REEDY RE-ASSERTS HIS FORMER CLAIMS

AVERS CITY SOLICITOR'S OPIN-ION DOES NOT HOLD GOOD.

At the Request of the Finance Committee of the School Board, He Submits an Opinion on the Matter of the City Controller's Claim for Compensation from the School District, in Which the Opinion of City Solicitor Vosburg Is Dealt

Friday night last the finance committee of the board of control held a meeting to consider Controller Howell's claim for compensation, as it appeared under the new light shed upon it by City Solicitor Vosburg's opinion. Attorney D. J. Reedy, the school board's solicitor, was at the meeting by invitation and pointed out to the ommittee how Mr. Vosburg's opinion was not good law.

The committee requested Mr. Reedy to put his contentions in writing, that they might be presented in ready form to the board. Mr. Reedy complied in the following communication.

MR. REEDY'S OPINION.

September 7, 180. Board of Control, City of Scranton School District.
Gentlemen: Again replying to the communication of the city controller, addressed to your body, asking for an allowance for clerk bire, and in which an pinion from the city solicitor sustaining ils position is enclosed, I would say: The only Act of Assembly, the constitutionality of which has nover been passed upon by an appellate court in this state, which imposes upon the city con-

troller the duties in connection with the school district such as supervising school ecounts, countersigning warrants, etc., the Act of May 23, 1874, P. 35, P. L. hearing in the injunction case of the 254, which provides: "He shall have the supervision and con-Scranton Railway company against the trol of the fiscal concerns of all depart-ments, bureaus and offices of the * * * Moir, with reference to the Nay Aug

school district."
"He shall countersign all warrants on park loop. The company was represented by Major Everett Warren and the city treasurer and shall not sufter any appropriation made by the * * * the city by City Solicitor A. A. Vos-

school board to be overdrawn. "He shall be paid a fixed yearly salary, o be provided by ordinance, which shall not be increased or diminished during his first witness called. His testimony was

No citation of authorities is necessary to make the foregoing clear. In the very reading it is emphatic that the city con-troller's salary shall not be increased or diminished from that fixed by ordinance. The case of Baldwin vs. Philadelphia. cited by the solicitor, as stated in my former opinion, is not applicable. It passes only upon the question of salary under Article III, section 13, of the con-stitution, which is as follows: "No law shall extend the term of any

public officer, or increase his salary or emoluments after his election or appointment. ORDINANCE NOT A LAW.

In the case cited it was held that an ordinance was not a "law" as contemplated by the constitution. As if to cure the effect of this decision the Act of 1874 provided it should not be increased or

liminished by ordinance,
The Act of May 23, 1899, section 6, P. L. The Act of May 25, 1825, section 5, 17. Let 274, cited by the city controller and the city sollicitor which provides: "The city controller of any city of the third class shall exercise the same authority and supervision of the finances and accounts supervision of the finances and accounts."

The Act of May 25, 1825, section 5, 17. Let 274, cited by the says, gives them practically a double track. On the work of grading and construction his company has expended between \$6,000 and \$7,000. The plaintiff rested with Mr. Silliman's testimony, and the city controller and controller and city co with reference to the finances and ac-counts of city affairs, and he shall countersign all warrants for the payment of money out of the school treasury in the edge of the agreement of 1893 between money out of the school treasury in the same manner that he countersigns city the city and the company.

The defense called C. C. Mattes as vices shall be fixed by the school board the first witness and had him produce prior to his election, and he shall be reto give bond to the school district, with surety or sureties, conditioned for the faithful performance of his duties; provided, however, that this section shall only apply to cities having a city controller." is unconstitutional and has been so held by the supreme court in Com. vs. Reynolds, 137 Pa., St. 328. Mr. Justice Clark who delivered the opinion of the court said: "The Act of May 23 9. P. L. 274, relating to school districts cities of the third class violates Ar-

ricle III, section 7 of the constitution, and The Act of May 23, 1874, is the only law everning the duties and salary of the districts, and I am still of the opinion that the request of the city controller for an appropriation to him for clerk hire not be legally complied with: and an | This was in 1894 and specified that the of his compensation will be contrary to law.

NO AUTHORITY FOR IT. A careful examination of the statule:

nd authorities of Pennsylvania fails to reveal any express or implied authority or the payment of money from the school reasury to the city controller. The school district passes no ordinances and no Act of 1874 would imply that he is to receive sadary only from the city which alone passes ordinances. To make this inference stronger we need only read the Act of 1889 which shows that in the minds f the legislature it was considered that the city controller was not entitled to compensation from the school district and by that Act it was sought to do so Sulary is defined "the periodical comensation to men in official and some her situations."

21 Am. and Eng. Ency. of Law, 463. Com vs. Butler, 10 Pa., St. 512. An additional allowance to the control-er from the services of clerks already in his employ would in my judgment be an increase of his compensation as fixed by the ordinance of the city councils which allows him the sum of \$3,00 for salary, clerk, and incidentals.

Now that the subject has been brought the surface for a second time by the emmunication of the controller, it might of be amiss to discuss the 39th section

its constitutionality is virtually assailed in the proceedings now pending in the

They Reported a Greater Number of Violations of the Law Than is Their Wont-Grand Jury Has an Anundance of Work on Hand-An Old Law Invoked to Checkmate the Borough Council of Winton-Witnesses Examined in Election Contest-Marriage Licenses.

Court resumed sittings yesterday morning after the long summer vacation and from now until the first of next July it will swing along almost without interruption. Contrary to expectations, no opinions were handed down yesterday. After the motions were disposed of the grand jurors were alled and sworn and H. C. Du Bois, of this city, appointed foreman. Judge M. Edwards delivered an exhaustive charge, going over in detail the duties and obligations of a grand juror. It is expected that upwards of 1,000 cases will come before the jury during the week.

A number of important ones were called up yesterday. Several cases against Daniel O'Leary, the burglar who entered more than a score of houses on the hill and in Green Ridge, were considered and the libel cases of Colonel E. H. Ripple against Richard Little and Michael O'Toole, of the Scrantonian, were also

An Old Law Invoked.

For the first time in this county the urt was asked yesterday to quash an indictment under the provisions of the brough act of 1851. The attention of the court was called to the law by Attorney C. P. O'Malley who represents Thomas Mack of Winton, a stockholder of the Seymour Electric Light Company of that place,

The company in question was organized some months ago and soon after its incorporation was granted a franchise by the borough council of Winton permitting it to install a plant and erect its wires along various streets of the boroughs. It also appears that at some time later the council passed another ordinance authorizing the proper officials to enter into a contract with the Seymour company to light the streets of the borough for a term of five years.

Recently other ordinances were assed by the borough council revoking the franchise and contract. This act is held by the Seymour company to be illegal and yesterday the court was asked to quash the last or revoking ordinance under the provisions of what is known as the old borough act of 1851 which provides that an appeal can be taken by any person aggrieved by the passage of an ordinance by a borough ouncil, said appeal to be taken when the first grand jury meets after the passage of the ordinannee, Judge Edwards ordered the papers filed and the case will come up later for consideration by the court.
