SUICIDE OF MRS. BALL.

Her Heart Blown to Shreds by Contents of a Shotgun.

Special to The Scranton Tribune. West Nicholson, Pa., Oct. 10.-Last Friday evening about 6 o'clock and while her husband and hired man were milking in the barn, Mrs. Napoleon Ball Rutkowski, at William Penn, on Sept. took her little boy out to the barn 24, a habeas corpus hearing. The de-

and left him. She then returned to the house, took a loaded shotgun, placed the butt on the floor with the muzzle resting against her left side over the region of the heart and, placng a stick against the trigger, discharged the gun, the entire contents of the gun entering her side, literally blowing her heart into shreds.

Mrs. Ball had been of unsound mind for several years and had made other attempts at taking her life, but her condition had not been serious enough to place a guardian or watch over She was about 25 years of age and leaves one child, a boy of 5 years.

Mrs. Annie Belle Carpenter Ball was

he youngest daughter of the late Hon. Anson G. Carpenter, of Factoryville. The funeral services were conducted from the M. E. church at Factoryville last Sunday afternoon at 2 o'clock. In terment was made in Evergreen cerr

SURPRISED THE BURGLAR.

Mrs. J. A. Brodie Is Awakenel by a Strange Nocturnal Visitor.

pecial to The Scranton Tribune. Honesdale, Oct. 10.-An attempt was made on Sunday night to burglarize the residence of Mr. J. A. Bodie on Upper Main street. About half past two o'clock Mrs. Bodie was awakened by some person walking up the front stairway. She supposed it to be a member of the family by the light that was kept burning in the hall upstairs. She could see the stairway and to her surprise instead of a member of the family a strange man, rather tall, with a beardless, unmasked face, was comng up the stairs and approaching their rooms. She aroused her husband who jumped out of bed and rushed down stairs in pursuit of the fleeing burglar who made his escape through the kitchen door.

An investigation showed that the ceased, petition of executors to make burgular had entered by a kitchen win-private sale to W. L. Utley filed; Moses dow which he found unlocked. He then placed the kitchen door wide open; then passed through the dining room where he had lighted the gas; passing throughthe hall had removed chairs that would interfere with a speedy exit. Nothing else was disturbed. He left before securing any plunder.

This is also a guarantee to the present subscribers. 60,000 shares, full paid and non-a ssessable, are now offered to the public at the low

This is the ground floor subscription price. It will soon be advance to the Company, the sorking of which will be actively pushed, will include

6,075 ACRES.

The Company does not propose to operate leased properties, but will OWN all of its mining lands in PEE SIMPLE.

The mines unquestionably contain the finest Zine and Lead ores in Christian County, in the noted Jeplin District, Missouri. Great bodies of ore extending in large fissure veins which increase in richness and quantity as depth is gained. The production will be inexhaustible.

These mines have been secured to this Company only after the greatest labor and skillful business management, and the £073 acres above mentioned have been chosen out of a territory of 29,000 acres for the quality and quantity of ore they contain. Such an opportunity could not be secured again and cannot be too highly appreciated.

OTHER VALUABLE MINES ARE NOW OPENED THERE

English, Scotch, Philadelphia, St. Louis and Boston syndicates have secured lands adjoining and in the vicinity of this Company's mines.

Almost all the zinc lands of other companies around Joplin are leased, very FEW COMFANIES OWNING LANDS IN FEE, and most of them not having more than forty to eighty acres under lease.

The owners of the fee derive enormous revenues from royalties from leases, which average 22½ per cent. on zinc and 37½ per cent. on lead ores. This Company will pay no royalties.

This Company will at once erect EXTENSIVE MILLS, which will be enlarged from time to time as the business warrants, so as to secure the greatest return possible. It will also receive lucrative royalties from partions of its property which it may not deem advisable to directly work itself. These royalties alone will pay handsome dividends on the investment.

AFTER THE SALE OF THESE 63,000 SHARES

NO OTHER STOCK WILL BE SOLD FOR LESS THAN \$5 PER SHARE

Zinc is selling for upwards of \$42.00 per ton and costs much less than \$10.00 per ton to market. FIVE-EIGHTHS OF THE ZINC OF THE WORLD comes from this District. The European mines have given out, and this District will soon furnish SEVEN-EIGHTHS OF THE WORLD'S ZINC.

