REV. MR. DIXON ON THE COUNTY FAIR

SENSATIONAL SERMON DELIV-ERED AT STROUDSBURG.

The Pastor Who Knows Beer from Ginger Ale Pays His Respects to the Monroe County Agricultural Society-A Sermon Bristling with

Special to The Scranton Tribune. Stroudsburg, Pa., Sept. 18,-Rev. E. E. Dixon, paster of the East Stroudsburg Methodist Episcopal shurch, created a sensation last evening by preaching a sermon on the recent Monroe county fair. In his remarks he termed the event a disgrace and called directors 'anarchists" because they allowed the law to be violated. Said Rev. Mr. Dixon; "As now conducted the affair is a disgrace to our county and we had better not have a fair than have it like the last one," He took for his sermon subject "Vanity

Fair and a Relative or Two." The pastor promised in the start of his sermon to tell the truth and asked some one to interrupt him if he did not tell what was so. Pastor Dixon commended the displays and some of the stands, He had a list of them all and read from it: "The buttermilk stand," said Rev. Dixon, "was all right. The Boston cream cake stand was good enough: two frankfurter stands, They're all right," roared the past w. W. C. I. stand, God bless It They gave out sparkling, cold. clea-

There were ten or eleven beer stands These came in for a raking in language characteristic of the apostle of cold water. The money gaine i by the agricultural society will do them no good. He scored the authorities for not taking action in the matter. Pas of Dixon was not quite so severe on horse racing, but said that a man who won money was a thief. The pastor said that a man who had been drunk once was never afterwards perfectly same.

Eight years ago she was married to Mr. Gaughan. No children survive. and Mrs. Hayes, of Freeland, a sister

of the deceased. George C. Robbins, of 249 Lehigh street. Wilkes-Barre, died at his home has been given.

Mrs. Mary E. Lewis, of Tanner, Gilmer Co.,
W. Va., writes: "For lifteen years I suffered untold misery. I had given up all hope of ever getting well. I could not ite down to sleep, and everything I ate would almost cramp inc to death. Was very nervous and could hardly walk across the room. I only weighed uinety pounds when I commenced taking these medicines; I now weigh one hundred and forty pounds and am having better health than ever before. I have taken the 'Pavorite Prescription,' the 'Golden Medical Discovery,' and the 'Pellets.' I take great pleasure in recommending your medicines to the sick for I know that if it had not been for them I would not have been living to-day. I am very thankful to God, who put the great power in your medicines that cured me."

JARILLA RICHNESS.

Reports of New Ore Bodies and Increasing Mineralization-Evidences Multiplying That This Is to be One of the Most Prosperous Mining Camps in the Southwest-Pleasant Promise of the Placers.

El Paso (Tex.) papers are devoting nuch space in every issue to the mining developments in the Jarillas. It is only a year since this marvelous region as opened up by the El Paso and Norteastern Railroad company (very largely controlled by business men living in the Wyoming Valley) and the fame of it is already drawing quick witted mining men from all parts of

The following notes are from a recent issue of the El Paso Herald: Jarilla as yet is only a prospect yet. The camp through development work by only one company on their claims, during the year, has shipped over five thousand tons of profitable ore,

The Lucky is now drifting on good ore bodies from the 60 foot and 130 foot evels and is loading 20 tons per day, which will soon be increased to 100

The Nanie Baird has opened up immense ore bodies which now requires working shaft as they have reached the limit of hoisting by a horse whim and these improvements will be inaugurated immediately. This mine has shipped over 4,000 tons of pay ere, simply in opening up and proving their ground. With a working plant in dace, it can ship 100 tons per day, The Maggie has opened up a good body of ore and in a few days will begin shipping a car per day. General Manager J. A. Eddy has

een in camp several days working nard, under ground and above ground. examining ore bodies, their course, pitch, quantity and quality, and with Superintendent H. S. Church planning for more permanent improvements. Mr. S. N. Farris, of Cripple Creek, after visiting the workings of the Lucky and Nannie Baird, and panning dirt from the placer grounds, said: "Good: it looks all right; you will have a mining camp in due time. I am oming out again to give it a more thorough examination. If I can get ground on proper terms I may become interested, and I can influence some

vantages of this camp for El Paso, and with others became interested in ive claims some three years ago. Their ground is good mineral ground well located and they will soon inaugurate development work. Mr. Cour-

A. Courchesne, the enterprising bus-

ness man of El Paso, saw the ad-

chesne said: "Ashamed to admit it, but this is my first visit to this camp, although have been selling goods to it for the past year, I am well pleased.

'It is far fewond what I had pictured in my mind. I have had some mining experience in Colorado and old Mexico and it looks to me from all indications that we are liable to have a great big camp here before we are aware of it. It will be crowding us, just as everything else has done in El Paso. We can't claim that our home enterprise has made El Paso for we are inclined to be mossbacky, some one has to come along like the Eddy brothers and wake us up and give us a push. but when we get started we get there,

and we will get there on this mining the golden anniversary of the state lodge on the 29th and 30th of this ones, and I hope El Pasoans will be camp. among them. I shall give more attention to this camp. I shall come again. I have examined the underground workings and seen Immense bodies of shipping ore and the surface indications are that any person or company that will spend money sinking inside the mineral belt is liable to open up large

ore bodies. "This find of placer gold is an important discovery and if proven by further prospecting will finally create a big excitement. It proves, that these ountains contain gold yet to be de-

veloped ' J. J. Mundy, President of the Jurilla

Gold Mines company, after through the Maggle and the Nancie Baird mines said: "I guess I must be getting the runing-fever. This placer gold find, is what interests me. I want to see how

it is done. I want to find a nurget myself. Seeing and feeling, is believing, you know. If this gold find proves general over these flats, then this would be a poor man's camp. "I like every El Pasoan who has visited this camp, think it a golden on-

THE MARKETS.

Wall Stret Review.

New York, Sept. 18.-There was a further drastic liquidation of speculative accounts on the stock exchange in response to the continued contraction of credits by the banks who entered upon a struggle to maintain their reserves within the legal limit. Since Friday more than enough money has gone from the banks to the subtreasury and the interior to wipe out the insignificant surplus saown by Saturday's bank statement. As only a half hour was afforded after the appearance of the statement on Saturday for the liquidation of accounts very large volume of selling orders from all quarters had accumulated in brokers hands when the market opened today. Prices took a downward plunge on opening transactions throughout the
