## THE MARKETS.

Wall Street Review.

New York, Oct. 13 .- The temper of speculation was determinedly bearish today and all favorable incidents vere persistently ignored. The reactionary spirit found its chief vent in Brooklyn Transit. That stock was easily the leader of the market in point of activity, and although the dealing did not approach the high water mark of a few weeks ago, the unsupported condition of the stock and the large blocks of business suggested a resumption of late conditions. Call loans were decidedly easier again, the maximum rate not exceeding 51/2 points and the majority of the day's loans being made at 5 per cent, or below. The total sales wer 259,900 shares.

The bond market was moderately active and price changes were mixed. Total sales, par value, \$1,765,000. United States 3s declined 1/2 and the new 4s advanced 1/4 in the bid price.

The range of today's prices for the active stocks of the New York stock markets are given below. The quotations are furnished The Tribune by J. A. RUSSELL & CO., members of the Consolidated Stock Exchange, 419 and 411 Consell building, Scranton, Pa.