The increasing demand for Zinc ore give all grades of ore a ready sale, and the demands for Zinc mining properties were never so great as now. If the present rate of increase continues, the year's mineral output for the Missouri-Kansas District will reach nearly \$15,000,000.

The property has been thoroughly examined by Mr. A. Arnold, Geologist and Mining Engineer, of Springfield, Missouri, one of the best experts in the world on this subject. His report shows the snormous advantage of the property, and can be seen at the office of the Company, Nos. \$22 and \$23 Stephen Girard Building, Philadelphia, Pennsylvania.

All subscriptions must be accompanied by a payment of \$1.00 per share in cash, certified check or bank drait. The Balance will be payable on the allotment of the shares.

The Company reserves the right to retire one-half of its Capital stock pro rata ter two years upon payment from the surplus earnings of the Company of 500 per share to the stockholders as they appear upon the books of the Company, but only after thirty (30) days' notice prior to the payment of a regular divised. fendants are John and Peter Stenawicz, Rollis and Matt Rubness, Anthony Machulis, Andrew Coras, Mike Brozosky, Charles Skulches, Anthony Stenkawicz, Joe Sachinski and Adam Romanofski.

It was developed that the first six of the defendants are members of the Prenokas society, an organization whose principals are declared to be similar to those of the Chinese highbinders. The society, it was asserted, had decided on the death of Rutkowski, who was a member of the Zukas,

a rival society. Rutkowski, while standing with his wife and baby in the yard in front of his house, was surrounded by a gang of men and his skull was cut open with a hatchet, his death occuring a short time later.

RAILROAD RUMORS.

New Jersey Central May Run Line Up the Susquehanna Valley.

special to The Scranton Tribune. Pittston, Oct. 10.-The fact that a couple of civil engineers were recently at work in the ravine south of Broad street, and that the occupants of three lots that front on Frederick road and run back into the ravine have been notified by the Pennsylvania Coal company to vacate the rear end of their properties, is taken as an in-dication of railroad improvements. Some time since, is was rumored that the Central Railroad of New Jersey was looking for a route through Pittston to Scranton, and at that time a branch was built from the main road near Wilkes-Barre to connect with the Eric and Wyoming Valley road at Port Blanchard, allowing the interchange of coal and freight by the two roads, but nothing more was done toward building the road to Scranton. The rumor has been revived by the pres-

nce of the surveyors. By constructing about a half mile of track through Broad street ravine, to connect with the Erie and Wyoming's main line, and the building of another short branch at Old Forge to connect the Eric and Wyoming with the Contral's main line, a complete chain would be formed. By the consummation of such a plan, the Central would be brought right into the heart of Pittston and given an excellent chance secure a large share of the traffic between Pittston and Scranton. Whether the scheme will materialize or not remains to be seen.

AN EXPENSIVE COFFIN

Special to The Scranton Tribune

Provided for the Remains of Mrs. Mary E. Appley.

Honesdale, Oct. 10.-Probably never before in the history of Honesdale was there as expensive a case and casket used as there was today for the remains of Mrs. Mary E. Appley. By her request, Brown's undertaking establishment was called upon to furnish a casket made of South American edar, solid, very fine, three-ply broad, clothing covering, chancellor style with a purse copper inside case, lock connection, perfectly air-tight, water and dust proof, with extension side handies. The outside case, or what is commonly called the rough box, was made of Santiago cedar, very highly polished, lined throughout and had solid copper corners and trimmings. The chancellor style was first used for the remains of General Grant.

today demonstrated in a striking manner its reliance on the domestic money situation and its indifference to the events in foreign lands. The London market advanced prices under the lead of Kaffir mining stocks in which there is a merry speculation, based on the assumption of early control by the British government of the Rand mining district. The local market responded only partly to the improved quotations from abroad and more than lost the opening gains before the end of the first hour. Then came the announcement from Washington of the decision of the treasury department to anticipate the November interest on government bonds without discount and that of the entire fiscal year at a discount of two-tenths of one per cent., about the regular rate of government bonds. The response was prompt and emphatic, prices rising with more appearance of strength than for a long time past. The gains ranged from 1 to over 2 per cent, in many active stocks. The buying was undoubtedly in large part due to the covering of short contracts by the bear interest which has been considerably extende during the last few days ou the continuing appearance of money stringency. The speculative industrials were most affected including those in the metal industry. Total sales 435,-

The bond market continued dull and changes in prices were maintained. Total sales par value \$2,035,000. U. S. new 4s declined 1/4 in the bid
