LIVE NEWS OF THE INDUSTRIAL WORLD

J. B. POORE PATENTS IMPROVEMENTS ON PUMPS.

Wherein the Pump as Constructed by Mr. Poore Differs from Others of Its Type—Condition of the Anthracite Coal Trade at Present. Large Basin of Valuable Coal Has Been Discovered Near Hazleton by Men from This Vicinity—Other Minor Matters.

J. B. Poore, who has a shop on North Washington avenue, was recently granted a patent for improvements in water end of feed water and mining pumps.

The principal feature claimed in the straightaway pump is that the inlet or suction seats can be changed and not disturb the balance of the pump, by merely loosening bolts that hold the chamber up to the water barrel and allowing it to fall down to the floor or foundation and then be pulled aside in order to replace the valve seats on both valve seats and chamber in case they give out. This one feature in a mining pump is very essential, especially in our mines where the water is so bad and the water ends are destroyed so rapidly.

This improvement not only permits of inexpensive repairs being made but one man can perform such a change on a 1250 gallon pump in less than three hours. There is no pump on the market aside from the straightaway that will permit of so quick changes. There are fewer parts owing to the extreme simplicity of construction and therefore it has been made very neat in design. Nothing, however, has been sacrificed for design, as it is apparent in pumps of this type now running, that they are equal to the best.

A large new straightaway is just about to be started up for the Delaware, Lackawanna and Western and will have a lift of 350 feet and 500 gallons per minute. Over twenty of the improved pumps are now under construction, two of which will have a capacity of 1250 gallons per minute.

Valuable Coal Basin.

What is deemed a peculiar streak of good fortune is involved in the preliminary work now going on, of ascertaining how much coal lies beneath the surface of a strip of land 1900 feet wide and two miles long, lying two miles west of Hazleton at a point in the vicinity of what was formerly known as McNeil's hotel. There are twenty-four hundred acres in the strip and not long ago E. J. Williams, of Olyphant, procured an option on it.

Before the work of proving for the black diamonds that were presumed to be underground was begun, Mr. Williams associated with him William W. Watkins, of Carbondale, and ex-county Treasurer William T. Reed, of Ashley. A careful examination of the strip revealed the fact that the great basin was well defined by three foot outcrop flanking each side of it for the entire two miles. In the preliminary tests it was discovered that the upper vein had a pitch of seventy-five degrees. This is known as the Walton vein and is seven feet thick. Another vein nine feet thick was also discovered. Both sides of the basin were tried and a three foot outcrop was found.

Up to date nineteen feet of coal has been pierced. A prominent citizen of Hazleton, whose business takes him to the field referred to three or four times a week, says that he has no doubt that a big vein, possibly forty or fifty feet thick, lies still lower down. In this opinion he is backed by many practical miners who, noting the black dirt and rock that has already been brought to the surface, do not hesitate to proclaim their belief that a great deposit of anthracite lies stored up in the bottom of the basin below the veins already discovered.

A shaft is being sunk and old miners in the vicinity, who have predicted the existence of a great vein, are watching with deep interest forthcoming revelations. If all expectations are realized, practical miners say it will be the largest basin of coal in the state of Pennsylvania.—Hazleton Sentinel.

The Anthracite Coal Trade.

The Engineering and Mining Journal has the following about the Anthracite Coal Trade: "The anthracite trade in Chicago territory is brisk, and is showing improvement at Lake Superior points. Retailers are stocking up, not knowing what figures they may have to pay when lake freight gets down. In the East there is as yet little change. The producing interests found that certain concerns paid little attention to the agreement to sell no coal at July figures after August 1st. Then other resolutions were made to sell no more coal at such figures after September 1st. There are still rumors that coal is being sold at the old rate, however, and it is now very doubtful if the companies will try to advance prices another 25 cents October 1st, after having such difficulty in securing the last advance. It is stated, but not officially, that the August production was 4,500,000 tons, a trifle of 750,000 tons over the estimated output for the month. This does not look like a very good attempt to hold down prices.

"The market is now likely to be governed a good deal by the weather. Vessel rates are bound to go up, and as there are no attempts to force coal on the market nor any signs of a serious disagreement among the mining and transportation companies, consumers may have to pay higher figures than now as soon as fall buying is fairly under way."

