ENLISTMENT OF HOWARD COKELY

CLASH OF CIVIL AND MILITARY AUTHORITY AT MONTROSE.

Sergeant Clegg of the Scranton Recruiting Office Refuses to Obey an Order of Court and is Placed Under Arrest for Contempt—A Hearing Will Be Given on October 26 at Montrose.

Montrose, Sept. 24.—The Cokely case, which created so much excitement here, is still the chief topic of conversation and all are anxious to learn whether Judge Searle or the Scranton recruiting office are best informed on the law dealing with military affairs.

Sergeant Clegg returned the writ with an endorsement refusing to deliver up Cokely, calling the attention of the court to the ruling of the Supreme Court in which a judge of the civil court, it was decided had no jurisdiction in the case of a writ of habeas corpus, where a person was held under the authority of the United States army.

Judge Searle, before whom arguments were made, did not consider that Sergeant Clegg had made a sufficient return to the writ and issued an attachment against Clegg, who was placed under arrest for contempt of court.

Captain Bailey arrived here yesterday and secured the release of Sergeant Clegg pending a hearing of the case on Tuesday, October 25, at Montrose.

TUNKHANNOCK NOTES.

Special to The Scranton Tribune.

Tunkhannock, Sept. 24.—A meeting of the people interested in the project of establishing a canning factory here was held at the court house here on Saturday afternoon. The Elmira people who propose to erect the factory in case it is decided to go with the project were present and outlined their methods of procedure. It is estimated that the factory will cost about \$9,000, of this sum they will put in \$1,000 and they ask the people here to subscribe to the project. The factory is to be run by a board of directors, selected by the local stockholders, the farmers being paid for their produce just what it brings in the market after being canned, less one-half a cent per can for the canning. They invited the fullest investigation of the business and suggested that some one be selected to visit some of the canneries which are in operation to satisfy themselves as to the likelihood of its being a success.

Auditor G. D. Wright, of Laceyville, was in town on Saturday. Charles Armstrong, ex-associate judge, was in Tunkhannock Saturday. Charles E. Terry and W. N. Reynolds, Jr., both members of the Luzerne county bar, spent Sunday in town.

LOST IN THE SAND. Many Precious Stones Have Been Dropped by Bathers. From the Philadelphia Inquirer.

The recent loss by a Chicago woman of fashion of a valuable diamond earring upon the sands of Newport has led to reminiscences of other similar losses. It has been reported that \$2,000,000 worth of jewels are lost every season at American summer resorts. The greater part of these disappear at the seaside, and it is believed that a comparatively small part are actually stolen.

At the various summer resorts, bathers are advised to wear several hundred dollars' worth of jewelry, which will be profusely placarded with notices offering all sorts of rewards for the finding or return of missing jewels. Last year the loss of jewels frequently amounted to \$10,000 in a single instance.

At some of the most fashionable resorts, such as Newport or Bath Harbor, the owners of very costly jewels frequently take the precaution of leaving the gems in some safe deposit vault in the city and sending all the way to town for them every time they are needed. That so much more jewelry is lost during the winter is due to rather foolish display which is made of such valuables on hotel piazzas, the sands, and even in the ocean itself. The bathers at the fashionable resorts sometimes indulge in the caprice of carrying a watch upon their person, and several thousand dollars' worth of diamonds and other jewels are lost every year.

The band boys and Mr. DeWitt, the leader, wish to thank the citizens and business firms at large for their kind contributions and services, and especially the ladies for serving meals and their contributions of cakes, pies, etc. They are also thankful for the use of the W. THE MARKETS.

Wall Street Review.

New York, Sept. 23.—The tone of the trading in stocks was quiet by comparison with the recent excited temper on the exchanges. But the local traction stocks continued to reflect a decidedly uncertain frame of mind. Brooklyn transit refused to gain more than a point and then slipped below last night's level. Its extreme decline was five points, and even with a final rally on covering by shorts, its net loss is 3 points. Metropolitan fared better as a gain of one point. There was no marked strength at any time. The early advance was nominally in sympathy with the hope expressed in some quarters abroad that the Transvaal question would find a peaceful solution after Mr. Esterlin's features in it and prices fell away again to the lowest of the day and closed there, except for a few specialties, which rallied. The banks are stronger by a wider margin of surplus reserve than last week, but the statement shows a decrease in cash resources. Loss of 12 cents had been anticipated. The outgo was greatest towards the end of the week, so that the full decrease may be not shown under the system of average by which the statement is made up. His week's reduction of \$17,500,599 on loan, the total loan contraction by the clearing house banks since August 26 aggregate \$31,864,500. Much was made early in the week of a plan for relief of the stringency by an increase of national bank circulation. It will be observed, according to the statement amounts to but \$85,900,000 of the week. Total sales 235,400 shares. The bond market has moved generally in sympathy with stocks, but has not been as active nor changes as wild as the stock market. It advanced 1/4 and old 4's registered closed 1/4 and the 3's 1/4, in the bid price.
