MR. PALMER ON THE CONFERENCE

OPINIONS OF A WILKES-BARRE-AN ON TRUST POW-WOW.

The Ex-Attorney General Finds a Varied Assortment at Chicago-Many of The Trust Remedies Procosed Much Worse Than the Disease They Are Supposed to Cure. Colonel Bryan a Disappointment.

Wilkes-Barre, Sept. 20.-Hon. H. W. Palmer, who attended the trust conference at Chicago as a delegate appointed by Governor Stone, has re-turned from his trip and expresses himself in an interesting way with reference to the same. He says in part; "I found the conference at Chicago

very instructive as well as amusing. Taken all together, the chief performers were a most remarkable assortment. Political economists, labor reformers, socialists, single taxers, naarchists, free traders, protectionists, politicians, demagogues and cranks were all represented and given an oppotunity to air their peculiar views. The most conspicuously absent person was the trust promoter.

"All the different classes of people were of one mind as to the capacity of combinations of manufacturers large enough to control trade for making mischief by overcharging, but there was no agreemnt on any other subject. Some of the professors of political economy who were, of course, familiar with the history of industrial fevelopment in all countries were of the opinion that the tendency among manufacturers to consolidate for the purpose of avoiding destructive competition, saving in the cost of production and distribution, was a natural evolution and distinct advance; that evidently the effect would be to reduce the cost of the necessaries of life and advance the wages of labor; that the capitalist, the consumer and the laborer or mechanic would all share in the saving and the general welfare be promoted by the decrease of economic waste. This rosy view was strongly contradicted by th anti-trust shouters, who contended that the temptation to advance prices when a combination obtained control of the market would be too strong to he resisted and that instead of reducing the cost of the necessaries of life it would be increased.

The remedies suggested by the antitrusters were various. The Southern delegates were in favor of smashing all combinations of capitalists without reservation or mercy. Texas auf-Ar-kansas have already adopted laws closing their courts to all rersons or corporations who seek to collect a debt due a combine, forbidding them to transact business in the States, and making disobedience to the law a felony punished by fine and imprison-

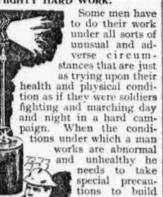

"Mr. Bryan's remedy was to give the States full power to deal with the trusts as they might see fit, and to the federal government power to regulate and license all doing interspace busi-

"Mr. Cochran favored laws securing publicity of accounts, and with this means of knowledge in the hands of the people, the greater libert" to de business with or without combinations being assured, that excessive profit would instantly bring competition into any and all fields of industry.

BRYAN A DISAPPOINTMENT. In speaking of Mr. Bryan Mr. Palmer

"Mr. Bryan and his speech were a great disappointment to his admirers and to none more than the vary enthusiastic delegation from Texas and Arkansas. It was observed that his observance was labored, his law faulty and the remedy for what he assumed to be the evils of combinations of carital far worse than any possible disease. During the latter part of Mr. Bryan's address he adapted portions of his former speeches, which went off more easily. The newspaper accounts of his reception and the applause given him were greatly overdrawn. I have seen meetings as dmonstrative in Wilkes-Barre many a time. The sentiments most vociferously appleuded were extracts from the Declaration of Independence, and the Ten Commandments. Whether they were very novel or very familiar in Chicago could not be determined. The concentus of opinion was that as a debator, thinker and

extra strain.

"In 1594. I was nowking at might and I broke out in lumps all over and when these left the skin peeled off, says Mr. John A. Calloway, of 218 50th St. Columbus. Georgia in a recent letter to Dr. R. V. Pierce, of Buffalo, N. V. "I had catarrh for four years and also liver and kidney trouble; when it would commence troubling me I would have a slight aching a little below the chest. I used many kinds of medicine but received no benefit. My eyes were sunken and my face was pale; I had pinples on my face and there was brown spots on my face. Now these are all gone. I took six bottles of Dr. Pierce's Golden Medical Discovery and two of Dr. Pierce's Fellets. They are the best medicines I ever used in my life, and I do believe that I sm entirely well. I have a good appetite but before I commenced treatment I had no appetite at all. Now I am like a child—ready to eat at any time of day or night. Last year I weighed one hundred and thirty-four pounds and now I weigh one hundred and forty-five. Please accept my thanks. I am so glad I found the right kind of medicine."