"The labor troubles at the collieries so far have been sporadic and there is now little danger of any general break between miners and operators. We quote free burning anthracite f. o. b. New York at \$4 for stove and nut, with other sizes in proportion."

To Fill in the Meadows.

The Lehigh Valley Railroad company is busy constructing a large freight yard at the western end of the bridge that crosses the Newark Bay. An idea of the magnitude of the work may be obtained from the fact that 300,000 cubic yards of filling will be required to fill in the marsh lands and provide a solid bed for the tracks. The contract calls for the laying of twenty-seven miles of tracks, which will be laid as soon as they can be received. The tracks will embrace an elaborate system of switches, which will connect with the main line. The construction of the freight yard became necessary owing to the increasing freight traffic of the road. The work is expected to be completed by Jan. 1.

Waddell Mine to Resume.

The Waddell mine at Winton which was abandoned after the burning of the Waddell breaker about eighteen months ago, will resume operations soon. The present owner, Dr. J. N. Rice, is now preparing to open some chambers there, and with that end in view in a few days pumps will be erected and the water will be removed from the foot of the slope.

When work is resumed the coal will be taken to the surface by way of the slope and then conveyed to the Riverside breaker on the narrow gauge track, which was built a few months before the Waddell breaker was burned. At present only one side of the Riverside breaker is being operated. When the Waddell coal is taken there the other side will start, and employment will be given to a number of men and boys.

The Riverside breaker, by the way, is one of the best equipped breakers in the coal fields. Nearly all the coal is cleaned by machinery. This is not working perfectly yet, but it is believed that it soon will be.—Archibald Critz.

This and That.

Neal Ferguson of Avoca, has been appointed outside foreman of the Franklin colliery at Carbondale.

The striking men at the Colbert colliery in Schuylkill county are asking for a reduction in the price of all of 20 cents a gallon and want powder reduced to \$1.50 a keg. The miners demanded a raise of 10 cents on every wagon load.

Chief Clerk W. P. Yearance, of Superintendent Du Puy's office, at Hazleton, has tendered his resignation to take effect as soon as his successor is appointed. Mr. Yearance was appointed as chief clerk when General Superintendent Russell was in control of the Morris and Essex Division of the Lackawanna road, and retained his position under Superintendent Du Puy. His resignation is a surprise.

The new management of the Lackawanna railroad intends to revise the tariff rates of the Morris and Essex division and probably of the entire system. Passenger Agent Lee has discovered inequalities in the rates between different places and is obtaining information preparatory to arranging a new schedule. The communities interested will have nothing to complain about after the work is done, so the railroad officials say. It is probable that there will be a uniform rate per mile as a basis.

DONATIONS FOR AUGUST.

Acknowledged by the Managers of the Florence Crittenden Mission.

The managers of the Florence Crittenden Home, 712 Harrison street, gratefully acknowledge the following donations for the month of August:

Dr. Anna Clarke, medical services; Dr. C. C. Laubach, dental services; Miss Anna Sanderson, shoes; Mrs. Ladell, belts; Miss Belle Malley, lemon sugar; W. H. Kaufman, fruit; A. Friend, nasturtiums; Miss Stella Yost, flowers; Mrs. G. A. Fritz, 2 bushels of apples, beets; Mrs. W. H. Taylor, ice cream, apples, tomatoes, bacon green corn; A. Friend, 2 barrels potatoes; Mrs. John Green, apples, bananas, salmon, cantaloupes; Mrs. W. H. Padfield, bananas, pickles; A. Friend, 1 barrel flour; Mrs. L. A. Bone, shoes, shirt waist, literature; Mrs. J. L. Crawford, 1 pair of shoes; A. Friend, \$3; Omaha Iron, Washington street, Presbyterian church; St. Lackawanna Dairy Company, ice cream monthly, milk daily; Scranton Dairy Company, milk daily; Consumers' Ice Company, ice daily; Huntington's, Lindner's, Zeldner, Schilling bakeries, bread, cake; Marburger, Aylesworth, Ambrose's, Warner's, South Side Store, Mrs. Diehl, meat; Hilgert, meat; Pierce's market, cabbage, beets, egg plant, apples, beans, sweet potatoes, cucumbers; Saunderson's market, corn, beans, potatoes, radishes, egg plant, cabbage, cucumbers, tomatoes; Long's market, corn.

