Luken, pastor of the First church in Wilkes-Barre, Rev. Mr. Funk offering prayer. The church choir rendered several selections.

TIRED OF MUTCHLER.

The Monroe County Democrats Not Satisfied to Sit on the Fence. pecial to The Scranton Tribune

Stroudsburg, Pa., Sept. 21.-There is great rejoicing among Monroe County Republicans over the result of the Easton Conference. The Democratic leaders of the Eighth congressional district up to the time of the meeting this fall were hopeful, but not very sanguine that the differences which have existed for years might be amicably settled. The Monroe leaders today refused to talk for publication, but it is very evident that they are not at all pleased with the result of the meeting. Monroe county's claim for better representation at the meeting is regarded as a just one and in the interest of harmony the leaders have hoped that Northampton county and the othr counties interested should recognize her claim.

The Republican leaders profess to beleve that the Democrat leaders of Monroe county are tired of the Mutchler dictation and will refuse to support future congressmen that may be nominated by the Mutchler faction. The accident occurred about 3 o'clock, when Blackwell had almost completed his day's work. He was at the te of the breast working when he noticed a large lump of coal loosened from the main body. He endeavored to dislodge it and kicked against it violently. Suddenly the lump became dislodged, causing him to lose his balance.

He pitched violently forward toward the top of the chute, clutching wildly at the wall of coal in an endeavor to save himself. He fell near the head of the chute and shot rapidly down the steeply pitched incline to the gangsix hundred feet.

His crushed and bleeding remains were picked up and carried to the surface, but before he reached the open air life was extinct.

Wall Street Review.

New York, Sept. 21.-The tone of the rading in stocks was much quieter to day than for some time past. No such pressure of forced liquidation was observed as yesterday and several preceding days. As a result there was a very general and substantial recovery in price. Brooklyn Transit continued o comprise a large proportion of the dealings, and the cessation of pressure against it and other members of its group had an important influence in the recovery in prices. A revised interpretation of New York's new franchise bill which would bear less heavily on corporations than has been estimated found general acceptance among speculaters. The bears made some effort to cortest the advance and they found vulnerable spots in Peoples' Gas, sugar, tobacco and Tennessee Coal. But their success in affecting the general market was very moderate and their efforts to cover in the very stocks which they had attacked on the late advance. In the railroad list aggressive buy-

ing first developed in Southern Pacific but an excellent demand spread to other points in the list, notably the grangers which are all up from one to 114 on the day. There were notable move ments in Pullman which rose \$74 and Anaconda, which jumped 414 points in the late dealings on the extra dividend declaration. The Chicago, Indianapolis and Louisville stocks gained 214 and 2% respectively. The Chicago, Great Western stocks showed rather sensational declines, but later rose above yesterday's level except for the debenture which are off 4 points. The call loan rate in New York dropped later in the day after the day's demand for money had been practically all met. But the condition of the local market was not materially changed. Total

There is mere Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be becurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Curs, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tenspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred deliars for any case it falls to cure. Send for circulars and testimonials. Address
