Edwards of Wilkes-Barre. The race was won by Maggie Collins, with Lucy King, owned by J. B. Rosenkrans of Belvidere, receiving second money. The following is a summary of today's races:

THE MARKETS.

Wall Street Review.

New York, Sept. 8 .- Considerable stock was thrown upon the market today as a result of the fears between Great Britain and the Transvaal and the condition of the local money market was a continued cause of uneasiness. The market took the offerings very well and so no very wide breeches were made in prices. First prices of a number of the internationals were the lowest of the day, notably Kansas and Texas preferred and Norfolk and Western preferred, which fell is and respectively. Declines were not down to the London mark as a rule and vigorous support was forthcoming at the decline Kansas and Texas preferred and Norfoth preferred recovered their losses and there was a rally all along the line. Near oon there was renewed weakness on the circulation of alarmist rumors regarding the outcome of the British cabinet meet authentic reports were received of the better feeling engendered in London, af ter the cabinet meeting. About the same time Manhattan was taken in hand and marked up over two points. Metropelltan Street railway, Sugar and Brooklyn Transit rose simultaneously with the gen-eral level of prices rose a large frac-tion, sufficient in many cases to wipe out earlier losses. There were some subequent wide movements in special stocks but the general market continued quiet and dull and prices were not again ma-terially changed. Tennessee Coal rosa aggressively to 117 in the final dealings and Manhattan touched 116, the specialties generally showing some response Pacific Mail suffered a loss of nearly points on the statement of a decrease i July earnings, but railled afterwards. Other stocks to show acute depression were Tin Plate, American Hoop, the To-bacco stocks, Third avenue, Metropollian West Side Elevated preferred, Leather preferred and National Steel, and among the railroads Eris first preferred, Colo rado and Southern first preferred, North western, Omnha, Lackawanna, Hocking Valley preferred, Fort Worth and Klo Grande, and Pittsburg, Cincinnati, Chi-cago and St. Louis preferred. The light-ness of the money market was unrelieved. The time loaps were held at 5 per cent, and call loans for the most part ranged from 5 and up to 6 per cent. The

late fall in call loans occurred after the needs of most borrowers had been met and was without significance. A further decline in surplus reserves in tomorrow's bank statement is a foregone conclusion The movements of currency by express indicate a net loss to the interior by the banks of over \$3,00,000 and the sub-trens ury has gained from the banks, includ-ing payments for taxes and deposits for telegraphic transfer to the interior, \$5, 536,000. No set off is apparent agains this loss of each of upwards of \$8,500,000 Sterling exchange in New York fell sharp fraction this morning in spite o higher discount rates in London but th bankers rate for demand sterling partly recovered in the afternoon. The recent firmness of sterling exchange is attributed to a demand for bankers' bills to cover short sales made against cotton bills. Total sales, 457,700. The bond market showed a yielding ten-

dency on a moderate volume of transac-tions. Total sales par value, \$2.610,000. U. S. bonds were unchanged on bid quo-