Needs of the home are coal for kitchen range, apples and potatoes. If people out of the city can ship us fruit or vegetables to station we will gladly bear the expense of delivery. Clothing is also needed.

MOSCOW.

Mrs. Clements and her guests, Mrs. Pryor and daughters and Mr. John Henry, have been camping at Bidwell's pond for several days.

Miss Florence Cannon, is visiting her sister, Mrs. R. O. Ellis at Long Island City.

Miss Lydia Swartz of Springfield, Mass., who has been visiting relatives here returned home this week.

Miss Ella Lewis of Scranton, returned home Monday after spending several weeks with Mrs. Thomas Johns.

A special meeting of the W. C. T. U. will be held next Thursday afternoon at their rooms for election of officers. All members are requested to be present.

Miss Agnes Watts returned home Friday from a visit with friends in Hollisterville and Nohletown.

Mr. Lanstein has moved in S. S. Yeager's building on Mill street.

Mr. Frank Cannon left Wednesday for Binghamton, N. Y.

Mrs. H. G. Frischkorn and Mrs. H. S. Watts spent yesterday in Scranton.

Miss Lizzie Harnden is spending this week with friends in Nohletown.

Miss Nellie Havenstrite of Jersey, Pa., has been visiting relatives in town.

DAY'S DOINGS IN DUNMORE BOROUGH

THOSE WHO ATTENDED THE G. A. R. ENCAMPMENT.

Comrade John B. Hobday Received an Ovation—Allison Thornton Enlists for Service in the Philippines—Work on New School Building Commences To-day—New Silk Mill Soon to be Built—High School Football Team—Other Notes of Interest.

Dunmore was well represented at the encampment of the Grand Army of the Republic held in Philadelphia last week. The majority have returned home and among them are: E. A. Wert, of North Blosely street; A. C. Snyder, of Dudley and Sixth street; John B. Hobday, of North Apple street; 7100-dore Keller of Mill street, W. Sawyer, of Cherry street, R. Delaney, of Meade street; L. Sawyer of 25-28

Comrade John B. Hobday, of North Apple street, received special attention. He is a member of Ezra Griffin Post, No. 129 and carried the colors of the post in the parade, a remarkable feat for a man of his age, and the jauntiness of his walk was much commented upon. Mr. Hobday is past 80 years of age. He was always a favorite with his comrades and his appearance in the ranks in Philadelphia with the old flag was a signal for a deafening burst of applause. The Philadelphia Press, Sunday, Aug. 27 secured a picture of Mr. Hobday, a good likeness, which appeared amongst the distinguished comrades.

NEW SCHOOL BUILDING. Work will be commenced this morning on the new school building to be erected on the corner of Sherwood avenue and Reaves street. The contract was signed Saturday by Brink, Evans & Co., contractors, and President Webber and Secretary Kellam, the agreement being that the above-named firm will have the building completed and ready for occupancy by Nov. 20, for the sum of \$1,992, as per plans and specifications.

President Webber, Secretary Kellam, Architect Duckworth and Contractor Evans made a visit to the grounds and mapped out the place, so as the work of excavating could be commenced this morning. The work will be pushed with all rapidity, as the schools are crowded, and a large force of men will be employed. If such a thing can be accomplished, the building will be completed in six weeks' time.

NEW SILK MILL. The Jenkins & Powell Silk Mill company will commence excavating for the new silk mill to be erected, completed and commence operations on Jan. 1, 1900, in two weeks' time. The building site secured is situated at the corner of Sherwood avenue and Reaves street, opposite to the proposed new public school building that the contract was awarded at the last meeting of the school board.

The new mill will employ about one hundred and fifty hands, and will be furnished completely with up-to-date machinery, etc. The contract for the machinery has been awarded and the same will be in place ready for operation by Dec. 1.

The buildings will be of brick and the dimensions will be 75x200 feet and will be fireproof. An electric plant will also be placed in position in the building. The school board are Ex-County Recorder Jenkins, of Green Ridge, and Burgess Powell, both of whom are well-known men and who will leave nothing undone to have the mill of the up-to-date order.

HIGH SCHOOL ELEVEN.