"Golden Medical Discovery" is free

Golden Medical Discovery" is free from alcohol; it is pure medicine and noth-ing else. Unlike the so-called "tonics" and "extracts" which tend to create an appetite for stimulants, the "Discovery" appetite for stimulants, the "Discovery" creates only a healthy natural temperance appetite for good food which nourishes and strengthens. The medicine dealer who says he has something "just as good" knows that he falsifies. If he arges an inferior substitute it is to gain a few pennies greater profit. No matter how discouraged you may be, write to Dr. Pierce for advice which he will send you free and which if fallowed, is bound to do you good.

orator Mr. Bryan is not in Burke Coch-ran's class. In fact his cheap platitudes and coarse stories fell very fial on the delegates prosent, and from them he had only scatter a capplacse. but the galleries made up when op portunity offered. He say: the galety f the convention was greatly reinforced by the delegates from the South, particularly Texas, Arkansus and Misgouri, who were all represented by numerous patriots, including their at orney general. They came with the declaration that their minds were made up, and that anti-trust laws filled the bill as a remedy, but the alterity with which they voted in the committee on resolutions to present no resolutions indicated that their confidence had

FEMALE LABOR SCARE.

Not Enough Girls to Suit the Pottsville Factories.

Pottsville, Sept. 20 .- Scarcity of feale labor is the cry of the silk and shirt manufacturers here. Some time igo, when business was dull, many girls left Pottsville to seek employment elsewhere. Now the supply of female labor is not equal to the demand. The shirt factory has for some time been incapacitated owing to lack of hands to operate the machines.

There is a wonderful increase in the lemand for female labor in the rast year or two. Many factories desiring scarcty of this element of the local proper work on the part of pastors and population.

Next examined was a Hungarian minister of Peckville, in theology by Rev. Dr. Robinson, Revs. Von Krug and P. Steinman acting as interpreters. In the midst of the examination the afternoon session closed.

SESSION TUESDAY EVENING.

At the Tuesday evening session there as a good-sized congregation. Rev. R. Moore, of Troy, was in the chair. Rev. Mr. Hodge, of Tunkhannock, read the Scriptures, and Rev. Mr. Flack, of Plymouth, offered prayer. Able and forceful ten-minute addresses, on the theme "Scriptural Revival," were made by Rev. M. L. Cook, of Marryall; Rev. Charles Lee, of Carbondale; Rev. Dr. Charles E. Robinson, pastor of the Second Presbyterian church of Scranton; to locate here have been compelled to seek other places on account of the Rev. T. A. Mills, Ph.D., of Wilkes-Barre. The speakers affirmed that, with people, there would be a great awakening in the Lackawanna Presbytery next winter. The examination of the Hungarian clergyman was resumed, and he was formally admitted to the Presbytery, the interpreters interrogating him in the German language. A heated and protracted debate followed on the passage of a candidate who had graduated from Auburn Theological eminary, but who, principally through defective vision, had never read the English Bible from beginning to end. MISSIONARY ADDRESS.

Presbytery met at 9 o'clock on Wednesday morning, the devotional exer-cises being led by Rev. Mr. Foster, of cranton, Rev. William Jessup, of Syracuse, made a ringing address that stirred all hearts in regard to the missionary work in Syria. Mr. Jessup is a son of Dr. H. H. Jessup, of Beyrout. Syria, and inherits the noble qualities of his most excellent father. He said that the Protestants in the Turkish empire had increased from 5 persons in 1839 to 75,000 in 1899. Other work, such as schools, colleges and printing houses, have greatly increased. The great discouragement has been for the lack of means, on account of which many of the schools have been closed. But just now, encouragement comes that a large sum has been received toward the reopening of the schools.

After reading the minutes of Tuesday's session, Rev. William Jessup was eceived from the Presbytery of New Brunswick, after which Messrs, H. A. Nye, J. H. Cowan and Mr. Campbell, who were examined on Tuesday, were licensed to preach the gospel. A call from the Bernice church was made to Campbell for his pastoral services, which call he accepted and arrangements were made for his installa-Mr. Campbell has been laboring as a local evangelist in the Bernice church for four years and been very secessful in his work, and has greatly endeared himself to the people.

