. Another new candidate announced himself yesterday in the person of Joseph Shiffer, sr., of East Stroudsburg, who has announced himself as a candidate for county commissioner. Shiffer claims to be a Republican. It is believed to be the intention of those who are encouraging the independent ticket to place one or two Republicans on the ticket to draw independent Republican support. The Democratic leaders profess not to be alarmed with the outlook, and claim that an independent ticket in the field this fall will bring out a large Democratic vote. Ex-County Chairman C. E. Staples, one of the best informed Democrats of the county, in an interview claims that the entire Democratic ticket will be elected in Monroe county, eevn should an independent ticket be placed in the field.

While the Democrats profess not to be worried over the situation it is evident that some of the leaders are anxlous and determined if possible to pre-vent any third ticket. The Republicans are rather enjoying the situation and some of the Republican leaders it is believed will encourage an independent ticket. The local ticket nominated by the Republicans is a very strong one but the chances for election are slim. Some of the Republican leaders reason that the way to increase their vote in the county is to vote for independent Democrats. The leader of the independent ticket is ex-County Treasurer Morris Nauman who has announced himself as an independent candidate for county commissioner. Nauman is not satisfied with the way some of the leaders ran the recent primaries and objects strongly to the voting of the large number of Republicans for Democratic candidates,

It is reported this afternoon that William L. Andre, of Ross township will likely go on the ticket as an independent candidate for register and recorder. Andre was defeated by ex-Prothonotary Dutot at the recent Democratic primaries.

ket was intensely dull throughout the market short in anticipation of the bank statement, the evening up of their contracts when it appeared, closey conforming to estimates, created a demand which rallied the market from

earlier depression and brought the orices in most cases above yesterday's level. The fact that Monday is a holiday had an effect in keeping stock exchange operations at a minimum. The report of a death from yellow fever in New Orleans and the Texas quarantines caused weakness in the railroad stocks in the south, notably Illinois Central, Brooklyn Transit, Tennesse Coal, the Republic Steel works and American Tobacco lead a rise pefore the bank statement came out. In contrast to the sudden outbreak yesterday of activity in the Vanderbilts there was a single sale in the first hour of Northwestern and of Omaha, the latter at a gain of a point. Ac-cordingly, Samuel Traher, John Gravoll, Jonathan Parry and John Griffiths, the company's rock men, and Martin Gallagher, the driver boss, were ordered to report for duty on Friday morning. As usual, they were stopped by the strikers, but upon an explanation of their business they were reluctantly allowed to pass.

The necessary work was not finished on Frday and the rock men were on their way to work on Saturday morning when the trouble occurred,

The disturbance took place immediately in front of the company store building, the opposing factions being but a few feet apart. On the side of the workmen were three coul and icongolicemen, Fred Robinson, William Troy and W. H. Miller, who were ati armed with rifles and who have been on duty for several days guarding the company's property, also, Williem Richards, chief of police of West Pittston, Sam Traher, jr., and Albert Evans, employes of the store, all of whom were armed with revolvers. Stper-Intendent D. W. Evans, Mine Foreman T. B. Evans and Ouside Foreman, Friday, John Miller occupied a position on the steps leading to the store. The story of the fight as it occurred, as told to Tribune representative by Jonathan Parry, one of the rock men, is as foliewol:

#### PAREY'S ACCOUNT.

"As we five men came around the Lond on Luzerne acynuc, near the junction of Tunkhannock and Luzerns avenues, we noticed a big crowd of the strikers in a half-sliting position. As soon as they saw us, they all aros : and picking up stones from the street, placed themselves directly on the path along which we were walking. As we arrived near them they asked where we were going, and we told there we were going to fix up a bad place in the mine, near the pump, which would not in the least interfere with the objects of their strike. 'Not one man shall go to work,' said the strikers. Superintendent Evans then explained to them that the men were not going to cut coal, but were going to do really necessary work. But they wouldn't listen to that. We started to move on, and the strikers commenced to push and crowd around us, and told us that we had better take care of ourselves. We again stopped. One of the strikers hit John Griffith, one of our men, with an umbrella. Griffith turned on him and both men clinched. Sam Traher, sr., went to part them. A pistol shot rang out, and I heard Traher shout, 'I'm

OTHER WARRANTS.

B, W. Tennant, chief cierk at the Stevens mine, had warrants sworn out for the arrest of seven of the strikers Saturday afternoon, charged with riot and felonious wounding. They were given a hearing before 'Squire Ehret, who placed them under \$1,500 hall each Stanley Wecolis, who is charged with felonious wounding, was pointed out as the man who shot Samuel Maher the latter having made a statement to the effect that it was Wecolis who shot him. The other accused men were Joc

Savage, Joe Lynen, Andrew Wilsolskie, Paul Sleva, George Marshalonis and Joe Andruches. The latter two were released, ball being furnished by A. Pauxtus, but today the bail was called off and the men sent to jail. The situation at the mine is quiet to-

day, the strikers not having put in an appearance at the mine since yesterday. Sheriff Harvey has deputized about thirty men to act as deputies and twenty of them were on duty at the mine today. No further trouble is expected for the time being, although  $\mathbf{P}_{l}$ the company is prepared for it.

The company will probably not take any steps toward operating the colliery until at least after the hearing next

A civil engineer was on the ground today and took a diagram of the scene of the affair. No attempt has been made to finish

the work which the workmen were on their way to perform at the time of the trouble;

The strikers held a meeting at their hall last evening, but as no Englishspeaking people were allowed to be present, and owing to the reticent attitude of the foreigners, no information could be obtained as to the business transacted.

Machines are in operation at Catasaqua, West Catasaqua, East Catasaqua, Emaus, Coplay and in numerous hotels throughout the county, and a number of citizens propose to take the matter in their own hands if the constables fall to do their duty. So bold have the slot machine men become that they have attempted to "fix" constables.

WAYNE COUNTY.

The building owned by Wyman Kimble and occupied by him as a glass polishing wheel factory and by Krantz. Smith & Company as a glass-cutting shop, is to be enlarged to accommodate the increasing business of the last named concern. The addition is a second story, 18x26, and is now in course of construction. Mr. Kimble has patents on the best glass-polishing wowls made and receives order not only from all class-cutting bouses in the United States, but from many establishments in foreign countries as well.

There is general regret to learn that an agreement has not yet been entered into between the Erie and Delaware and Hudson for a union depot at Honesdale. The location of the new Delaware and Hudson depot is doubtless practically settled, and will be on Main street, opposite Ninth.

Sept. 25 promises to be the warmest

days in politics Wayne county has ever experienced. The Republican county convention will be held in the afternoon and the Democrats will meet in the evening. This is the last day conventions can be held in order to get the names legally on the ballot.

The Delaware and Hudson company soon expects to give employment to some seventy or eighty laborers performing the work incident to the erection of a union station on a point about opposite O. T. Chambers' drug store. It is promised to be finished and ready for business by the commencement of the new year, and, if realized, will mark a new era in Honesdale's pros-

perity. If this is accomplished, sum-mer visitors to this locality will no longer be a dream, but a reality, and the summer of 1960 should show a great [1612c.; do. expansion in this direction.