Professors Charles Niemeyer and John Polcy, together with the boys of the High school, met on No. 5 ground Saturday afternoon to organize the football team of '99. A large number of the boys were present and great care had to be exercised in selecting players for the respective positions in the line-up. That this was done, the following will speak for itself, and good games of ball will be the result of every contest they enter: Captain, Frank Bogert; manager, Andrew Bryden; center, Blane Altomose; right guard, Frank Bogert; left guard, J. Turnbull; right tackle, Earl Altomose; left tackle, William Galbraith; right end, William Moffat; left end, George Oswald; quarterback, Andrew Bryden; right halfback, George Kellam; left halfback, John Moran; fullback, William Austin.

The team will commence practice immediately and will receive instruction from the professors named, who are

"The Least Hair Casts a Shadow."

A single drop of poison blood will, unless checked in time, make the whole impure. Hood's Sarsaparilla is the great leader in blood purifiers. It casts no shadow, but brings sunshine and health into every household. Dyspepsia—"For six months my system was out of order with dyspepsia and impure blood. Spent lots of money in vain, but Hood's Sarsaparilla cured me thoroughly." Jos. S. Zauba, Genoa, Neb. Eruptions—"I had annoying eruptions caused by impure blood, and physicians' treatment failed to benefit. Hood's Sarsaparilla removed them and I am no longer annoyed." W. R. Hudson, Natona, Pa.

Hood's Sarsaparilla Never Disappoints. Hood's Pills cure liver ills, the non-frittering and only cathartic to take with Hood's Sarsaparilla.

well versed in the art and capable of furnishing Dunmore with an up-to-date team.

NUBS OF NEWS.

Letters remaining uncalled for at the post office during the period ending Sept. 9, 1899. Persons calling for these letters will please say advertised in Monday morning's edition of the Scranton Tribune: Miss R. Biglin, Mr. H. L. Dodson, Mrs. Fred Miller, 809 Prospect avenue; Mr. J. W. Stoeck, Mrs. John Webb 41 Grove street; Mr. Patrick Walsh, P. O. box No. 10; Giose Fannis, Vincenzo Russontello and Jan Urban.

A special meeting of the members of the Neptune fire company will be held in their rooms this evening at 8 o'clock and all are requested to be present. A meeting of the executive committee and ladies who are assisting in making arrangements for the fair will be held in the parlors tomorrow evening at 7:30 when a full attendance is also desired. The Sunday school scholars of the Presbyterian church will hold their picnic at Nay Aug Park on Saturday next. Arrangements for the occasion have been about completed and a good time guaranteed if the elements are favorable. Complete details of arrangements made will be printed later.

Miss Ellen Bowman, of Walden, N. Y., who has been the guest of her sister, Mrs. J. Foster, of Riggs street, has returned home accompanied by Miss Hattie Foster, who will make her future home there.

Ulysses Weber of Avoca, spent Sunday with relatives in town.

Lightning Strikes Telegrapher. Floodsburg, Sept. 10.—During a thunder storm which visited this section last night H. Reber Mears, the telegraph operator at Rupert, was struck by lightning while working at the instrument. He was hurled from his chair in an unconscious condition and is still in a critical state.

SCRANTON'S SHOPPING CENTER.

Tailored Suits

We said tailored, and it's so—no seamstress touched these suits, although we've no desire to decry the seamstress. Men tailors for tailored suits, and it's seen at once in the cut, the fit, the style—skirts as fashion decrees, sleeves ditto, and made in all the new desirable cloths that the markets afford. We would ask you to look at, for instance, our \$20.00 Suit, and then try and duplicate it at your habit maker's for double.

THE FALL COATS.

We are showing a splendid array of Light Weight Jackets especially designed for early fall wear. Come and glance through the line of about a hundred different styles. You'll find everything here that you can think to ask for, and more, too, and priced very lightly, beginning at \$1 and running up to \$12.50. We don't mean to meddle with your choice, we merely suggest that no matter how little you pay, you may as well have the correct thing, stylish, well made and worth the money, and you can get it here surer than anywhere else.

CONNOLLY & WALLACE, 127 and 129 WASHINGTON AVENUE

The Wheat "Snow White"

From which "Snow White" flour is made, is all cleaned, scoured, and steamed before it is ground, so we know that

Does not contain the least little bit of dirt. It is perfectly clean, perfectly pure and perfectly wholesome. It is made in a clean mill by clean men and is used by clean people. Ask your grocer about it. "We only wholesaler it."