COLLEGIATE INSTITUTE. Order of the day, on the Susquehanna Collectate Institute at Towanda. The excellent institution is in Fort Carbon borough council, and has financial crisis. Efforts were made to arouse interest in the school. Miss Knittle is a daughter of Frank Dr. Stewart and Flder Quinter were Knittle, the well-known merchant of appointed a committee to go among Port Carbon. Dr. Stewart made interesting adyoung couple will take up their resi- dresses in the interest of the institute. Nearly enough was pledged to raise the \$900 needed.

The overture from the general assembly in regard to judicial commisoners was answered in the negative. An overture for a "court of-appeals," consisting of twenty-one members, posed of three classes; twelve to held three years 2 for two years: 2 for one year, and after that two members for each class be elected for each class, was presented. It was referred to a committee of five, two eldrs and three ministers, to report at

the spring meeting. Rev. Dr. C. E. Robinson made a report in regard to foreign missions. The last year the foreign missionary board had sent out fifty-two new missioneries, the largest number ever sent ut in any one year.

TROUBLE THREATENED AT STEVENS COLLIERY

Polish Miners Declare That the Work Shall Not Be Operated-Awed by

Sheriff's Posse. pecial to The Scranton Tribune.

Pittaton, Sept. 20,-Ever since a few days after the riot at the Stevens' colliery a few weeks ago, the company has had men at work making-repairs in the mines, the number being gradually increased until at present about 15 men are at work. The striking foreigners had made no direct objection until yesterday, when they sent word to one of the sheriff's deputies, a Polish interpreter, to attend their meeting to be held yesterday. While present at the meeting, the deputy was informed that the men now working would be stopped on and after today (Wednes day). The foreigners said they would prevent the work from going on even if they had to sacrifice their own lives, The deputy immediately informed Ross was united in marriage to Thomas bytery adjourned until Wednesday Sheriff Harvey, who was in attendance at Allentown fair, and the sheriff arrived in town last night with a reinforcement of deputies. Early this morning the deputies, thirty in number, some armed with Winchester rifles, others with revolvers, took their position near the scene of the late riot and awaited the arrival of the strikers. The expected trouble, however, failed to materialize, not one Polander being seen near the colliery, and the only glimpse got of them was when they stuck their heads out of the windows of their homes as several deputles patrolled the streets leading to the mine. They have evidently had all the fight they want. Several Polanders are among the company men now at work. The sheriff has posted riot notices in the vicinity of the colliery, warning the strikers.

Good Enough to Take.

The finest quality of loaf sugar is used in the manufacture of Chamberlain's Cough Remedy and the roots used in its preparation give it a flavor similar to that of maple syrup, making it very pleasant to take. As a medicine for the cure of coughs, colds, la grippe, croup and whooping cough it is unequaled by any other. It always cures, and cures quickly. For sale by all druggists. THE MARKETS.

Wall street Review.

New York, Sept. 20.-This was a day of violent fluctuations and great specu lative excitement upon the stock exchange. The movement of prices was so feverish and uncertain that the disposition among professional operators was general to close up accounts with the day. As a consequence net changes are astonishingly small considering the wide vibration during the day. In only n few instances do they exceed fractions, and though the majority of stocks are lower there is a fair sprink-ling of gains. There was a time in the morning when a long list of specfalties had advanced between 1/2 and 2 points and during the afternoon they very generally to as much below last night's level. A range of between 8 and 8 points was traversed during the day by the following industrial stocks: Continental Tobacco, Smelting Preferred, Colorado Fuel, Consolidated Federal Steel, Manhattan, People's Gas, Sugar, Tobacco, Metropolitan Street railway and Brooklyn T.an-The railroad stocks did not move so widely as a rule but an extreme range of between 1% and 2% was trav-

With a total capitalization of 430,000 shares the day's dealings in this stock footed up 285,175 shares. It advanced 2% after the opening, fell 74 to a new low level at 75%, and then retraced its course, rising & points to 84%, and closed at the high level of the morning. The whole market followed in its wake in a general way, though its erratic fluctuations were impossible to follow at all times. The market was a gigantic speculative contest throughout. The bears broke down the gains which had been built up in the morning with apparently little effort. There was large selling through commission houses and the flood of Industrials poured upon the market was said to be due to the calling of some large loans in which these stocks figured as collateral and which were said.
