harbor propelled by steam let its whistle go, and this, with the cheers of the crowds on shore, made a deafening noise. The president was the first to step on board the flagship from the steep ladder that hangs over the New York's side and as he did so the entire squadron belched forth the president's salute of twenty-one guns, or 126 guns The bands of all the ships in all. elmultaneously played "Hall to the Chief."

The president was received at the gangway by Rear Admiral Sampson and the staff officers of the ship, who were in special full dress uniform. The rail was manned by the men during the formal greeting. The call to quarters was then sounded and every man on board ship sprang to his piace just as though an engagement was about to start. The sight greatly pleased the president. Mr. McKinley was then shown over the whole ship, starting at the aft turret, in which two eight-inch guns are located, Standing with the small enclosure of the turret were eight men naked to the waist, who were going through the motion of loading, sighting and firing the guns. The president watched the proceedings with much interest. It took a half hour to go over the vessel and so interested did the president become that he expressed a wish to visit the other ships. As he left the New York the entire fleet again fired the president's salute. Captain Taylor was at the gangway when the chief executive came aboard and was greeted again by twenty-one guns. The battleship, like the New York, was also cleared for action, with ammunition up. Captain Taylor conducted the president to the great thirteen-inch guns aft and the atter nimbly climbed to the top of the turret. While he stood on the turret it was swung around, the big guns sighted and the entire mechanism of

the turret was explained to him. From the Indiana Mr. McKinley was rowed to the Massachusetts, Brooklyn and Texas. He did not inspect these vessels but merely contented himself by greeting the commanders of each.

MARRIAGE OF JEROME KEOGH. Ceremony Will Be Performed This

Morning in Boston.

Jerome R. Keogh, of this city, the well-known pool champion, will be married at Poston, Mass., this morning to Miss Mary O'Keefe, of that city. His brother, John Keogh, of New York, will be his groomsman. Miss O'Keefe is a charming young voman who is popular in the first social circles of the Hub. After their marriage Mr. and Mrs. Keogh will spend some time in New York, Albany and Norwich, N. Y., and will arrive in this city about two weeks hence. Mr. Keogh has been playing pool in

'hicago for some time and passed through the city Sunday night on his way to Boston.

lead of the morning publications and take an extremely grave view of the situation, although the war office denial tends somewhat to allay the wild, alarmist reports current late last night. The Hoer organ here, the Standard end Diggers News, today prints a dispatch from Pretoria, saying that the tension there is apparently less severe, and that it is believed that arrangements for the proposed conference at Cape Town will be completed, although it is unlikely that President Kruger of the Transvaal republic will attend the conference.

The opinion of persons who regard the beginning of a war between Great Britain and the Transvaal as only a matter of a short time, is volced by the

St. James's Gazette, which says today: "The news concerning the crisis is ery grave. WHY DO WOMEN WAIT when they discover the first symptoms of the diseases peculiar to their sex?

The question is not hard to answer, Women wait because they dread to face the unpleasant questions, the indelicate examinations, and the obnoxious local treatment which their friends have undergone at the hands of some local physician. Woman's modesty in affronted by these things, and disease is allowed to go unchecked. Dr. Pierce has earned the undying gratitude of thousands of women who have taken advantage of his offer of free consultation by letter, and have been treated and cured as was Mrs. Halstead, without having to submit to questions, offensive to every modest minded woman, and only submitted to when there

seems no other way of escape. If, after undergoing all the mental martyrdom attending on such treatment, the suffering woman could be sure of a cure, it would be some consolation to her outraged feelings. But no allowance for the differences in women. He treats them all allke, strong and weak, and makes no allowance for the delicately constructed woman, whose fine organization revolts at the of the curls, "Perhaps! There is not much talk about the office of senior vice-commander-inchief tonight, the canvass for that office being rather quiet and it is not known who will get the place. M Minton, of Kentucky, will probably be named for junior vice-commander, while William H. Baker, of Massachusetts, seems to have the call for surgeon general-in-chief.

The contest among the cities for the holding of next year's encampment has narrowed down to Chicago and Salt Lake City. It is practically conceded that Chicago will be the winner.

The actual business of the encampment will begin tomorrow at the Grand opera house. About 1.250 delegates will have seats in the encampment, which will last two days.

The committee on pensions of the na. tional encampment met today and completed the report, around which the debate of the sessions is likely to centre It is said that while the committee will suggest certain changes in laws that now seem to be equivocal, and will cite instances of hardship that have come as a result of the interpretation of the law, it will not join in the denunciation of the pension commissioner, H. Clay Evans.

EVENING EXERCISES.

President McKinley Delivers Two Addresses.

Enthusiasm was rampant tonight Wherever President McKinley appeared he received tremendous ovations, particularly at the Academy of Music where the Grand Army was officially welcomed to the city and state by Mayor Ashbridge and Governor Stone An interesting event at this celebration was the meeting of President Mc-Kinley and General Sickles, of New York. The general was already seated when the president arrived, accompanied by Secretaries Root and Wilson. When the president observed the vet eran he walked toward him and General Sickles arose from his seat. They shook hands cordially while the audi ence numbering about 3,000 made the house ring with their plaudits.

Admiral Sampson and his staff were among the first to arrive. The naval hero was vociferously cheered and when later in the evening he was introduced by General Wagner, chairman of the meeting, the ovation was repeated.

Addresses of welcome to the Grand Army of the Republic were made by Governor Stone and Mayor Ashbridge to which L. Torrence, judge advocate of the Grand Army, responded.

little thought to the future government of the Philippines. What he is conerned about is the crushing of the rebellion. The future government of the islands is a matter for con-gress to decide. It is even doubtful if the president, if the rebellion is crushed before the assembling of congress, will make any specific recordmendations to congress as to the char actor of government he things the Fili pinos ought to have. He probably will

content himself with laying before congress full information upon the conditions existing in the Philippines and leave to the law-making branch the task of providing a government for the islands, untrammeled by any opinons of his own on the subject. He followed this course in the case of Ha

wall, and he is not likely to change it in the case of the Philippines. He iesires to avoid the slightest basis for the foolish talk which has been indulged in about his assumption of dictatorial authority.

The president is not afraid to trust congress. He has perfect confidence that congress, when possessed of full information, will act with wisdom. The president has declared his belief that the Philippines are as much a part of

the United States as Louisdana, or Texas, which became part of the United States in a similar manner to that in which the Philippines were added to our territory. That congress will decide to contract the country's domain he does not credit. But if congress should not decide he will interpose no obstacle, but will carry out the ex-

pressed will of congress in that, as he has in all matters growing out of the war with Spain for Cuban freedom. As to Resources.

The president and his cabinet have seen particularly pleased with Prestdent Schurman's accounts of the prospects of Philippine development under

American administration. President Schurman was emphatic in his declaration that the resources of the islands and the advantage of them as a basis for American trade in the Orient would more than repay the United States for all the sacrifice necessary to establish Inited States authority
