#### WELSH IS UNHAPPY. The Sad Results of Advertising for a

Wife. Stroudsburg, Sept. 5 .- James Welsh, of Drover's Home, is one of the most unhappy men in the county. Recently Welsh advertised for a wife in the county papers, stating that the lady who accepted him would have full charge of things, and no one to boss her. Weish has received already nearone thousand answers from all parts of the country, but as yet has not made any selection. Postmuster Bensinger, of this town, has received letters from the ladies inquiring about Welsh, his habits and prospects. Weish's wife died a few months ago and he has been living with his daughter at Drover's home. His daughter decided to get married a few weeks ago and Welsh came to the conclusion that he had better do likewise. It is Welsh's intention not to be hurried in the matter, as he regards the selection of a second wife a matter of great importance, which should receive great thought and consideration He was married to his first wife near-

by fifty years ago. Welsh is now nearly seventy and prefers to marry a lady DETECTIVE GOES between twenty-five and forty-five. Welsh is expected to come to some onclusion inside of the next ten days.

# FOR ELOPING PAIR

ALICE JONES AND GEORGE SAUNDERS SOUGHT.

Extradition Papers Forwarded to the American Embassy in London Together with a Letter Alleged to Contain a Confession of Guilt. History of a Luckless Amour.

Wilkes-Barre, Sept. 7.—County De-tective Johnson has set sail for Liverpool, taking with him for delivery to the American embassy at London the extradition papers for Mrs. John A. Jones and George Saunders, the Parelopers, who were arrested re cently upon their arrival at Liverpool upon information supplied by Mrs.

deserted husband. The charge against them is forgery and the allegation of the prosecution is that just before the elopers left Wilkes-Barre they appeared before Attorney T. J. Chase and procured a loan of \$600 for which they gave a mortgage on Mrs. Jones' property in Parsons. The woman, it is alleged, represented to Attorney Chase that tevenson was her husband, and thus the elopers succeeded in forging the husband's signature to the mortgage and procuring the money.

As soon as Mr. Jones discovered that his wife and Stevenson (who had been boarding in the Jones house) had fled, he laid the case before Attorney Moore, who, after discovering the fact of the forged mortgage, diligently set himself about to trace the fugitive couple. He found that they had taken passage for Liverpool, England, and word was abled across the Atlantic to have the couple arrested on their arrival in that city. When the couple landed in Liverpool they were at once taken in cusody by the authorities and they are still in durance in that city.

Mr. Moore expects that within a month he will have the couple back in this city to answer the charge of forgery. Detective Johnson, it is said, takes with him a letter written to Mr. Moore by Mrs. Jones admitting her guilt and asking him to intercede with her husband for her forgiveness.

### RAILROAD ECHOES

Special to The Scranton Tribune Susquehanna, Sept. 7 .- It is reported that George Phillipi, of Susquehanna, a conductor on the Jefferson division, will be appointed yardmaster of the Erie's new yard at Ararat.

As yet, the Erie has given the arbitration seekers no reason to believe that it will enter into an agreement to have the troublesome differential excess fare between Chicago and New York, and commission questions, set-tled by arbitrators. The Eric will stick to its \$18.20 round trip rate be-

tween New York and Chicago. The Baldwin Locomotive works in Philadelphia are building fourteen of the "Atlantic" type of fast compound locomotives for the Erie. This type of engines is now hauling heavy passenger trains over the Erie at a untform speed of sixty miles an hour.

The Erie is said to be arranging to carry the government mails between New York and Buffalo. To secure this it will attempt to beat the time made by New York Central trains between the two cities named.

## THE MARKETS.

Wall Street Review.

New York, Sept. 7.-The market sucumbed to the combined influence of hardening rate for call money and the depression on foreign stock markets on account of the gathering war cloud in South Africa. A few of the highly speculative industrials and spe cialties were marked up in the early dealings and at different times during the day in an effort to resist the de cline. The attempt proved unavailing to overcome the depression in the general list and the manipulative stocks in some cases finally weakened though few retained a net advance. Tenpessee Coal was marked up a point at the opening but that was the highest of the day. Sugar, Tobacco, Brooklyn Transit, Federal Steel and a few other stocks among the most prominent industrials vibrated both above below last night's prices. Pullman Palace Car was at one time up 4 points but lost it all. The American Car stocks rose 2 points each but the preferred receded to the level at the opening. Pressed Steel Car preferred advanced a point in the closing dealings. These movements, a reflection of the large demand for railroad equipment growing out of the prosperity of the railroads had little effect upon the general list. The American Hoop stocks were strong on reported large earnings, rising 3 for the common and 11/2 for the preferred. There were some large orders executed for United States Leather which raised the price a point. The preferred stock advanced in sympathy but lost all the gain. These were the only important exceptions to the weakness of the active stocks. St. Paul showed some resistance but gave way with the other Grangers where intimations were heard of opposition to an increase in the dividend rate on the part of the directors. Declines in the railroads are quite uniformly between I and 2 per cent., including the prominent Grangers, Southwesterns, Pacifics, Trunk Lines and Southern railroads. Stocks which have had a recent sharp advance show wide declines. Colorado Fuel. Hacking Valley, New Jersey eCutral, Northern Pacifis, the Republic Steel stocks and Tennessee Coal are instances; though the latter stock recovered its decline. Money on call commanded per cent. most of the day and went as high as 6 per cent, with only a few exceptions below 5 per cent. Total sales, 490,500 shares. Bonds showed a closed at 4:30 by singing "Blessed be stocks, Kansas and Texas seconds be-the that binds." All felt that a good ing notably affected. Total sales, par work was done and brighter fields value, \$1,523,000. United States bonds were unchanged on bid quotations.
