The Company does not propose to operate leased properties, but will OWN all of its mining lands in FEE SIMPLE.

The mines unquestionably contain the finest Zine and Lead ores in Christian County, in the noted Jeplin District, Missouri. Great bodies of ore extending in large fissure veins which increase in richness and quantity as depth is gained. The production will be inexhaustible.

These mines have been secured to this Company only after the greatest labor and skillful business management, and the 6.0% acres above mentioned have been chosen out of a territory of 200,000 acres for the quality and quantity of ore they contain. Such an opportunity could not be secured again and cannot be too highly appreciated.

OTHER VALUABLE MINES ARE NOW OPENED THERE English, Scotch, Philadelphia, St. Louis and Boston syndicates have secured lands adjoining and in the vicinity of this Company's mines.

Almost all the zinc lands of other companies around Joplin are leased, very FEW COMPANIES OWNING LANDS IN FEE, and most of them not having

FEW COMPANIES OWNING LANDS IN FEE, and most of them not having more than forty to eighty acres under lease.

This Company will at once crect EXTENSIVE MILLS, which will be enlarged from time to thee as the bosiness warrants, so as to secure the greatest return possible. It will also receive lucrative royalties from portions of its property which it may not deem advisable to directly work itself. These royalties alone will pay handsome dividends on the investment.

AFTER THE SALE OF THESE 60,000 SHARES NO OTHER STOCK WILL BE SOLD FOR LESS THAN \$5 PER SHARE

Zine is selling for upwards of \$12.00 per ton and costs much less than \$10.00 per ton to market. FIVE-EIGHTHS OF THE ZINC OF THE WORLD comes from this District. The European mines have given out and this District will soon furnish SEVEN-EIGHTHS OF THE WORLD'S ZINC. The property has been thoroughly examined by Mr. A. Arnold, Geologist and Mining Engineer, of Springfield, Missouri, one of the best experts in the world on this subject. His report shows the enormous advantage of the property, and can be seen at the office of the Company.

Employe of Powder Company Accepts Risks of an Explosion.

Wilkes-Barre, Oct. 15 .- In the imrtant damage case of Eugene F. Hartland against the Oliver Powder ompany for \$10,000 damages for injuries and burns received in an explosion at the powder mills five years ago, Judge Halsey yesterday morning granted a non-suit. He said:

"We find that the rules of law govrning risks assumed by employes to e that by contracting for the performance of duties employes assume such risks as are incidental to their discharge. Employes are bound to take notice of the ordinary operation of natural laws, and to govern themselves accordingly. If they fall to do so the risk is their own. They are bound to use their eyes, and if they fail to do so they cannot charge the consequences upon the master. Where the danger is open and obvious and within the knowledge of the employe at the time of the employment, he cannot complain if subsequently injured by exposing himself

to such danger. "The plaintiff here was sweeping the powder from the walk between the mixer and distributing shed at the constructing a bridge at West Pitts- time of the accident. He testifies that he was doing this for the purpose of preventing it from taking fire. This as the green powder from the mixed that had fallen from the boxes. He also testifies, upon cross-examination, that he knew the powder in the distributing shed was dangerous and Hade to burn. It seems, therefore, to us, that the danger and risk of the plaintiff's employment was open and byious to him and within his knowledge before the accident.

ELOPERS BROUGHT BACK.

Couple Who Reached England Must Face Charges at Wilkes-Barre.

Wilkes-Barre, Oct. 15 -- John Ste ohenson and Mrs. Alice Jones, who cloped to Europe some two months ago, were brought back to Wilkes-Barre last night,

Previous to their elopement, Stephenson, it is said, impersonated the woman's husband and secured a mortgage on property. The elopers received \$600 and then fled to Europe. The authorities at Liverpool were cabled to arrest the runaways, which they did. Governor Stone asked for extradition papers, which were promptly granted by the state department at Washington. Arm 1 with these papers, County Detective Johnson went to England and took the depers in custody.

Upon their arrival they were given preliminary hearing and held in bail for trial at court.

DAMAGES FOR A LOST ARM.

For Mishap in a Coal Mine the Court Awards Workman \$600.

Shamokin, Oct. 15.-Michael Zebracki was given a verdict for \$600 damages yesterday by a jury on account of an accident he sustained at the Girard colliery, the operators of which he sued. At the time of the accident he was 15 years old and could not speak English.

He was employed by the company at their breaker shoving coal down a chute, and claimed he was put to work without having been given instructions as to the danger. Slipping, his one arm was caught in the cogs and ground off at the elbow. Plaintiff's attorney will ask for a

new trial, as they think the amount awarded insufficient.

BRIDGES TO BE SOLD.

A New Company Will Control Spans That Connect the Two Pittstons. special to the Scranton Tribune.

Pittston, Oct. 15.-In all probability he two Pittston bridges will pass into the hands of a new company next Tuesday. Some months ago Joseph Glennon, one of the leading stockholdrs of a newly organized company, secured an option on the stock of the bridges at \$71 per share for the Water treet bridge and \$65 per share for the Ferry bridge. As there are 919 shares of the former and 1,070 shares of the latter, it will require \$134,000 to buy the

two bridges. The time limit of the option expires Tuesday, Oct. 17, and the officials of the bridges have been notified that the new company has decided to purchase the stock at the above prices. The money to pay for the Water street bridge stock will be de-posited in the People's Savings bank on Tuesday, and that for the Ferry

stock will be deposited in the First

National bank. At present both bridges are owned by separate companies, and owing to a disagreement between the two companies the public is receiving the benefit of a cut-rate fight. The consolidation of the two bridges into the possession of the one new company will undoubtedly mean the raising of tolls to the same rates as before the fight began. The new company is said to be composed of six men, among them being Joseph Glennon and M. W. Morris, of Pittston; E. W. Mulligan and J. P.

THE MARKETS.

New York, Oct. 14.-The day's stock

market deflected nothing more than a contest of professional operators, and those not of very large calibre. There were small buying orders at the opening for London account, on rumors of a re-verse for the Boers at the hands of the British in Natal, which seemed to help prices to move upwards. The bear campaign against Brooklyn transit was suc-cessfully prosecuted and the stock was at one time forced % under last night. Met-ropolitan and Manhattan seemed to sym-pathize but recovered their decline with the final rally of 1% in Brooklyn Transit. Pullman has added 3 more points to its price and Great Northern Preferred 3%. Gains were pretty generally wiped out after the publication of the bank statement, but covering by the bears brought some prices a fraction above last night again. Extra disbursements by the government during the week, on account of the deficit of the postoffice department and on account of pensions had off bearing on account of revenue payments, so that the banks have lost nothing to the sub-treasury on routine operations. This is not expecied to continue next week and not much confidence is felt that the government interest to be paid on Mon-day in anticipation of its maturity will avail to offset the drain into the su treasury on account of the surplus revenues. Neither is there any hope duplicating this week's receipts of gold which amounted to rather over \$3,000,000 with foreign gold, a small amount from Cuba and some from San Francisco. The outlook is further depletion of bank cash and additional contraction of loans. To-tal sales of stocks today, 231,600 shares.

The range of today's prices for the active stocks of the New York stock markets are given below. The quotations are furnished The Tribune by J. A. RUSSELL. & CO., members of the Consolidated Stock Exchange, 410 and 411 Connell building, Seranton, Pa.
